Overview of Requirements

CPF grants are subject to several Federal requirements. HUD will provide additional information and further clarification regarding applicable requirements and the grant award process in upcoming webinars and additional technical assistance. The most essential requirements include:

- 1) **Administrative Requirements:** CPF grants are subject to the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR Part 200).
- 2) **HUD Environmental Review Requirements:** EDI/CPF grants, like all projects funded by HUD, are subject to requirements under the National Environmental Policy Act (NEPA), HUD’s NEPA-implementing regulations at 24 CFR Part 50 or 24 CFR Part 58, and appropriate federal environmental and historic preservation laws, regulations, and Executive Orders.
 - To be eligible, activities and expenses must comply with applicable Federal requirements. This includes administrative requirements under 2 CFR Part 200, environmental laws, statutes and Executive Orders, and other “cross-cutting” federal requirements adhered to by HUD.
 - If the environmental review is being conducted by a local government responsible entity under Part 58, a Request for Release of Funds and Certification must be approved by HUD, as applicable. If the environmental review is being completed by HUD under Part 50, the environmental review must be approved and certified by HUD.
 - HUD defines the “Federal Nexus” for a program or project as the event that triggers the requirements for federal environmental review under a host of laws, regulations, and Executive Orders, including the prohibition on choice limiting actions.
 - For FY2024 grants, the date of the Act’s enactment (March 9, 2024) is the federal nexus for compliance with all environmental laws. Once a project is federalized, in keeping with the National Environmental Policy Act (NEPA) and HUD’s NEPA-implementing regulations at 24 CFR Part 50 or 24 CFR Part 58, environmental reviews must be completed, and all necessary HUD approvals must be obtained prior to taking any choice limiting actions, such as acquisition, construction, ground disturbance, and entering into contracts.
 - Further explanation and guidance on choice limiting actions and the environmental review process, including historic preservation review, is included within the CPF Grant Guide and on the program’s webpage at: <https://www.hudexchange.info/programs/cpf/>.
 - Some projects may already be underway at the time of federal nexus and while it is still best practice to stop all work after the federal nexus before the environmental review is complete for EDI/CPF projects that are already underway at time of federal nexus, grantees are allowed to perform activities after the federal nexus, but only for activities which are

part of a pre-nexus contract that obligates them to do so. However, grantees would be doing so at their own risk, as any activity performed, or proposed to be performed, after the federal nexus must be included in the project scope of a satisfactory environmental review to be reimbursable.

- A satisfactory review must show that the project activities will not result in unmitigable environmental harm and must not preclude consultation with the appropriate environmental authorities such as the State Historic Preservation Office (SHPO). Environmental authorities may refuse to consult if physical impacts are made to a site before consultation.
- HUD conducted a nationwide environmental review for FY24 EDI/CPF soft costs to clear activities such as administrative, planning, and operations and maintenance costs (including costs to prepare an environmental review). After execution of the Grant Agreement, eligible soft costs can be incurred after March 9, 2024 (see 2 CFR 200.403). Eligible hard costs can be reimbursed if incurred after a full environmental review is completed (see 2 CFR 200.403).
