1. Pool Offering Summary

HUD-held Vacant Loan Sale 2020-1 (HVLS 2020-1) featured six geographically concentrated National pools for sale to all qualified bidders. Table 1.1 shows the pools offered in the HVLS 2020-1 with the aggregate loan count, loan balance, and Broker Price Opinion (“BPO”) values.

In addition, HVLS 2020-1 featured five Non-Profit Carve-out Pools, Pools 627-631, as shown in Table 1.2. The loans in Non-Profit Carve-out Pools 627-631 were concurrently offered for sale in National Pools 621-625 respectively to all qualified bidders. For these Pools, only qualified non-profit bidders could to select between a minimum of 10 loans and a maximum ten percent of the loan count (rounded up to the nearest whole number) of the corresponding National Pool 621-625. Pool 626 was not offered as a Carve-out pool due to only 6 loans in Puerto Rico.

4. Glossary

BPO: Broker Price Opinion, or BPO, is the market value of real estate property, as estimated by a licensed real estate professional. A BPO is not an appraisal; it is value determined based upon sales trends, condition of the property, and recent sales prices of similar properties.

Loan Balance: Loan Balance represents the sum of the unpaid principal balance, accrued interest balance, accrued mortgage insurance premium balance and the accrued service fee balance.
