Explanation of Calendar Year (CY) 2024 Obligations Public Housing Shortfall
Set-Aside**

Public Housing Shortfall Set-Aside Obligations

This obligation allocates \$25 million in Public Housing Shortfall pursuant to the FFY 2024 Consolidation Appropriations Act (Public Law 118-42). Please refer to PIH Notice 2024-15 (Notice) for guidance on eligible activities, reporting requirements, and other relevant information regarding Shortfall obligations. The notice can be found on HUDCLIPS at:

<https://www.hud.gov/sites/dfiles/PIH/documents/PIH2024-15.pdf><https://www.hud.gov/sites/dfiles/OCHCO/documents/2024-15pihn.pdf>

PHA Eligibility Levels and Obligations for Shortfall CY 2024

The entire \$25 million is being obligated herewith, at a PHA level. PHAs that have a Months of Operating Reserve (MOR) less than 3.0 and submitted an application were eligible for funding. Unlike normal Operating Fund grants, Shortfall funding was not pro-rated. Instead, full funding was provided to PHAs based upon a prioritization methodology until funds were exhausted. To determine the order of funding, PHAs were ranked from lowest to highest, based on the value of their MOR and the size their PHA as described in more detail in the Notice. Obligations of Shortfall funding have been calculated to raise each PHA's MOR to 3.0 based on their most recent FDS submission between 12/2022 and 09/2023. The last funded PHA will receive the lesser of their eligibility or the remaining Shortfall funds after all preceding PHAs have been funded. PHAs that applied and would otherwise be eligible for a Shortfall grant, but for which insufficient amounts are available, will not receive funding.

Unlike regular Operating Subsidy grants, which are made accessible to PHAs in 1/12th increments, the entire amount of the Shortfall Act funding is being obligated at once. However, access to funding will be segmented into different increments and restricted based on PHAs submitting an improvement plan and subsequently improving their MOR. The first increment identified with a grant code of XXXXX101ISF24D will be available for immediate draw down in LOCCS. The XXXXX201ISF24D codes will be made available for draw down once the PHA has successfully submitted an Improvement Plan and it has been approved by their Field Office. Improvement plans must be submitted through the OpFund Web Portal. PHAs have six months from the award date to submit the improvement plan. The XXXXX202ISF24D codes will be made available to draw down once the PHA has improved their financial position such that their MOR is 1.5 or more, based upon a subsequent financial statement submission that is

at least one full fiscal year after the submission of the PHA’s improvement plan. Please refer to PIH 2024-15 for more information on improvement plan and financial improvement terms and conditions which will release funding increments. **PHAS should ensure that they do not draw down funds early. Funds prematurely drawn down may need to be repaid with non-Federal funds.**

Note that annual budgets will be required by PHAs participating in the Shortfall program per Section 13 of PIH-2024-15. Budgets must be submitted in the OpFund Web Portal and approved by the PHA’s local HUD Field Office. Failure by the PHA to meet timely updates and submissions of budgets may result in suspension or recapture of their Shortfall award.

Also, unlike regular Operating Funds, Shortfall funds may not roll into a PHA’s reserves. PHAs may only draw down the Shortfall Funds to pay for eligible immediate needs and must be tracked and accounted for separately. Like the Capital Fund, PHAs must validate and enter their expenditures in eLOCCS each month prior to draw down. Obligation Letters will be available on the FMD website for 2024:

https://www.hud.gov/program_offices/public_indian_housing/programs/ph/am/opfnd2024/shortfallfunding

| Increment | Grant Number | Amount | Milestone |
|------------------|---------------------|---------------|---|
| 1 | XXXXXX101ISF24D | \$XX,XXX | None. 100% of grant funds immediately available. |
| 2 | XXXXXX201ISF24D | \$XX,XXX | Access to grant funds contingent on improvement plan being approved by Field Office. See Section 12 of PIH 2024-15. |
| 3 | XXXXXX202ISF24D | \$XX,XXX | Access to the grant funds contingent upon the PHA reporting Months of Reserves (MOR) greater than 1.5 on an approved FDS from the PHA’s FYE that is at least one full fiscal year after the submission of the PHA’s improvement plan. |

Ideas for Operational Improvements to Improve MOR

Below is a list of operational improvements your PHA can make to ensure long-term financial solvency. This list is not specific to your PHA, but rather is a list of operational improvements that HUD has historically recommended to insolvent PHAs. Please see the list below.

- Reduce costs/increase revenue.

- Increase program rent revenue by improving occupancy and evaluating rent collection policies and actions.
- Consider selling property/assets in accordance with HUD's disposition regulations.
- Convert properties through a RAD conversion and possibly with Low-Income Housing Tax Credits.
- Reposition capital assets that are beyond their useful life.
- Seek additional financing (e.g., debt, equity, cash flow, forgiveness) through your municipality, finance authority, and housing trust fund.
- Renegotiate contracts with workforce and/or vendors.
- Restructure the agency's organization and staff.
- Evaluate utility consumption and energy policies and consider implementation of energy conservation measures and agreements to reduce energy costs.

All funds must be used in accordance with the Annual Contributions Contract and associated laws and regulations. By drawing down the funds obligated in the obligation letter, the PHA is confirming agreement and compliance with the terms and conditions of the Public Housing Shortfall program. Further, a drawdown of these funds constitutes an agreement by the PHA that the current eligibility and obligation is correct, and that the PHA has met the requirements to draw down the funds. The amount of the PHA's obligated funds will be available through the HUD Electronic Line of Credit Control System (eLOCCS). Shortfall funds can only be used to pay for immediate needs and expenditures must be reported in the eLOCCS system. Instructions for the use of eLOCCS are available in the eLOCCS Quick References document at

https://www.hud.gov/program_offices/cfo/finsys/eLOCCS_access/quick_reference#1
