

**HUD Office of Lead Hazard Control and Health Homes Grant Awards
Announced on January 3, 2025 – Project Descriptions**

Lead Based Paint Hazard Reduction

New York

Erie County (NY)

Lead amount: \$7,000,000

Healthy Homes Supplemental amount: \$750,000

Total amount: \$7,750,000

Erie County (NY) will be awarded \$7,750,000 in Lead Based Paint Hazard Reduction grant program. Erie County (NY) will address lead hazards in 300 housing units, providing safer homes for low and very low income families with children. Of this award, \$750,000 is in healthy homes supplemental funding for the County to address other housing-related hazards in selected housing units having lead-based paint hazards reduced. The County will be working with other medical and social service providers. Contact Person: Melanie Desiderio, 716-961-6800 and melanie.desiderio@erie.gov.

Ohio

Erie County (OH) Health Department

Lead amount: \$4,500,000

The Erie County (OH) Health Department will be awarded \$4,500,000 in Lead Based Paint Hazard Reduction grant program. The Department will address lead hazards in 172 housing units providing safer homes for low or very low income families with children in Sandusky, Elyria and Lorain Cities with additional target areas in Norwalk, Bellevue and Fremont Cities. The Department will be working with other medical and social service providers. Contact Person: Steve Staley, 419-626-5623 and sstaley@echdohio.org.

Pennsylvania

City of Philadelphia

Healthy Homes Supplemental amount: \$750,000

The City of Philadelphia will be awarded \$750,000 in Healthy Homes Supplement funding to its Lead Hazard Reduction Demonstration grant of \$7,000,000 that HUD announced on October 8, 2024. With the supplemental funding, the City will address housing-related hazards in selected housing units in which it is reducing lead-based paint hazards, providing safer homes for low or very low income families with children. The City will be working with other medical and social service providers. Contact Person: Dawn Kieseletter, 215-685-7490 and dawn.kieseletter@phila.gov.

Tennessee

Shelby County

Healthy Homes Supplemental amount: \$80,325

Shelby County will be awarded \$80,325 in healthy homes supplement funding for its Lead Based Paint Hazard Reduction grant for which HUD awarded \$4,730,860 for lead hazard reduction work and \$691,674 for healthy homes work on October 8, 2024. With the additional supplemental funding, the County will address housing-related hazards in more housing units in which it is reducing lead-based paint hazards, providing safer homes for low or very low income families with children. The County will be working with other medical and social service providers. Contact: Scott Walkup, (901) 222-7610 and scott.walkup@shelbycountyttn.gov.

Virginia

City of Roanoke

Healthy Homes Supplemental amount: \$750,000

The City of Roanoke will be awarded \$750,000 in Healthy Homes Supplement funding for its Lead Based Paint Hazard Reduction grant for which HUD awarded \$5,000,000 in Lead Hazard Reduction Demonstration grant program funds on October 8, 2024. With the supplemental funding, the City will address housing-related hazards in selected housing units in which it is reducing lead-based paint hazards, providing safer homes for low or very low income families with children. The City will be working with other medical and social service providers. Contact Person: Katie Kennedy, (540) 853-5841 and katie.kennedy@roanokeva.gov.

Commonwealth of Virginia

Healthy Homes Supplemental amount: \$700,000

The Commonwealth of Virginia will be awarded \$700,000 in Healthy Homes Supplement funding for its Lead Based Paint Hazard Reduction grant for which HUD awarded \$6,692,000 on October 8,

2024. With the supplemental funding, Virginia will address housing-related hazards in selected housing units in which it is reducing lead-based paint hazards, providing safer homes for low or very low income families with children. Virginia will be working with other medical and social service providers. Contact Person: Amanda Healy, (804) 314-1002 and amanda.healy@dhcd.virginia.gov.

Healthy Homes Production

Alaska

City of Quinhagak

Healthy Homes Production amount: \$2,000,000

The City of Quinhagak will be awarded \$2,000,000 in Healthy Homes Production Grant Program funding. The City plans to address health and safety hazards in 120 housing units, providing safer homes for low or very low income families and working with local social service providers. Contact: Tracy Pleasant 907-556-2191 and cityofquinhagak@gmail.com.

Kenaitze Indian Tribe (IRA)

Healthy Homes Production amount: \$1,000,000

The Kenaitze Indian Tribe will be awarded \$1,000,000 in Health Homes Production Grant program funding. The Tribe plans to work with local partners and service providers to address health and safety hazards in 45 homes of families with low or very low income. Contact: Joe Jordan 907-740-8045 and jjordan@kenaitze.org.

Tlingit Haida Regional Housing Authority

Healthy Homes Production amount: \$2,000,000

Tlingit Haida Regional Housing Authority will be awarded \$2,000,000 in Healthy Homes Production Grant program funding. The Housing Authority will address home health and safety hazards in 40 housing units providing safer homes for low or very low income families and will work with local social service providers. Contact: Joyce Niven 907-780-3156 and jniven@thrha.org.

Alabama

City of Selma

Healthy Homes Production amount: \$2,000,000

The City of Selma will be awarded \$2,000,000 in Health Homes Production Grant program funding. The program aims to address health and safety hazards in 100 housing units, making homes safer for families with children and senior citizens with low or very low income. The City aims to address multiple childhood diseases and injuries by mitigating housing-related hazards

that disproportionately affect vulnerable populations. Contact: Danielle Wooten, (334) 431-4855 and mayoroffice@selma-al.gov.

Independent Living Resources of Greater Birmingham, Inc., dba Disability Rights and Resources

Healthy Homes Production amount: \$2,000,000

Independent Living Resources of Greater Birmingham, Inc. dba Disability Rights and Resources (DRR) will be awarded \$2,000,000 in Healthy Homes Production Grant funding. DRR will address health and safety hazards in 129 housing units in underserved communities, working in partnership with local government agencies, nonprofit organization, and service providers. Contact: John Roper, Chief Executive Officer, at (205) 815-6172 or email: john.roper@drradvocates.org.

Arkansas

Communities Unlimited

Healthy Homes Production amount: \$2,000,000

Communities Unlimited, a nonprofit based in Fayetteville, will be awarded \$2,000,000 in Healthy Homes Production Grant program funding. Communities Unlimited will address health and safety hazards in 151 housing units in four counties in the Arkansas and Mississippi Delta: Desha, AR, Jefferson, AR, Coahoma, MS, Humphreys, MS, providing safer homes for low or very low income families with children and senior citizens. Contact: Audra Butler, 479-443-2700 and audra.butler@communitiesu.org.

California

Alameda County

Healthy Homes Production amount: \$2,000,000

Alameda County Healthy Homes will be awarded \$2,000,000 in Healthy Homes Production Grant program funding. The County will address health and safety hazards in 180 housing units. The Department will enhance its Childhood Lead Poisoning Prevention Program by implementing the “Expanding Childhood Lead Poisoning Prevention in Alameda County through Comprehensive Healthy Homes Assessments with a Focus on Racial Equity” project. This initiative will address the persistent issue of higher childhood blood lead levels and related health disparities in East and West Oakland, particularly among families with low or very low income living in substandard housing. The project will integrate comprehensive Healthy Homes Assessments and expand the capacity for risk assessments, lead inspections, and symptom-based screenings for asthma and home-based hazard. Contact: April Williamson, 510-567-8255 and april.williamson@acgov.org.

City of Fontana

Healthy Homes Production amount: \$1,500,000

The City of Fontana will be awarded \$1,500,000 in Healthy Homes Production Grant program funding to support the remediation of environmental health and safety hazards in 65 homes. Through partnerships with local community organizations and social service providers, the City will produce and encourage safer homes for vulnerable families with low incomes. Contact: Valerie Gonzales, 909-350-6625 vgonzales@fontanaca.gov.

District of Columbia

Rebuilding Together DC Alexandria

Healthy Homes Production amount: \$2,000,000

Rebuilding Together DC Alexandria will be awarded \$2,000,000 in Healthy Homes Production Grant program funding. The organization will address health and safety hazards in 210 housing units, providing safer homes for families with children and senior citizens with low or very low income. Rebuilding Together DC Alexandria will prioritize those homes with a child under 18, an older adult (62+), or a person living with a disability. Contact: Katharine Dixon, 202-800-6032 and kd@rebuildingtogetherdca.org.

Rebuilding Together, Inc.

Healthy Homes Production amount: \$1,999,891

Rebuilding Together, Inc. (RT) will be awarded \$1,999,891 in Healthy Homes Production Grant Program funding. RT will address health and safety hazards in 175 housing units, making homes safer for families and seniors with low or very low income. RT, a national organization, will support five RT affiliate sites to deliver home repairs associated with improved health, mobility, safety, and independence. Contact: Emma Weltzer, 202-518-3111 and eweltzer@rebuildtogether.org.

Georgia

Augusta, Georgia

Healthy Homes Production amount: \$2,000,000

The City of Augusta will be awarded \$2,000,000 in Healthy Homes Production Grant funding. The City will address the housing-related-health and safety hazards in 85 housing units where families and seniors with low or very-low incomes live. Augusta will partner with local community organizations, faith-based groups, and minority-serving institutions to reach

underserved populations and promote healthy homes awareness. Contact: Hawthorne E. Welcher, Jr., 706-821-1797 and hwelcher@augustaga.gov.

Habitat for Humanity International, Inc.

Healthy Homes Production amount: \$2,000,000

Habitat for Humanity International, Inc. (Habitat), will be awarded \$2,000,000 in Healthy Homes Production Grant funding. Habitat will serve and support the integration of healthy homes interventions for repair and modification programs focused on aging in place and increase the number of low or very low income older adult homeowners, aged 62 and over living independently and safely at home. Habitat, a national organization, and its affiliates in Escambia County, FL, Pensacola, FL, McHenry County, IL, Omaha, NE, and Transylvania, NC, will address 180 units with housing hazards using the healthy home rating system to prioritize housing conditions related to falls, structural collapse, carbon monoxide, excess heat and cold, radiation, and operability of amenities, to maximize impact on the health and safety of households. Contact: Ms. Stacy Summerset, 229-410-7518 and ssummerset@habitat.org.

Troup County – Habitat for Humanity

Healthy Homes Production amount: \$1,938,775

Troup County - Habitat for Humanity will be awarded \$1,938,775 in Healthy Homes Production Grant funding. The Habitat affiliate will serve 60 homes in historically underserved communities so residents with low or very low income can live in decent housing, have lower utility bills, and improve their health outcomes. For more information please contact: Dr. Ellaine B. Miller at (334) 524-0162 or email: ellaine.miller@hfhtroup.org.

Iowa

City of Dubuque

Healthy Homes Production amount: \$2,000,000

The City of Dubuque will be awarded \$2,000,000 in Healthy Homes Production Grant funding. The City will provide healthy homes interventions for 95 housing units making homes safer for families and seniors aged 62 and older with low or very low income. Contact: Alexis Steger, 563-589-4230 and asteger@cityofdubuque.org.

County of Cerro Gordo

Healthy Homes Production amount: \$1,146,177

The County of Cerro Gordo will be awarded \$1,146,177 in Healthy Homes Production grant funding. Cerro Gordo Public Health will elevate the awareness of home hazards, including lead-based paint hazards and radon, how to reduce exposure, and promote and protect safety at home. The County will address home health and safety hazards in 55 housing units, making safer

homes for families with low or very low income and work with local social service providers.
Contact: Lindsey Pike, 641-421-9306 and lpike@cghealth.com.

East Central Intergovernmental Association

Healthy Homes Production amount: \$2,000,000

The East Central Intergovernmental Association (ECIA) Dubuque will be awarded \$2,000,000 in Healthy Homes Production Grant funding. The Association will perform hazard remediation and safety interventions on 92 housing units of families of low or very low income throughout ECIA's five-county footprint of Cedar, Clinton, Delaware, Dubuque (outside of City of Dubuque city limit), and Jackson Counties in Northeast Iowa. This target area is 96% rural. Contact: Walter Nims, 563-587-9647 and wnims@ecia.org.

Illinois

City of Chicago

Healthy Homes Production amount: \$2,000,000

The City of Chicago will be awarded \$2,000,000 to provide interventions to address housing-related safety and health hazards in 74 housing units of low or very low income families. The program will partner with several organizations, including Neighborhood Housing Services, Chicago Asthma Consortium, Illinois Chapter of the American Academy of Pediatrics, and Chicago Department of Housing Home Repair Program. Contact: Regina Meza Jimenez, 312-747-2204 and regina.mezajimenez@cityofchicago.org.

Winnebago County

Healthy Homes Production amount: \$1,547,750

Winnebago County will be awarded \$1,547,750 in Healthy Homes Production Grant funding. The County will address home health hazards and safety threats in 50 housing units of families with low or very low income. To accomplish this goal, the County will partner with local social service providers, invest in workforce development, engage in outreach, and develop contractor capacity. Contact: Ryan Kerch, 815-720-4203 and rkerch@publichealth.wincoil.gov.

Indiana

Indiana Housing and Community Development Authority

Healthy Homes Production amount: \$2,000,000

The Indiana Housing and Community Development Authority (IHCDA) will be awarded \$2,000,000 in Healthy Homes Production Grant funding. IHCDA will prioritize households with low or very low income which are referred either through the Indiana Department of Health

Asthma Program, the Indiana University School of Medicine, or who have been identified as not having either a water or heating/cooling source. IHCD will address home health and safety hazards in 88 housing units. Contact: Samantha Spergel, 317-232-0599 and sspergel@ihcda.in.gov.

Louisiana

City of Monroe

Healthy Homes Production amount: \$2,000,000

The City of Monroe will be awarded \$2,000,000 in the Healthy Homes Production Grant funding. The County will address housing hazards and safety threats in 125 homes of the most vulnerable residents of the city/parish – children, seniors aged 62 and older, and health compromised persons living with low or very low income. Contact: Ellen Hill, 318-812-7443 and ellen.hill@ci.monroe.la.us.

Jefferson Parish

Healthy Homes Production amount: \$2,000,000

Jefferson Parish will be awarded \$2,000,000 in funding to implement a Healthy Homes Production Grant program to meet critical needs in the area of healthy housing by raising awareness, building capacity, and addressing home health and safety hazards in 100 eligible homes of families with low or very low income, including thermal controls, ventilation, and weatherization. The Parish will complement and build upon other ongoing efforts including those funded by HUD's ongoing Lead Hazard Reduction, Community Development Block Grant, and HOME programs, and other locally funded housing rehabilitation and construction work. Contact Person: Stephanie Brumfield, stephanie.brumfield@jeffparish.gov

Lafayette Habitat for Humanity, Inc.

Healthy Homes Production amount: \$1,824,902

Lafayette Habitat for Humanity, Inc., will be awarded \$1,824,902 in the Healthy Homes Production Grant funding. The organization will address critical health and safety hazards in 75 housing units making safer homes for families with low or very low income in Lafayette. Contact Person: Ms. Melinda Taylor, 337-258-4458 and melinda@habitatlafayette.org.

Massachusetts

City of Malden

Healthy Homes Production amount: \$2,000,000

The City of Malden will be awarded \$2,000,000 Healthy Homes Production Grant funding. The City will assess and correct health and safety issues in 120 older properties occupied by families with low income, including families with young children and seniors aged 62 and older. Contact: Deborah Burke, 781-324-5720 and dburke@cityofmalden.org.

City of Worcester

Healthy Homes Production amount: \$2,000,000

The City of Worcester will be awarded \$2,000,000 in Health Homes Production Grant funding. The City will perform environmental testing and address home health and safety hazards in 90 housing units where vulnerable residents with low incomes live. The program prioritizes remediating violations cited by building, sanitary and fire code enforcement officials, medical and public safety professionals, including first responders, and neighborhood and nonprofit organizations, providing a variety of social services as these referrals often identify violations and issues that can result in an immediate threat to life, health, and safety of the residents. Contact: James Brooks, 508-799-1400 x31427 and brooks@worcesterma.gov.

Maryland

Maryland Department of Housing and Community Development

Healthy Homes Production amount: \$2,000,000

The Maryland Department of Housing and Community Development (DHCD) will be awarded \$2,000,000 in Healthy Home Production grant funding. DHCD will provide critical home health and safety repairs to 20 housing units of families with low or very low income in eight underserved counties in Maryland.

Contact: Jack Daniels jack.daniels2@maryland.gov.

Maine

Maine State Housing Authority

Healthy Homes Production amount: \$2,000,000

The Maine State Housing Authority will be awarded \$2,000,000 in Healthy Homes Production grant program funding. The Housing Authority will address home environmental health and safety hazards in 169 housing units to make homes safer, improve health outcomes homes, improve energy efficient and affordability for families with low or very low income. The Housing Authority will work closely with local non-profits and social service providers throughout the state to build local workforce capacity, braid local and federal funding, and connect clients to needed services. Contact Kim Ferenc, 207 626-4684 and kferenc@mainehousing.org.

Pleasant Point Passamaquoddy Tribe

Healthy Homes Production amount: \$1,000,000

The Pleasant Point Passamaquoddy Tribe will be awarded \$1,000,000 in Health Homes Production Grant program funding. The Tribe will address housing-related hazards that align with the Healthy Homes Principles in 41 units of families with low or very low income, with a specific focus on mitigating mold and radon hazards, to ensure homes are safe, healthy and habitable. Contact: Janelle Sapiel, 207-853-6021 and janellesapiel@wabanaki.com.

Michigan

City of Muskegon

Healthy Homes Production amount: \$1,500,000

The City of Muskegon will be awarded \$1,500,000 in Health Homes Production Grant program funding. With this grant award, the City plans to address home health and safety hazards in 150 housing units of families with low or very low income, making their homes safer and healthier environments. Contact: Rhonda Kleyn, (231) 724-6717 and rhonda.kleyn@shrelinecity.com.

Community Action of South-Central Michigan

Healthy Homes Production amount: \$1,750,000

Community Action of South-Central Michigan will be awarded \$1,750,000 in Health Homes Production Grant program funding. The organization will address health and safety hazards in 176 housing units, providing safer homes for families with low or very low income within five Michigan counties: Kalamazoo, Branch, Barry, St. Joseph, and Calhoun. Contact: Courtney Iobe, 269-441-1616 and courtneyi@caascsm.org.

Habitat for Humanity of Michigan, Inc.

Healthy Homes Production amount: \$2,000,000

Habitat for Humanity of Michigan, Inc. will be awarded \$2,000,000 in Health Homes Production Grant program funding. The program will address health and safety hazards in 130 housing units providing safer homes families with low or very low income who have historically had little access to resources to correct the necessary repairs in their homes. This project aims to address unhealthy conditions found in substandard housing which can lead to asthma, lead-based paint poisoning, respiratory illness, cancer, and unintentional injuries. Contact: Sue Ortiz, 616-293-9895 and sortiz@habitatmichigan.org.

We Want Green Too

Healthy Homes Production amount: \$1,105,274

We Want Green Too, a nonprofit organization based in Detroit, will be awarded \$1,105,274 in Health Homes Production Grant program funding. The organization will address home environmental health and safety hazards in 40 single family housing units, making homes safer for families with low or very low income where children, adults aged 62 and older, and/or persons with disabilities reside in Detroit's East Side. Contact: Gloria Lowe, 313-408-4988 and gloria@wewantgreentoo.org.

Minnesota

Hennepin County

Healthy Homes Production amount: \$2,000,000

Hennepin County will be awarded \$2,000,000 in Health Homes Production Grant program funding. The County will address home safety and health hazards in 145 housing units to make homes safe for families with low or very low income with children or seniors aged 62 and older. Hazard priorities for this project are radon, fall hazards, moisture issues, and pests. Contact: Melisa Illies, 612-348-2020 and melisa.illies@hennepin.us.

North Carolina

Economic Improvement Council

Healthy Homes Production amount: \$2,000,000

The Economic Improvement Council will be awarded \$2,000,000 in Health Homes Production Grant program funding. The Council will make 130 housing units safer and healthier for families with low or very low income by addressing residential environmental health and safety hazards. Contact: Landon Mason, (252) 482-4495 and dr.landon.mason@eicca.org.

Nebraska

City of Lincoln

Healthy Homes Production amount: \$1,000,000

The City of Lincoln will be awarded \$1,000,000 in Health Homes Production Grant program funding. With these funds, the City will address health and safety hazards in 42 housing units providing safer homes for families with low or very low income and will work with local social service providers. Contact: Barbara Baier, 402-441-8272 and bbaier@lincoln.ne.gov.

Restoring Dignity

Healthy Homes Production amount: \$1,054,805

Restoring Dignity, a non-profit organization based in Omaha, will be awarded \$1,054,805 in Health Homes Production Grant program funding. Restoring Dignity plans to provide healthy homes improvements to 250 homes of low or very low income families in Omaha. The project is designed as a comprehensive project focused on mitigating pest infestations and improving

housing conditions for program eligible at-risk populations. Contact: Hannah Vlach, (402) 370-9777 and hannah@rdomaha.org.

Three Rivers Public Health Department

Healthy Homes Production amount: \$1,798,688

The Three Rivers Public Health Department will be awarded \$1,798,688 in Healthy Homes Production Grant program funding. With this award, the Health Department will address health and safety hazards in 120 housing units, providing safer homes for families of low or very low income and will work with local social service providers. Contact: Terra Uhing, 402-317-8841 and terra@3rphd.ne.gov.

New York

Cortland County

Healthy Homes Production amount: \$1,933,255

Cortland County will be awarded \$1,933,255 in Health Homes Production Grant program funding. The County will address health and safety hazards in 100 housing units, providing safer homes for families of low or very low income and will work with local social service providers. Contact: Nicole Anjeski, 607-753-5135 and nanjeski@cortlandcountyny.gov.

Bronx Neighborhood Housing Services CDC, Inc.

Healthy Homes Production amount: \$2,000,000

Bronx Neighborhood Housing Services CDC, Inc. (BNHS) will be awarded \$2,000,000 in Healthy Homes Production Grant program funding. With this award, BNHS plans to combat critical housing related housing hazards in the Bronx. BNHS aims to enhance housing quality and health for 130 households with low or very low income by focusing on mold remediation, and safety improvements. Contact: Gladstone Johnson, 914-275-3961 and g.johnson@bronxnhs.org.

Ohio

Erie County (OH) Health Department

Healthy Homes Production amount: \$1,532,500

Erie County (OH) Health Department will be awarded \$1,532,500 in Healthy Homes Production Grant program funding. The Health Department will address health and safety hazards in 67 housing units of families with low or very low income, providing safer homes and will work with local social service providers. Contact: Steve Staley, 419-626-5623 and sstaley@echdohio.org.

Mid-Ohio Regional Planning Commission

Healthy Homes Production amount: \$2,000,000

Mid-Ohio Regional Planning Commission's (MORPC) will be awarded \$2,000,000 in Health Homes Production Grant program funding. MORPC serves as the Central Ohio regional planning agency and works to resolve many issues facing the region. MORPC's primary activities for this grant program will be the identification and remediation of health and safety concerns in 130 housing units for families and vulnerable populations with low or very low income. Contact: Robert Williams, 614-353-9515 and rwilliams@morpc.org.

Oklahoma

Cherokee Nation

Healthy Homes Production amount: \$1,431,077

The Cherokee Nation will be awarded \$1,431,077 in Healthy Homes Production Grant program funding to address health and safety hazards in 120 housing units. The Nation's program is designed to address health and safety hazards in the homes of families within the Tribal community with low or very low income, in which children and persons over the age of 62 reside. Contact: Shay Stanfill, 918-456-5482 and shay-stanfill@hacn.org.

Pennsylvania

Lancaster General Hospital

Healthy Homes Production amount: \$1,999,935

Lancaster General Hospital will be awarded \$1,999,935 in Health Homes Production Grant program funding. The Hospital and its partners under the grant will complete health hazard assessments and perform hazard reduction on 150 owner-occupied properties for homeowners with low or very low income. Contact: Danielle Tarka, 717-544-8094 and danielle.tarka@pennmedicine.upenn.edu.

Puerto Rico

Municipality of Canóvanas

Healthy Homes Production amount: \$1,047,332

The Municipality of Canóvanas will be awarded \$1,047,332 in Healthy Homes Production Grant funding. Canóvanas plans to address the growing need of citizens to have safe and healthy homes, and to rehabilitate homes. With this grant award, the Municipality will make 120 homes

hazard free and accessible for families and seniors with low or very low income. Contact: Ivette Melendez, 787- 876-8334 or email: imelendez@canovanasgov.com.

South Carolina

South Carolina Association of Community Action Partnerships

Healthy Homes Production amount: \$2,000,000

South Carolina Association of Community Action Partnerships will be awarded \$2,000,000 in Healthy Home Production Grant funding. The Association will address health and safety hazards in 120 housing units of families with low or very low income. Grant funding will also advance local partner ability to coordinate efforts in weatherization, healthy homes, and public health initiatives. Contact: Jessica McMoore, 803-771-9404 and jmcmoore@scacap.org.

South Dakota

Western South Dakota Community Action Agency

Healthy Homes Production amount: \$1,998,096

The Western South Dakota Community Action Agency will be awarded \$1,998,096 in Healthy Homes Production Grant program funding to support the remediation of environmental health and safety hazards in 128 homes of vulnerable families of low or very low income. The Agency will produce and encourage safer homes through partnerships with local organizations, leaders, and social service providers. Contact: Shawn Burke, spburke@hotmail.com and 605-858-9415.

Tennessee

City of Memphis

Healthy Homes Production amounts: \$2,000,000

City of Memphis will be awarded \$2,000,000 in Healthy Homes Production Grant funding. The City will address health and safety hazards in 100 units to address a range of health hazards, including mold, poor indoor air quality, and pest infestations. The City's program will serve families with low or very low income and prioritize homes with elderly, children under 6 years old, and those with a high energy burden. Contact: Tonya Johnson, 901-636-7387 and tonya.johnson@memphistn.gov.

Texas

City of Houston

Healthy Homes Production amount: \$2,000,000

The City of Houston Health Department's Bureau of Community and Children's Environmental Health will be awarded \$2,000,000 in the Healthy Homes Production Grant Program. The grant will fund a comprehensive approach to address multiple childhood diseases and injuries in homes, focusing on housing-related hazards in a comprehensive and coordinated fashion. The remediation will address healthy housing principles, primarily, moisture-related hazards (e.g. vermin), contaminant related issues, clutter concerns, and other health and safety hazards. Healthy home assessments and intervention will be performed on 90 housing units of families with low or very low income. Contact Person: Decrecia Limbrick at decrecia.limbrick@houstontx.gov

Tejano Center for Community Concerns Inc.
Healthy Homes Production amount: \$2,000,000

Tejano Center of Community Concerns Inc. will be awarded 2,000,000 in Healthy Homes Production Grant funding. The organization will address health and safety hazards in 45 homes of families with low or very low income and educate more than 600 families, seniors aged 62 or more, and families with persons with disabilities, on housing-related health and safety hazards. Contact: Sheila Turner, (281) 460-7610 and consultant@yahoo.com.

Utah

Salt Lake County
Healthy Homes Production amount: \$2,000,000

Salt Lake County will be awarded \$2,000,000 in Healthy Homes Production Grant program funding to support the remediation of environmental health and safety hazards in 117 homes of families with low or very low income. Through partnerships with local organizations and service providers, the County will provide resources and outreach to encourage and make homes healthier and safer for vulnerable families. Contact: Kevin Austin, keaustin@slco.org and 385-468-4871.

Wisconsin

City of Milwaukee
Healthy Homes Production amount: \$2,000,000

The City Milwaukee will be awarded \$2,000,000 in Health Homes Production Grant program funding to implement a holistic housing intervention program that coordinates healthy homes, lead hazard reduction and energy efficiency interventions. The Program will reduce home-based environmental health hazards while leveraging investments from cross-sector public energy efficiency resources to make 135 housing units of families with low or very low income healthy, lead safe, and energy efficiency. Contact: Erick Shambarger, 414-708-9187 and eshamb@milwaukee.gov.

Newcap, Inc.

Healthy Homes Production amount: \$1,475,784

Newcap Inc., a non-profit organization based in Green Bay, will be awarded \$1,475,784 in Healthy Homes Production Grant program funding. The community action agency will address home environmental health and safety hazards in 125 housing units of families with low or very low income. Contact: Debbie Bushman, 800-242-7334 and debbiebushman@newcap.org.

West Virginia

Religious Coalition for Community Renewal

Healthy Homes Production amount: \$1,800,000

The Religious Coalition for Community Renewal, a nonprofit based in Charleston, will be awarded \$1,800,000 in Healthy Homes Production Grant program funding. The Coalition will address home health and safety hazards in 100 housing units of families and vulnerable persons with low or very low income. Contact: Kevin Jones, 304-346-6398 and kjones@rccr.org.

Healthy Homes Technical Studies

Alabama

University of Alabama

Healthy Homes Technical Study amount: \$999,436

The University of Alabama will be awarded \$999,436 through HUD's Healthy Homes Technical Studies grant program. The University's project will address critical health and housing issues in low income, predominantly African American communities in Alabama's Black Belt region. The project objectives focus on improving the structural integrity and living conditions of manufactured homes in six counties. The study will evaluate the impact of standing water due to poor drainage conditions on identified structures, compare air quality and ventilation systems of manufactured homes with site-built homes, and monitor indoor air quality. Contact Person: Devin Rogers, (205) 348-4269, dlrogers@ua.edu

California

Sequoia Foundation

Healthy Homes Technical Study amount: \$999,955

The Sequoia Foundation will be awarded \$999,955 through HUD's Healthy Homes Technical Studies grant program. The Sequoia Foundation's study will use in-home air monitors to track indoor pollutants and evaluate two approaches to improving indoor air. One approach will be an information session for residents of HUD-assisted housing to learn about indoor air pollution sources and how to reduce contaminants. The second intervention will include the same information session and will install an air monitor in the kitchen that gives feedback to the occupant on the level of a level of small particles in the air of the home. Contact Person: Kristen Nelson, (858) 459-0434, kristen@sequoiafoundation.org

Illinois

Champaign County Regional Planning Commission

Healthy Homes Technical Study amount: \$999,871

The Champaign County Regional Planning Commission will be awarded \$999,871 through HUD's Healthy Homes Technical Studies grant. The Commission will address critical gaps in understanding indoor environmental quality by investigating the relationships between indoor

pollutant concentrations, housing types, and demographic profiles of residents, as well as evaluating the effectiveness of weatherization interventions on reducing indoor health hazards. In addition, the study aims to provide a comprehensive analysis of these interactions, with a focus on housing of low or very low income families. Contact Person: Masih Alavy, (416) 300-7325, malavy@ccrpc.org

Indiana

Indiana University

Healthy Homes Technical Studies amount: \$998,534

Indiana University will be awarded a Healthy Homes Technical Studies grant of \$998,534 to study the implementation of the Healthy Homes for Maternal and Infant Health program for low income pregnant and postpartum women and their families. In addition, the study will partner with existing HUD Office of Lead Hazard Control and Healthy Homes grantees to improve the indoor environmental quality of the homes of the families in the program and build the capacity of the women to maintain a healthy home that limits risk for poor birth and supports positive infant health outcomes. Contact Person: Steven Martin, (317) 278-3473, iuaward@iu.edu

Massachusetts

Silent Spring Institute, Inc.

Healthy Homes Technical Studies amount: \$993,441

The Silent Spring Institute, Inc. will be awarded a HUD Healthy Homes Technical Studies grant of \$993,441 to evaluate the implementation of a new healthy homes smartphone app to share personalized evidence-based information to reduce housing hazards in homes of low income families with children. The study will evaluate both the implementation of the app as an intervention tool to improve multiple housing conditions among families already receiving home visiting services as well as the effectiveness of the app to support resident behaviors to address housing hazards. Contact Person: Emily Chandler, (617) 332-4288, grants@silentspring.org

New York

Columbia University

Healthy Homes Technical Studies amount: \$998,575

Columbia University will be awarded a Healthy Homes Technical Studies grant of \$998,575. The University, in partnership with the Little Sisters of the Assumption Family Health Service, will conduct an intervention study to evaluate the efficacy of using a high-capacity HEPA (high-efficiency) filter air cleaner to reduce airborne particulate matter in the homes of children with asthma who are in families of low income, and to reduce the rate of these children's asthma. Contact Person: William Berger, (845) 551-1605, grants-office@columbia.edu

Ohio

Case Western University

Healthy Homes Technical Studies amount: \$1,000,000

Case Western University will be awarded a \$1,000,000 Healthy Homes Technical Studies grant to evaluate the effectiveness of healthy home interventions in improving childhood asthma outcomes in urban communities impacted by environmental injustice. The project will accomplish this by completing three objectives: quantifying the impact of "healthy home" interventions on asthma control; evaluating associations among several measurements of indoor housing quality, including indoor air pollution and humidity; and establishing connections between the levels and types of microorganisms in the home and asthma outcomes. Contact Person: Bridget Hegarty, (216) 368-4436, beh53@case.edu

Pennsylvania

Pennsylvania State University

Healthy Homes Technical Studies amount: \$999,280

Pennsylvania State University will be awarded \$999,280 under HUD's Healthy Homes Technical Studies grant to address the pressing challenges of heat stress vulnerability in homes of families with low – or very low income by developing a cost-effective method for assessing home-specific vulnerabilities to heatwaves and identifying deficiencies in the outer structure of homes that allow excessive heat inside, and then providing tailored retrofit recommendations to bolster thermal resilience while considering energy efficiency and carbon emission reduction. Contact Person: Aubry Hoffman, (814) 863-7324, adh175@psu.edu

Texas

University of Texas at Arlington

Healthy Homes Technical Studies amount: \$860,147

The University of Texas at Arlington will be awarded \$860,147 for a Healthy Homes Technical Studies project to investigate the long-term effectiveness of four types of residential energy recovery ventilators and portable air cleaners in reducing indoor air pollutants. The study will also investigate mold levels in the homes to improve asthma-related health outcomes in inner-city children and adults' diagnosis with asthma in low income households. Contact Person: Insung Kang, (817) 272-2167, insung.kang@uta.edu

Older Adults Home Modification

Substantially Rural

Alabama

Independent Living Resources of Greater Birmingham, Inc., dba Disability Rights and Resources

OAHMP Amount: \$2,000,000

Independent Living Resources of Greater Birmingham, Inc., dba Disability Rights and Resources (DRR) will be awarded \$2,000,000 in Older Adults Home Modification Program grant funding.
