PHA Name: Hawaii Public Housing Authority

PHA Code: HI001

MTW Supplement for PHA Fiscal Year Beginning: (MM/DD/YYYY): 7/1/2024

PHA Program Type: Combined

MTW Cohort Number: Landlord Incentives

MTW Supplement Submission Type: Annual Submission

B. MTW Supplement Narrative.

The Hawaii Public Housing Authority's (HPHA) long-term goal is to use its Moving to Work (MTW) designation to become a more proactive, innovative agency that can identify, develop, and implement housing policies that achieve the statutory objectives of the MTW Demonstration Program.

The HPHA was designated an MTW expansion agency as part of the landlord incentive cohort in January 2022. The HPHA's Landlord Incentive Program (LIP) was established later that year following the enactment of Act 287, Session Laws of Hawaii 2022. The Act provided State funding for vacancy loss payments, signing bonus payments, and tenant-caused damage reimbursements. The goal of the LIP is to incentivize greater landlord participation in the HPHA's voucher programs, thereby increasing housing choice for low-income families. In our MTW Supplement for FY 2023, the HPHA requested and received HUD's approval to continue the provision of vacancy loss and signing bonus payments using MTW funds.

The HPHA amended its MTW Supplement for FY 24 to request MTW Waiver 3.b. to perform biennial reexaminations of families participating in our Housing Choice Voucher (HCV) Program. The goal of this activity is to improve family self-sufficiency by incentivizing working members to increase their income during a new two-year reexamination cycle. The activity is also meant to reduce administrative burden on staff and residents as well as generate cost savings for the agency. The Amended MTW Supplement for FY 2024 was approved by HUD on March 29, 2024. In accordance with subsequent guidance provided by the HUD Honolulu Field Office, the HPHA will only apply this activity to regularly scheduled reexaminations with an effective date on or after May 1, 2024. The HPHA has amended its Administrative Plan and Chapter 17-2031, Hawaii Administrative Rules (HAR), to be able to carry out this activity. The HPHA is currently updating the software used for reexaminations in preparation for implementation of the activity. The anticipated start date of the activity is Q3 of 2024. Before implementation, the HPHA will notify all participating families of the change to their reexamination cycles.

In this MTW Supplement for FY 25, the HPHA is requesting MTW Waiver 4.b. to provide tenant-caused damage reimbursements using our MTW funding flexibilities now that State funds are no longer available. The LIP Administrative Rules have already been adopted. The HPHA will be able to immediately start this activity upon approval of this waiver.

The HPHA is also requesting MTW Waiver 3.a. to be able to perform biennial reexaminations in the Low-Income Public Housing (LIPH) Program. The HPHA hopes to achieve greater cost efficiency within the LIPH Program by reducing the administrative burden associated with processing annual reexaminations. The second goal for this activity is to incentive working families to raise their incomes, thereby increasing self-sufficiency. The HPHA will adopt amendments to its Admissions and Occupancy Policy (ACOP) and Chapter 17-2028, HAR, to implement biennial reexaminations in conjunction with amendments to implement HOTMA Sections 102 and 104.

Finally, the HPHA is requesting MTW Waiver 2.a. which would allow the HPHA to be able to set its payment standards between 90% and 120% of the applicable Small Area Fair Market Rents (SAFMR). The first goal of this activity is to increase rental assistance provided in neighborhoods where a significant percentage of assisted families are rent burdened. The second goal of this activity is to promote the deconcentration of poverty by increasing housing choice for low-income families in high-opportunity neighborhoods. As part of this activity, the HPHA will be able to provide a disabled family an exception payment standard up to 120% of the applicable SAFMR as a reasonable accommodation.

Activities Currently Implemented:

- HPHA Activity 23-01: Front-End Vacancy Loss Payments (Cohort Waiver 4.2.);
- HPHA Activity 23-03: Vacancy Loss Payments (MTW Waiver 4.a.); and
- HPHA Activity 23-04: Signing Bonus Payments (MTW Waiver 4.c.).

Activities Pending Implementation:

- HPHA Activity 23-02: Waiver of Mandatory Initial Inspection (Cohort Waiver2 4.1.); and
- HPHA Activity 24-05: Biennial Reexaminations for HCV (MTW Waiver 3.b.).

Waivers Requested for FY 25:

- HPHA Activity 25-06: Damage Reimbursement Payments (MTW Waiver 4.b.);
- HPHA Activity 25-07: Biennial Reexaminations for Public Housing (MTW Waiver 3.a.); and
- HPHA Activity 25-08: Increased Payment Standards (MTW Waiver 2.a.).

C. The policies that the MTW agency is using or has used (currently implement, plan to implement in the submission year, plan to discontinue, previously discontinued).

C. MTW Activities Plan that Hawaii Public Housing Authority Plans to Implement in the Submission Year or Is Currently Implementing

2.a. - Payment Standards- Small Area Fair Market Rents (HCV)

Describe the MTW activity, the MTW agency's goal(s) for the MTW activity, and, if applicable, how the MTW activity contributes to a larger initiative

The payment standards for a zip code may be set between 90% to 120% of the applicable SAFMR. This activity will be used to deconcentrate poverty by increasing housing choice in high-opportunity neighborhoods as well as provide a deeper level of subsidy in areas of our jurisdiction with high rates of rent-burdened families. Additionally, having the flexibility to set higher payment standards for dwelling units with more bedrooms can reduce search times and increase the voucher success rate for larger-sized families. A payment standard will not be raised above the normal upper bound of 110% of SAFMR if doing so would significantly impact the financial sustainability of the HCV Program. Any dwelling unit rented by a voucher holder in a zip code with an exception standard must still meet rent reasonableness requirements as compared to units of a similar size and with similar amenities.

This activity may also alleviate some of the negative externalities of a biennial reexamination schedule. If in the second year of the reexamination cycle the gross rent (i.e., landlord rent plus utility allowance) for a dwelling unit exceeds the payment standard (i.e., landlord requests an increase in rent that is reasonable), the monthly HAP will be capped by the payment standard effective at a family's last biennial reexamination. By setting a higher payment standard, the HPHA can provide our assisted families greater protection from housing insecurity should market rents have rapidly increased or the

family suffers a dramatic loss of income.

Which of the MTW statutory objectives does this MTW activity serve?

Housing choice

What are the cost implications of this MTW activity? Pick the best description of the cost implications based on what you know today.

Increased expenditures

Does the MTW activity under this waiver apply to all assisted households or only to a subset or subsets of assisted households?

The MTW activity applies to all assisted households

Based on the Fiscal Year goals listed in the activity's previous Fiscal Year's narrative, provide a description about what has been accomplished or changed during the implementation.

N/A. This activity will be implemented in FY 25.

Does this MTW activity require a hardship policy?

Yes

This document is attached.

Does the hardship policy apply to more than this MTW activity?

Yes

Please list all of the applicable MTW activities. (Only upload hardship policy once when said policy applies to multiple MTW activities.)

2.a. - Payment Standards- Small Area Fair Market Rents (HCV); 3.a. - Alternative Reexamination Schedule for

Households (PH); 3.b. - Alternative Reexamination Schedule for Households (HCV)

Has the MTW agency modified the hardship policy since the last submission of the MTW Supplement?

No

How many hardship requests have been received associated with this activity in the past year?

No hardship were requested in the most recent fiscal year.

Does the MTW agency need a Safe Harbor Waiver to implement this MTW activity as described?

No

Does the MTW activity require an impact analysis?

Yes

This document is attached.

Does the impact analysis apply to more than this MTW activity?

Yes

Please list all of the applicable MTW activities. (Only upload impact analysis once when said impact analysis applies to multiple MTW activities.)

2.a. - Payment Standards- Small Area Fair Market Rents (HCV); 3.b. - Alternative Reexamination Schedule for Households (HCV)

Please explain the payment standards by ZIP code or "grouped" ZIP codes:

After publication of the updated SAFMRs each year, zip codes are arranged in ascending order by median rent value from most to least expensive. The allowable range is then calculated for each bedroom size in each zip code. Under this activity, the lower bound will always be set at 90% of SAFMR. The upper bound will be set at 110% of SAFMR; the HPHA will only use an upper bound of 120% of SAFMR if there are a significant number of assisted families residing in the zip code who are rent burdened. Zip codes are then separated into 10 to 15 payment standard tiers. Each payment standard tier is comprised of zip codes with similar average rent values. Groupings may be further refined by merging one tier with few zip codes and a neighboring tier with a similar average rent range. Alternatively, a tier with ranges that widely vary may be split based on the median rent value within the group. Additional factors are taken into consideration, such as local submarket conditions, trends, and projections, as well as current voucher utilization within each zip code. Once tiers are set, a proposed payment standard is used to calculate the percentage of SAFMR for each bedroom size in each zip code. The proposed payment standard is then adjusted upward or downward to ensure it fits within the allowable range for each

zip code in the tier.

3.a. - Alternative Reexamination Schedule for Households (PH)

Describe the MTW activity, the MTW agency's goal(s) for the MTW activity, and, if applicable, how the MTW activity contributes to a larger initiative

The HPHA will conduct regularly scheduled reexaminations of public housing households biennially (i.e., every other year). The HPHA will NOT perform biennial reexaminations for families who are determined to be over-income, pursuant to 24 CFR §960.507 and Section 103 of HOTMA.

Before implementing this activity, the HPHA must amend its Admissions and Continued Occupancy Policy (ACOP) and Chapter 17-2028, Hawaii Administrative Rules (HAR). The HPHA must also work with Emphasys (software vendor) to update the software used to process reexaminations. Updates to the HAR generally take four months to complete. In the coming months, the HPHA will also need to update Chapter 17-2028, HAR, to implement new policies set forth in HOTMA Sections 102 and 104. The HPHA is planning to implement all HOTMA income and asset policies on the implementation deadline (i.e., currently January 1, 2025). Based on our current projected timeline, proposed amendments to the ACOP and Chapter 17-2028, HAR, will be submitted to the Board of Directors in August 2024. Once these steps are complete, the HPHA will begin transitioning families to a biennial reexamination schedule as their next annual reexaminations come up.

As families transition to the new schedule, the HPHA will begin using the updated Release of Information (HUD-9886-A) which is valid until a family member revokes their consent or leaves the Program.

The HPHA will mitigate fraud and abuse by generating and reviewing Income Discrepancy Reports in EIV on a monthly basis, discuss program compliance and integrity issues during briefing sessions with residents, and place key warnings about the penalties of fraud on HPHA forms and form letters. The HPHA will also regularly remind tenants that corrective action will be taken if income is hidden or concealed during the income determination process.

The first goal of this activity is to promote program cost-effectiveness by alleviating the administrative burden associated with an annual reexamination cycle. The second goal is to incentivize families to increase their income between biennial

reexaminations, thereby increasing self-sufficiency.

Which of the MTW statutory objectives does this MTW activity serve?

Cost effectiveness; Self-sufficiency

What are the cost implications of this MTW activity? Pick the best description of the cost implications based on what you know today.

Decreased revenue

Does the MTW activity under this waiver apply to all assisted households or only to a subset or subsets of assisted households?

The MTW activity applies to all assisted households

Based on the Fiscal Year goals listed in the activity's previous Fiscal Year's narrative, provide a description about what has been accomplished or changed during the implementation.

N/A. This activity will be implemented during FY 2025.

Does this MTW activity require a hardship policy?

Yes

This document is attached.

Does the hardship policy apply to more than this MTW activity?

Yes

Please list all of the applicable MTW activities. (Only upload hardship policy once when said policy applies to multiple MTW activities.)

2.a. - Payment Standards- Small Area Fair Market Rents (HCV); 3.a. - Alternative Reexamination Schedule for

Households (PH); 3.b. - Alternative Reexamination Schedule for Households (HCV)

Has the MTW agency modified the hardship policy since the last submission of the MTW Supplement?

No

How many hardship requests have been received associated with this activity in the past year?

No hardship were requested in the most recent fiscal year.

No

Does the MTW activity require an impact analysis?

Yes

This document is attached.

Does the impact analysis apply to more than this MTW activity?

No

What is the recertification schedule?

Once every two years

How many interim recertifications per year may a household request?

2 or more

Please describe briefly how the MTW agency plans to address changes in family/household circumstances under the alternative reexamination schedule.

The HPHA will not change its current interim reexamination policy or limit the number of interim adjustments a family may request. All families will still be required to report any change to income or household composition that occurs between biennial reexaminations.

If a change to income or household composition occurs, the HPHA shall determine whether an interim reexamination is needed based upon the PHA policies established in the ACOP and Chapter 17-2028, HAR. The HPHA will perform an interim reexamination for all reported changes which decrease annual income. The HPHA will perform an interim reexamination for all changes which increase annual income by \$2,400 or more (i.e., \$200 or more per month). Changes to household composition will also require a reexamination.

Upon implementation of HOTMA Sections 102 and 104, the HPHA will enforce the new mandatory interim reexamination policies. The HPHA will process non-interim reexamination transactions for any changes to family or household composition which do not cause adjusted income to rise or fall beyond the thresholds established by the HPHA and/or HUD. With regard to the discretionary interim reexamination policies PHAs may adopt under HOTMA, the HPHA intends to update its ACOP and Chapter 17-2028, HAR, to (1) not apply earned income increases to the adjusted income increase threshold in all circumstances; and (2) conduct an interim reexamination for all adjusted income decreases. The proposed discretionary policies are subject to change if further analysis shows they could have a detrimental effect on program operations, efficiency, or finances. All future interim reexamination policies will be provided to the HPHA's Board of Directors, the Resident Advisory Board, and the general public for review prior to their final approval and implementation.

3.b. - Alternative Reexamination Schedule for Households (HCV)

Describe the MTW activity, the MTW agency's goal(s) for the MTW activity, and, if applicable, how the MTW activity contributes to a larger initiative

The HPHA will conduct regularly scheduled reexaminations of HCV families biennially (i.e., every other year). This activity was approved as part of the HPHA's Amended MTW Supplement for FY 2024.

The HPHA's Board of Directors approved amendments to the Administrative Plan to allow for biennial reexaminations in April 2024. Similar provisions were included in Chapter 17-2031, Hawaii Administrative Rules (HAR), which governs the HPHA's voucher programs. These changes were made effective in June 2024 following approval by the Governor and their filing with the Lieutenant Governor's Office. The HPHA is currently working with Emphasys (software vendor) to update the software used to process reexaminations.

Once the activity is ready to be implemented, the HPHA will begin transitioning families to the biennial reexamination schedule as their next annual reexaminations come up. Per the HPHA's correspondence with the HUD Honolulu Field Office on June 7, 2024, the HPHA will only apply this activity to reexaminations with effective dates on or after May 1, 2024. As families transition to the new schedule, the HPHA will also begin using the updated Release of Information (HUD-9886-A) which shall be valid until a family member revokes their consent or leaves the HCV Program.

In accordance with the Administrative Plan, the HPHA will mitigate fraud and abuse by generating and reviewing Income Discrepancy Reports in EIV on a monthly basis, discuss program compliance and integrity issues during briefing sessions with tenants, and place key warnings about the penalties of fraud on HPHA forms and form letters. The HPHA will also regularly remind tenants that corrective action will be taken if income is hidden or concealed during the income determination process.

The first goal of this activity is to promote program cost-effectiveness by alleviating the administrative burden associated

with an annual reexamination cycle. The second goal is to incentivize families to increase their income between biennial
reexaminations, thereby increasing self-sufficiency.

2.a. - Payment Standards- Small Area Fair Market Rents (HCV)

What is the recertification schedule?

Once every two years

How many interim recertifications per year may a household request?

2 or more

Please describe briefly how the MTW agency plans to address changes in family/household circumstances under the alternative reexamination schedule.

The HPHA will not change its current interim reexamination policy or limit the number of interim adjustments a family may request. All families will still be required to report any change to income or household composition that occurs between biennial reexaminations.

If a change to income or household composition occurs, the HPHA shall determine whether an interim reexamination is needed based upon the PHA policies established in the Administrative Plan and Chapter 17-2031, HAR. The HPHA will perform an interim reexamination for any reported decrease in income. For changes which increase income that are reported timely (i.e., within 10 days of the change becoming effective), the HPHA will not process an interim reexamination. For changes which increase annual income that are NOT reported timely, the HPHA will process an interim reexamination and increase rent retroactive to the first day of the month after the change occurred. Changes to household composition will also require a reexamination.

Upon implementation of HOTMA Sections 102 and 104, the HPHA will enforce the new mandatory interim reexamination policies. The HPHA will process non-interim reexamination transactions for any changes to family or household composition which do not cause adjusted income to rise or fall beyond the thresholds established by the HPHA and/or HUD. With regard to the discretionary interim reexamination policies PHAs may adopt under HOTMA, the HPHA intends to update its Administrative Plan and Chapter 17-2031, HAR, to (1) apply earned income increases to the adjusted income increase threshold if a previous interim reexamination takes place; and (2) conduct an interim reexamination for all adjusted income decreases. The proposed discretionary policies are subject to change if further analysis shows they could have a detrimental effect on program operations, efficiency, or finances. All future interim reexamination policies will be provided to the HPHA's Board of Directors, the Resident Advisory Board, and the general public prior to their final approval and implementation.

4.a. - Vacancy Loss (HCV-Tenant-based Assistance)

Describe the MTW activity, the MTW agency's goal(s) for the MTW activity, and, if applicable, how the MTW activity contributes to a larger initiative

The HPHA provides a landlord an incentive payment equal to one month's rent for a dwelling unit vacancy if the landlord rents to another voucher holder. Payment is only made after the landlord enters into a new HAP contract with the HPHA. A landlord may not receive an incentive payment if the preceding vacancy was caused by (1) a failure to comply with federal or State nondiscrimination laws, (2) a violation of the landlord-tenant code set forth in Chapter 521, Hawaii Revised Statutes, or (3) any breach of the terms and conditions of the previous HAP contract.

The goal of this activity is to increase and retain landlord participation in the HCV Program, thereby increasing housing

choice for low-income families and decreasing the average dwelling unit search time for voucher holders.

Which of the MTW statutory objectives does this MTW activity serve?

Housing choice

What are the cost implications of this MTW activity? Pick the best description of the cost implications based on what you know today.

Increased expenditures

Does the MTW activity under this waiver apply to all assisted households or only to a subset or subsets of assisted households?

The MTW activity applies only to a subset or subsets of assisted households

Does the MTW activity apply only to new admissions, only to currently assisted households, or to both new admissions and currently assisted households?

New admissions and currently assisted households

Does the MTW activity apply to all family types or only to selected family types?

The MTW activity applies to all family types

Does the MTW activity apply to all HCV tenant-based units and properties with project-based vouchers?

The MTW activity applies to all tenant-based units

Based on the Fiscal Year goals listed in the activity's previous Fiscal Year's narrative, provide a description about what has been accomplished or changed during the implementation.

In December 2022, the HPHA hired a full-time Landlord Liaison to operate the Landlord Incentive Program (LIP). The HPHA held multiple meetings with community stakeholders, current tenants, landlords, and advocacy groups to solicit feedback on each LIP activity. Staff also created training and informational materials that were published online and distributed to current and potential landlords. The agency adopted amendments to its Administrative Rules to include this

activity in March 2023, and began offering incentive payments in June 2023.

Does the MTW agency need a Safe Harbor Waiver to implement this MTW activity as described?

No

Does this policy apply to certain types of units or to all units all HCV units or only certain types of units (for example, accessible units, units in a low-poverty neighborhood, or units/landlords new to the HCV program?

To all units

What is the maximum payment that can be made to a landlord under this policy?

A landlord may not receive an amount in excess of one month's rent for a dwelling unit. There is no limit on how many times a landlord may qualify for vacancy loss payments, so long as the dwelling unit is rented to another voucher holder

immediately following the vacancy of another participating family.

How many payments were issued under this policy in the most recently completed PHA fiscal year?

0

What is the total dollar value of payments issued under this policy in the most recently completed PHA fiscal year?

\$0

4.b. - Damage Claims (HCV-Tenant-based Assistance)

Describe the MTW activity, the MTW agency's goal(s) for the MTW activity, and, if applicable, how the MTW activity contributes to a larger initiative

The HPHA will provide reimbursement payments to landlords for tenant-caused damages in an amount not to exceed the lesser of the cost of repairs or two months of contract rent. The reimbursement will only be provided for expenses that exceed the assisted family's security deposit. Additionally, the reimbursement will only be made after a new HAP contract is executed for the dwelling unit. The HPHA has already amended its Administrative Plan and the LIP Administrative Rules to be able to provide damage reimbursement payments.

Landlords are required to submit receipts, invoices, and other documentation that shows the nature, extent, and cost of repairs. The HPHA reserves the right to require an initial inspection of damages and a follow-up inspection after repairs are complete.

This activity is meant to assuage landlord concerns about renting to Section 8 voucher holders. If successful, this activity will help the HPHA be able to recruit and retain more landlords, thereby increasing housing choice for low-income families.

Which of the MTW statutory objectives does this MTW activity serve?

Housing choice

What are the cost implications of this MTW activity? Pick the best description of the cost implications based on what you know today.

Increased expenditures

Does the MTW activity under this waiver apply to all assisted households or only to a subset or subsets of assisted households?

The MTW activity applies to all assisted households

Based on the Fiscal Year goals listed in the activity's previous Fiscal Year's narrative, provide a description about what has been accomplished or changed during the implementation.

N/A. This activity will be implemented during FY 2025.

Does the MTW agency need a Safe Harbor Waiver to implement this MTW activity as described?

No

Does this policy apply to certain types of units or to all units all HCV units or only certain types of units (for example, accessible units, units in a low-poverty neighborhood, or units/landlords new to the HCV program?

To all units

What is the maximum payment that can be made to a landlord under this policy?

The lesser of the cost of repairs or two months of contract rent, but no more than \$3,000 total.

How many payments were issued under this policy in the most recently completed PHA fiscal year?

0

What is the total dollar value of payments issued under this policy in the most recently completed PHA fiscal year?

\$0

4.c. - Other Landlord Incentives (HCV- Tenant-based Assistance)

Describe the MTW activity, the MTW agency's goal(s) for the MTW activity, and, if applicable, how the MTW activity contributes to a larger initiative

The HPHA provides a signing bonus to landlords who rent their dwelling units to a voucher holder for the first time. equal to one month's rent. The signing bonus is equal to one month's rent for the dwelling unit. Payment is only made after the landlord enters into a new HAP contract with the HPHA. The dwelling unit must be located in a "high opportunity area" or in "areas located where vouchers are difficult to use" to qualify. Landlords may only receive one signing bonus per dwelling unit. If there is a change in the ownership of an assisted dwelling unit, the new landlord may qualify for a signing bonus.

The goal of this activity is to increase landlord participation in the HCV Program, thereby increasing housing choice for

low-income families and decreasing the average dwelling unit search time for voucher holders.

Which of the MTW statutory objectives does this MTW activity serve?

Housing choice

What are the cost implications of this MTW activity? Pick the best description of the cost implications based on what you know today.

Increased expenditures

Does the MTW activity under this waiver apply to all assisted households or only to a subset or subsets of assisted households?

The MTW activity applies only to a subset or subsets of assisted households

Does the MTW activity apply only to new admissions, only to currently assisted households, or to both new admissions and currently assisted households?

New admissions (i.e., applicants) only

Does the MTW activity apply to all family types or only to selected family types?

The MTW activity applies to all family types

Does the MTW activity apply to all HCV tenant-based units and properties with project-based vouchers?

The MTW activity applies to all tenant-based units

Based on the Fiscal Year goals listed in the activity's previous Fiscal Year's narrative, provide a description about what has been accomplished or changed during the implementation.

In December 2022, the HPHA hired a full-time Landlord Liaison to operate the Landlord Incentive Program (LIP). The HPHA held multiple meetings with community stakeholders, current tenants, landlords, and advocacy groups to solicit feedback on each LIP activity. Staff also created training and informational materials that were published online and distributed to current and potential landlords. The agency adopted amendments to its Administrative Rules to include this

activity in March 2023, and began offering incentive payments in June 2023.

Does the MTW agency need a Safe Harbor Waiver to implement this MTW activity as described?

No

Does this policy apply to certain types of units or to all units all HCV units or only certain types of units (for example, accessible units, units in a low-poverty neighborhood, or units/landlords new to the HCV program?

Certain types of units only

What is the maximum payment that can be made to a landlord under this policy?

Up to one month's rent. A landlord may only qualify for this payment once for each newly enrolled dwelling unit.

How many payments were issued under this policy in the most recently completed PHA fiscal year?

3

What is the total dollar value of payments issued under this policy in the most recently completed PHA fiscal year?

\$7,994

D.	Safe Harbor Waivers.					
D.4	Will the MTW agency submit request for approval of a Safe Harbor Waiver this year?					
D.1	No Safe Harbor Waivers are being requested.					

E. Agency-Specific Waiver(s). Agency-Specific Waiver(s) for HUD Approval: The MTW demonstration program is intended to foster innovation and HUD encourages MTW agencies, in consultation with their residents and stakeholders, to be creative in their approach to solving affordable housing issues facing their local communities. For this reason, flexibilities beyond those provided for in Appendix I may be needed. Agency-Specific Waivers may be requested if an MTW agency wishes to implement additional activities, or waive a statutory and/or regulatory requirement not included in Appendix I. In order to pursue an Agency-Specific Waiver, an MTW agency must include an Agency-Specific Waiver request, an impact analysis, and a hardship policy (as applicable), and respond to all of the mandatory core questions as applicable. For each Agency-Specific Waiver(s) request, please upload supporting documentation, that includes: a) a full description of the activity, including what the agency is proposing to waive (i.e., statute, regulation, and/or Operations Notice), b) how the initiative achieves one or more of the 3 MTW statutory objectives, c) a description of which population groups and household types that will be impacted by this activity, d) any cost implications associated with the activity, e) an implementation timeline for the initiative, f) an impact analysis, g) a description of the hardship policy for the initiative, and h) a copy of all comments received at the public hearing along with the MTW agency's description of how the comments were considered, as a required attachment to the MTW Supplement. Will the MTW agency submit a request for approval of an Agency-Specific Waiver this year? No **E.1**

	Agency-Specific Waiver(s) for which HUD Approval has been Received: Does the MTW agency have any approved Agency-Specific Waivers?
E.2	No

F.	Public Housing Operating Subsidy Grant Reporting.				
F.1	Total Public Housing Operating subsidy amount authorized, disbursed by 9/30, remaining, and deadline for disbursement, by Federal Fiscal Year for each year the PHA is designated an MTW agency.				

Federal Fiscal Year (FFY)	Total Operating Subsidy Authorized Amount	How Much PHA Disbursed by the 9/30 Reporting Period	Remaining Not Yet Disbursed	Deadline
2021	\$29,585,170	\$29,585,170	\$0	2029-09-30
2022	\$27,406,287	\$27,406,287	\$0	2030-09-30
2023	\$34,131,336	\$23,798,218	\$10,333,118	2031-09-30

G.	MTW Statutory Requirements.
	75% Very Low Income – Local, Non-Traditional.
G.1	HUD will verify compliance with the statutory requirement that at least 75% of the households assisted by the MTW agency are very low-income for MTW public housing units and MTW HCVs through HUD systems. The MTW PHA must provide data for the actual families housed upon admission during the PHA's most recently completed Fiscal Year for its Local, Non-Traditional program households.

Income Level	Number of Local, Non-Traditional Households Admitted in the Fiscal Year*
80%-50% Area Median Income	0
49%-30% Area Median Income	0
Below 30% Area Median Income	0
Total Local, Non-Traditional Households	0

*Local, non-traditional income data must be provided in the MTW Supplement form until such time that it can be submitted in IMS-PIC or other HUD system.

G.2 Establishing Reasonable Rent Policy.

Has the MTW agency established a rent reform policy to encourage employment and self-sufficiency? Yes

G.3	Substantially the Same (STS) – Local, Non-Traditional.
The total number of unit months that families were housed in a local, non-traditional rental subsidy for the prior full calendar year.	0 # of unit months
The total number of unit months that families were housed in a local, non-traditional housing development program for the prior full calendar year.	0 # of unit months

Number of units developed under the local, non-traditional housing development activity that were available for occupancy during the prior full calendar year:

MTW CERTIFICATIONS OF COMPLIANCE

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT OFFICE OF PUBLIC AND INDIAN HOUSING

Certifications of Compliance with Regulations: Board Resolution to Accompany the MTW Supplement to the Annual PHA Plan

Acting on behalf of the Board of Commissioners of the Moving to Work Public Housing Agency (MTW PHA) listed below, as its Chairperson or other authorized MTW PHA official if there is no Board of Commissioners, I approve the submission of the MTW Supplement to the Annual PHA Plan for the MTW PHA Fiscal Year beginning (07/01/2024), hereinafter referred to as "the MTW Supplement", of which this document is a part and make the following certifications and agreements with the Department of Housing and Urban Development (HUD) in connection with the submission of the MTW Supplement and implementation thereof:

- (1) The PHA made the proposed MTW Supplement and all information relevant to the public hearing available for public inspection at least 45 days before the hearing, published a notice that a hearing would be held and conducted a hearing to discuss the MTW Supplement and invited public comment.
- (2) The MTW PHA took into consideration public and resident comments (including those of its Resident Advisory Board(s) or tenant associations, as applicable) before approval of the MTW Supplement by the Board of Commissioners or Board of Directors in order to incorporate any public comments into the annual MTW Supplement.
- (3) The MTW PHA certifies that the Board of Directors has reviewed and approved the budget for the Capital Fund Program grants contained in the Capital Fund Program Annual Statement/Performance and Evaluation Report, form HUD-50075.1 (or successor form as required by HUD).
- (4) The MTW PHA will carry out the MTW Supplement in conformity with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d-2000d-4), the Fair Housing Act (42 U.S.C. 3601-19), section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), and title II of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) all regulations implementing these authorities; and other applicable Federal, State, and local civil rights laws.
- (5) The MTW Supplement is consistent with the applicable comprehensive housing affordability strategy (or any plan incorporating such strategy) for the jurisdiction in which the PHA is located.
- (6) The MTW Supplement contains a certification by the appropriate state or local officials that the Plan is consistent with the applicable Consolidated Plan, which includes a certification that requires the preparation of an Analysis of Impediments to Fair Housing Choice, for the MTW PHA's jurisdiction and a description of the manner in which the MTW Supplement is consistent with the applicable Consolidated Plan.
- (7) The MTW PHA will affirmatively further fair housing, which means that it will: (i) take meaningful actions to further the goals identified by the Assessment of Fair Housing (AFH) conducted in accordance with the requirements of 24 CFR 5.150-5.180 and 903.15; (ii) take no action that is materially inconsistent with its obligation to affirmatively further fair housing; and (iii) address fair housing issues and contributing factors in its programs, in accordance with 24 CFR 903.7(o)(3) and 903.15(d). Note: Until the PHA is required to submit an AFH, and that AFH has been accepted by HUD, the PHA must follow the certification requirements of 24 CFR 903.7(o) in effect prior to August 17, 2015. Under these requirements, the PHA will be considered in compliance with the certification requirements of 24 CFR 903.7(o)(1)-(3) and 903.15(d) if it: (i) examines its programs or proposed programs; (ii) identifies any impediments to fair housing choice within those programs; (iii) addresses those impediments in a reasonable fashion in view of the resources available; (iv) works with local jurisdictions to implement any of the jurisdiction's initiatives to affirmatively further fair housing that require the PHA's involvement; and (v) maintains records reflecting these analyses and actions.
- (8) The MTW PHA will comply with the prohibitions against discrimination on the basis of age pursuant to the Age Discrimination Act of 1975 and HUD's implementing regulations at 24 C.F.R. Part 146.
- (9) In accordance with 24 CFR 5.105(a)(2), HUD's Equal Access Rule, the MTW PHA will not make a determination of eligibility for housing based on sexual orientation, gender identify, or marital status and will make no inquiries concerning the gender identification or sexual orientation of an applicant for or occupant of HUD-assisted housing.
- (10) The MTW PHA will comply with the Architectural Barriers Act of 1968 and 24 CFR Part 41, Policies and Procedures for the Enforcement of Standards and Requirements for Accessibility by the Physically Handicapped.
- (11) The MTW PHA will comply with the requirements of section 3 of the Housing and Urban Development Act of 1968, Employment Opportunities for Low- or Very-Low Income Persons, and with its implementing regulation at 24 CFR Part 135.
- (12) The MTW PHA will comply with requirements with regard to a drug free workplace required by 24 CFR Part 24, Subpart F.
- (13) The MTW PHA will comply with requirements with regard to compliance with restrictions on lobbying required by 24 CFR Part 87, together with disclosure forms if required by this Part, and with restrictions on payments to influence Federal Transactions, in accordance with the Byrd Amendment.
- (14) The MTW PHA will comply with acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and implementing regulations at 49 CFR Part 24 as applicable.

- (15) The MTW PHA will take appropriate affirmative action to award contracts to minority and women's business enterprises under 24 CFR 5.105(a).
- (16) The MTW PHA will provide HUD or the responsible entity any documentation needed to carry out its review under the National Environmental Policy Act and other related authorities in accordance with 24 CFR Part 58. Regardless of who acts as the responsible entity, the MTW PHA will maintain documentation that verifies compliance with environmental requirements pursuant to 24 Part 58 and 24 CFR Part 50 and will make this documentation available to HUD upon its request.
- (17) With respect to public housing and applicable local, non-traditional development the MTW PHA will comply with Davis-Bacon or HUD determined wage rate requirements under section 12 of the United States Housing Act of 1937 and the Contract Work Hours and Safety Standards Act.
- (18) The MTW PHA will keep records in accordance with 2 CFR 200.333-200.337 and facilitate an effective audit to determine compliance with program requirements.
- (19) The MTW PHA will comply with the Lead-Based Paint Poisoning Prevention Act and 24 CFR Part 35.
- (20) The MTW PHA will comply with the policies, guidelines, and requirements of 2 CFR Part 200.
- (21) The MTW PHA must fulfill its responsibilities to comply with and ensure enforcement of housing quality standards as required in PIH Notice 2011-45, or successor notice, for any local, non-traditional program units. The MTW PHA must fulfill its responsibilities to comply with and ensure enforcement of Housing Quality Standards, as defined in 24 CFR Part 982, for any Housing Choice Voucher units under administration.
- (22) The MTW PHA will undertake only activities and programs covered by the Moving to Work Operations Notice in a manner consistent with its MTW Supplement and will utilize covered grant funds only for activities that are approvable under the Moving to Work Operations Notice and included in its MTW Supplement. MTW Waivers activities being implemented by the agency must fall within the safe harbors outlined in Appendix I of the Moving to Work Operations Notice and/or HUD approved Agency-Specific or Safe Harbor Waivers.
- (23) All attachments to the MTW Supplement have been and will continue to be available at all times and all locations that the MTW Supplement is available for public inspection. All required supporting documents have been made available for public inspection along with the MTW Supplement and additional requirements at the primary business office of the PHA and at all other times and locations identified by the MTW PHA in its MTW Supplement and will continue to be made available at least at the primary business office of the MTW PHA.

HPHA MTW Supplement for FY 25 General Hardship Policy

This general hardship policy establishes how the Hawaii Public Housing Authority (HPHA) will determine when a requirement or provision of an MTW activity constitutes a financial or other hardship for a family.

Definition of Hardship

A financial or other hardship may include or result from the following situations:

- A family has experienced a decrease in income because of changed circumstances, including the loss or reduction of employment, death in the family, or reduction in or loss of earnings or other assistance;
- A family has experienced an increase in expenses, because of changed circumstances, for medical costs, childcare, transportation, education, or similar items;
- The family would be evicted because of the imposition of an MTW activity; and
- Such other situations and factors determined by the HPHA to be appropriate.

Applying for a Hardship Exemption

To apply for a hardship exemption, a family shall submit a request to the HPHA, in writing, which describes:

- The MTW activity the family is request an exemption from;
- The nature and circumstance of the hardship;
- The expected duration of the hardship; and
- How the hardship has affected or will affect the family's ability to pay rent.

Determination of Hardship

Upon receipt of a hardship request, the HPHA shall suspend the MTW activity for a family, beginning the month after the request was made. The MTW activity shall remain suspended until the HPHA determines whether to grant a hardship exemption. Determination shall be made within 30 calendar days. During the suspension of an MTW activity, a family shall not be required to participate in the MTW activity and, if applicable, support will be adjusted accordingly.

If the HPHA requests information from a family and it is not received within 10 business days after the original request was made, the HPHA may deny the hardship request and reimpose the MTW activity.

When evaluating a hardship request, the HPHA shall first determine (1) if the hardship exists, and (2) whether nexus can be established between the claimed hardship and the requirement or policy of the MTW activity a family is requesting relief from.

If the HPHA determines that no hardship exists, the HPHA will reinstate the MTW activity for a family and, if applicable, require the family to repay any rent amounts suspended within 30 calendar days after notice is given.

If the HPHA determines that a hardship does exist, a family will be exempted from the MTW activity until the hardship has been resolved or after a period of 90 calendar days, whichever comes first. The HPHA may extend the family's exemption beyond 90 calendar days if it determines that the hardship will persist. Until the MTW activity is reimposed, the family must continue to qualify for the hardship exemption and remain in compliance with all other program requirements.

Notifications

The HPHA will notify all participating families affected by an MTW activity of their right to request an exemption at intake and/or during the reexamination process. The HPHA's notifications shall also advise families of their rights under the applicable program grievance procedures.

Record Keeping

The HPHA will maintain records of all hardship requests received and the results of these requests for the duration of its participation in the MTW Demonstration Program. Records shall be made available for public review and inspection at the Administrative Office located at 1002 N School St, Honolulu, HI 96817.

Grievance Procedure

In the event a hardship request is denied, a family may appeal the agency's decision and request an informal hearing pursuant to Chapters 17-2021 and 17-2031, Hawaii Administrative Rules.

Reasonable Accommodations

Reasonable accommodations shall be provided for persons with disabilities in accordance with HPHA's Reasonable Accommodation and Modification Policy (Administrative Memo No. 4).

HPHA Activity 25-07 MTW Waiver 3.a.

Impact Analysis

HPHA Activity 25-07 (MTW Waiver 3.a.) Biennial Reexaminations for Public Housing

MTW Waiver 3.a. allows a PHA to establish an alternative reexamination schedule for public housing households.

1. Describe the impact on the agency's finances:

Literature review. Across the literature, there are no evaluations of the effects of biennial or triennial reexaminations in either the LIPH Program or Housing Choice Voucher (HCV) Program on per household costs. Stacy et al. (2020) performed a per household cost analysis of the initial MTW agencies (14 of the 33 initial PHAs adopted some kind of alternative reexamination schedule) which found that MTW status was not associated with an increase in an MTW PHA's total operating and housing assistance spending per household across both the LIPH Program and HCV Program. In their literature review, there are few studies cited which focus specifically on MTW status and its effect on public housing operations and spending. A 2015 Center on Budget and Policy Priorities whitepaper found that MTW PHAs receive almost \$3,000 more per unit from HUD compared to traditional PHAs, suggesting that per unit costs are increase over time (Fischer). However, this estimate did not account for variations between local housing or labor markets (Stacy et al., 2020). A Government Accountability Office report which did account for these differences found that MTW PHAs spent about \$1,600 more per LIPH dwelling unit per year versus traditional PHAs (GAO, 2018). However, the Abt Associates report found no significant statistical difference in per unit costs between MTW PHAs versus traditional PHAs (Buron et al., 2017).

Analysis. The HPHA analyzed annual gross income and total tenant payment (TTP) calculations across annual reexaminations for Low-Income Public Housing (LIPH) families paying an income-based rent from CY 2019 to CY 2023 (see Exhibit A). Data was exported from ELITE, the software platform used by HPHA staff to conduct all LIPH reexaminations. Some inconsistencies within the data were discovered because of how the software collates agency actions coded as "Annual Reexamination." For example, the raw data included reexaminations that were voided due to staff error or listed multiple reexaminations with the same effective date and family identification number, but a different unit ID (this was mostly likely caused by a family transferring to a different project or a unit within the same project). Noise was reduced by deleting duplicative data and any action with missing values.

The variable values from all annual reexamination processed during a single calendar year were averaged. If annual reexamination entries were found for the

same family ID between contiguous calendar years, a comparison of variable values was made (i.e., if a family left the LIPH Program, no comparison was made). No comparisons were made between a family's income determination at admission and their first annual reexamination. The HPHA also analyzed TTP, and not actual rent charged in order remove the influence of utility allowances and reimbursements. Utility allowances also differ between public housing projects and change over time.

Summary of Findings:

For 2020 annual reexaminations (n = 3,276), average annual gross income was \$20,444 and average family TTP was \$511. Among those families that also had a 2019 annual reexamination, the average change in annual gross income was -\$807 and the average change in TTP was -\$20.

For 2021 annual reexaminations (n = 3,604), average family gross income was \$21,283 and average family TTP was \$532. Among those families that also had a 2020 annual reexamination, the average change in annual gross income was +\$753 and the average change in TTP was +\$19.

For 2022 annual reexaminations (n = 3,821), average family gross income was \$22,313 and average family TTP was \$558. Among those families that also had a 2021 annual reexamination, the average change in annual gross income was +\$1,241 and the average change in TTP was +\$31.

For 2023 annual reexaminations (n = 3,877), average family gross income was \$24,958 and average family TTP was \$624. Among those families that also had a 2022 annual reexamination, the average change in annual gross income was +\$1,038 and the average change in TTP was +\$26.

<u>Discussion.</u> Changes to TTP and gross annual income across annual reexaminations were less significant at elderly public housing projects over the same time period. For example, from 2019 to 2023: At Makua Alii, the average annual change in TTP was \$11. The average annual change in gross income was \$437. At Paoakalani, the average annual change in TTP \$14. The average annual change in gross income was \$553. Because the overwhelming majority of families at both properties are on fixed incomes, neither experienced a decline in TTP or gross income because of the COVID-19 pandemic from 2019 to 2020.

The HPHA expects the implementation of this waiver to cause the Program's revenue to decrease slightly after all families are transitioned to the new schedule. No significant impact is anticipated during the first two years of this activity (i.e., families will still be transitioning to a biennial schedule during this time). Any

negative impact to revenue is expected be less significant at public housing projects designated for elderly and disabled families: generally speaking, the recalculation of TTP which would otherwise occur during the interim year of a biennial reexamination schedule would only be significantly affected by any cost-of-living adjustments from benefits programs.

Future economic conditions will also impact this activity's effects on program finances. The sharp rise in unemployment rates caused by the COVID-19 pandemic as well as the subsequent recovery in labor markets are reflected in family gross income data. During periods of rapid economic expansion, this activity will dampen revenue projections by reducing the frequency of rent adjustments (at the benefit to residents). Overall program expenditure amounts are not expected to change. The HPHA will collect and analyze data on how this activity impacts program finances over the course of its implementation. These analyses will be included in future MTW Supplements.

It is difficult to estimate at this time what potential cost savings could be derived from a resulting reduction in administrative burden. Through informal qualitative data collection, the HPHA estimates the average staff time needed to process an annual reexamination to be five hours. (However, staff noted that the process can become significantly delayed if income, asset, or household composition information needed to conduct the reexamination is not immediately available and/or verifiable.) From CY 2019 to CY 2023, the HPHA performed an average of 3,540 LIPH annual reexaminations. As a rough, "back-of-the-napkin" calculation: the HPHA assumes this waiver would halve the number of regularly scheduled reexaminations processed yearly (i.e., 1,770 annual reexaminations), resulting in a possible savings of 8,850 work hours per year, or approximately 738 work hours per month. This is the equivalent of 4.25 FTE (based upon the standard 2,080 working hours per year for white-collar State employees). These time savings could allow staff to tackle other outstanding issues. The HPHA will collect and analyze data on how this activity impacts Program cost-effectiveness and reductions in administrative burden over the course of its implementation.

2. Describe the activity's impact on affordability of housing costs for affected households:

The HPHA anticipates this activity will have a positive impact on housing affordability for families who increase their gross income in between biennial reexaminations. By undergoing fewer scheduled reexaminations, families may keep more of their wage increases over time. Based on the HPHA's analysis of LIPH rent data from CY 2019 to CY 2023, the average change in family TTP was \$26. Annualized, this could produce an average savings of \$312 for families during the second half of their reexamination cycles. Families that are able to significantly

increase their earned income stand to benefit even more from this activity. During implementation, the HPHA will regularly review trends in family gross income and rent burden to assess what impact the activity may be having on housing affordability.

3. Describe the impact on the agency's waitlist(s):

The HPHA anticipates this activity will have no impact on the agency's waiting lists. This activity will only affect the reexamination schedule for families who are already participating in the Program. During implementation, the HPHA will monitor its LIPH waiting lists and admission/denial rates to determine whether the activity is having unanticipated effects.

4. Describe the impact on the agency's termination rate of households:

The HPHA anticipates this activity will have no impact on the termination rate of households. The HPHA will still require families to report all changes to family income, composition, and other eligibility factors between biennial reexaminations. Families that fraudulently or willfully hide or misreport any information they are otherwise required to report to the HPHA between biennial reexaminations shall be in violation of their rental agreement. During implementation, the HPHA will monitor the termination rate of participant households to determine whether the activity is having unanticipated effects.

5. Describe the impact on the agency's current occupancy level in public housing and utilization rate in the HCV program:

The HPHA anticipates this activity will have no impact on the current occupancy rate in the LIPH Program. The biennial reexamination schedule will not affect how quickly the HPHA is able to repair/modernize vacant dwelling units, or how fast applicant families on the waiting list are able to move-in. The biennial reexamination schedule will not affect the number of total dwelling units or dwelling unit sizes at each public housing project. During implementation, the HPHA will monitor the Program's occupancy rates to determine whether the activity is having unanticipated effects.

6. Describe the impact on meeting the MTW statutory goals of cost effectiveness, self-sufficiency, and/or housing choice:

The HPHA anticipates this activity will improve the agency's ability to meet the statutory goals of program cost-effectiveness and improving families' self-sufficiency.

Although it is difficult to predict whether this activity will result in actual cost-savings based on the review of existing literature, the reduction in the number of reexaminations being conducted each year should relieve administrative burden and free up staff to accomplish other tasks.

The HPHA also believes this activity can improve resident self-sufficiency by incentivizing increases to earned income between reexaminations. Upon the HPHA's implementation of HOTMA Sections 102 and 104 and this activity (the HPHA currently plans to implement the HOTMA interim reexamination provisions and this activity simultaneously), earned income increases will no longer trigger interim reexaminations.

7. Describe the impact on the agency's ability to meet the MTW statutory requirements:

The HPHA anticipates this activity will have no significant impact on the agency's ability to meet the five MTW statutory requirements.

a. Very-Low-Income Requirement

This activity may benefit very-low-income families participating in the LIPH Program by allowing them to retain a greater amount of their earned income increases over the course of their reexamination cycle. If implementation is successful and families are able to increase income or move on from the Program, the HPHA will continue to target very-low-income families for admission to meet the Very-Low-Income Requirement.

b. Reasonable Rent Policy

The HPHA will use this activity in establishing a Reasonable Rent Policy. The switch to a biennial reexamination schedule will encourage employment and self-sufficiency for participating families by creating an incentive to increase income during the intervening years between biennial reexaminations. Per the MTW Operations Notice (p. 26), the alternative reexamination waivers shall "meet the definition of a reasonable rent policy..." Upon the implementation of HOTMA Sections 102 and 104, the HPHA will not apply increases in earned income to the adjusted income increase threshold. The HPHA has not decided whether to adopt the discretionary policy to perform an interim reexamination for increases in earned income when another interim reexamination was performed during the same reexamination cycle.

c. Substantially the Same Requirement

The HPHA anticipates this activity will have no impact on its ability to meet the Substantially the Same Requirement. The biennial reexamination schedule will not affect how quickly the HPHA is able to repair/modernize vacant dwelling units, or how fast applicant families on the waiting list are able to move-in.

d. Comparable Mix Requirement

The HPHA anticipates this activity will have no impact on its ability to meet the Comparable Mix Requirement. The biennial reexamination schedule will not affect the number of dwelling units or unit sizes at each public housing project.

e. Housing Quality Standards (HQS) Requirement

The HPHA anticipates this activity will have no impact on its ability to meet the HQS Requirement. The biennial reexamination schedule will not have any effect on the physical inspection scores received for public housing projects. Program revenues are expected to decrease as a result of the implementation of this activity and the mandatory HOTMA interim reexamination policies. This could potentially impact our ability to maintain units as safe, sanitary, and healthful. However, the HPHA believes these effects can be mitigated through appropriations for capital improvements the agency regularly receives from the Hawaii State Legislature.

8. Describe the impact on the rate of hardship requests and the number granted and denied as a result of this activity:

The HPHA does not anticipate this activity to affect the rate of hardship requests granted or denied. Although the alternative reexamination waiver allows MTW expansion agencies to limit the number of interim reexaminations to one per year, the HPHA has opted NOT to establish such a limit. Families who experience decreases in income between biennial reexaminations will still be able to request interim rent adjustments and/or hardship exemptions at any time. During implementation, the HPHA will monitor the number hardship requests received and the number of requests granted or denied in order to determine whether the activity is having an unanticipated effect. Any findings will be presented in future MTW Supplements.

9. Across the other factors above, describe the impact on protected classes (and any associated disparate impact):

The HPHA anticipates this activity will not have a disparate impact on protected classes. The purpose of this activity is to benefit all assisted families by providing them the opportunity to retain greater amounts of any income increases received throughout the reexamination cycle. Biennial reexaminations will be applied to all families paying an income-based rent. During implementation, the HPHA will conduct regular qualitative analyses of participant families with members in protected classes to determine whether the activity is having an unanticipated effect. Any findings of disparate impact will be presented in future MTW Supplements.

HPHA Activities 24-05 & 25-08 MTW Waivers 3.b. & 2.a.

Impact Analysis

HPHA Activities 24-05 & 25-08 (MTW Waivers 3.b & 2.a.) Biennial Reexaminations for HCV & Exception SAFMRs

MTW Waiver 3.b. allows a PHA to establish an alternative reexamination schedule for voucher program households. MTW Waiver 2.b. allows a PHA to adopt and implement any reasonable policy to establish payment standards based upon Small Area Fair Market Rents (SAFMR).

1. Describe the impact on the agency's finances:

Literature review. Across the literature, there are no evaluations of the effects of a biennial or triennial reexamination schedule in either the Low-Income Public Housing (LIPH) Program or HCV Program on per household costs. The HPHA was also unable to find published research which focused specifically on the effects of increased payment standards on the financial sustainability of PHAs' HCV Programs. Stacy et al. (2020) performed a per household cost analysis of the initial MTW agencies (14 of the 33 initial PHAs adopted some kind of alternative reexamination schedule) which found that MTW status was not associated with an increase in an MTW PHA's total operating and housing assistance spending per household across both the LIPH Program and HCV Program. On the other hand, in their literature review, they cite research by Galvez et al. (2017) which found that the scaling back of income recertification frequency did not necessarily translate into overall administrative cost savings per household. implementation of such policies incurs costs related to policy development, staff training, tenant education, updating software, etc. (Khadduri et al., 2014). Additionally, most of the initial MTW PHAs used "savings generated from reduced regulation to shift how administrative staff spend their time rather than reduce overall staffing" (Stacy et al., 2020, p. 9). A citation of qualitative research performed by Abravanel et al. (2004) highlights that MTW PHA staff were able to spend more time being a "mentor" or "advocate" to tenants versus being an "auditor."

Analysis 1 (Exhibit A). The HPHA analyzed three variables, annual gross income, total tenant payment (TTP) calculations, and Housing Assistance Payments (HAP) across annual reexaminations for all Housing Choice Voucher (HCV), Project-Based Voucher (PBV), and Special Purpose Voucher (SPV) families from CY 2019 to CY 2023 ("Analysis 1", see Exhibit A). Data was exported from ELITE, the software platform used by HPHA staff to conduct all reexaminations for the voucher programs. Some inconsistencies within the data were discovered because of how the software collates agency actions coded as "Annual Reexamination." For example, the raw data included reexaminations that were voided due to staff error or listed multiple reexaminations with the same effective

date and family identification number, but different zip codes (this was mostly likely caused when a family moves and subsidy switches to the new dwelling unit). Noise was reduced by deleting duplicative data and any action with missing values.

The variable values from all annual reexaminations processed during a single calendar year were averaged. If annual reexamination entries were found for the same family ID between contiguous calendar years, a comparison of variable values was made (i.e., if a family left a voucher program, no comparison was made). No comparisons were made between a family's annual gross income determination at admission and their first annual reexamination. The HPHA also analyzed TTP instead of actual tenant rent to owner in order remove the influence of utility allowances when gross rents (i.e., landlord rent plus utility allowance) were lower than the payment standards. Utility allowances also differ between zip codes and change over time.

Analysis 1 (Exhibit A) – Summary of Findings:

For 2020 annual reexaminations (n = 2,827), average annual gross income was \$19,983; average family TTP was \$475; and average HAP was \$1,242. Among those families that also had a 2019 annual reexamination, the average change in annual gross income was -\$439; the average change in TTP was -\$10; and the average change in HAP was -\$21.

For 2021 annual reexaminations (n = 3,044), average annual gross income was \$21,327; average family TTP was \$510; and average HAP was \$1,193. Among those families that also had a 2020 annual reexamination, the average change in annual gross income was +\$1,467; the average change in TTP was +\$37; and the average change in HAP was +\$2.

For 2022 annual reexaminations (n = 3,600), average annual gross income was \$22,881; average family TTP was \$548; and average HAP was \$1,212. Among those families that also had a 2021 annual reexamination, the average change in annual gross income was +\$1,855; the average change in TTP was +\$46; and the average change in HAP was +\$50.

For 2023 annual reexaminations (n = 3,137), average annual gross income was \$25,013; average family TTP was \$600; and average HAP was \$1,321. Among those families that also had a 2022 annual reexamination, the average change in annual gross income was +\$3,535; the average change in TTP was +\$88; and the average change in HAP was +\$80.

Analysis 2 (Exhibit B). A second analysis was performed which examined average landlord rent and family rent burden using annual reexamination data over the course of CY 2019 to CY 2023 ("Analysis 2", see Exhibit B). Data was extracted from ELITE in the same manner as Analysis 1, with duplicative entries or entries with missing values being removed. Annual reexaminations for families with zero income (2,821 total entries) were removed from the sample. Of the remaining entries, annual reexaminations for families in project-based housing were also removed (2,302 total entries). Landlord rent was calculated by adding the monthly HAP amount to monthly tenant rent to owner. Landlord rents were averaged to approximate the market rate rents for dwelling units in each zip code. "Rent burdened" was defined as TTP exceeding 30% of gross annual income¹. TTP was used for the same reasons as Analysis 1: to remove variance caused by the cost and responsibility for payment of utilities, as well as differing utility allowance schedules and amounts across time and between different neighborhoods.

Analysis 2 (Exhibit B) – Summary of Findings:

For 2019 annual reexaminations (n = 2,289), the average landlord rent was \$1,688. The average TTP to monthly gross income ratio among all families was 27.94% of monthly gross income. Ninety-two (92) out of 2,289 annual reexaminations (4.02%) showed families as rent burdened.

For 2020 annual reexaminations (n = 2,327), the average landlord rent was \$1,712. The average TTP to monthly gross income ratio among all families was 27.76%. Ninety-one (91) out of 2,327 annual reexaminations (3.91%) showed families as rent burdened.

For 2021 annual reexaminations (n = 2,586), the average landlord rent was \$1,691. The average TTP to monthly gross income ratio among all families was 27.99%. One hundred twenty-one (121) out of 2,586 annual reexaminations (4.68%) showed families as rent burdened.

For 2022 annual reexaminations (n = 2,849), the average landlord rent was \$1,790. The average TTP to monthly gross income ratio was 27.99%. One hundred fifteen (115) out of 2,849 annual reexaminations (4.03%) showed families as rent burdened.

_

¹ HUD's participant rent burden calculation is actual monthly tenant rent to owner divided by monthly adjusted income. The rent burden calculation used by the HPHA for Analysis 2 was monthly TTP divided by monthly gross income. A tenant's TTP is always equal to or greater than the actual tenant rent to owner. The HPHA chose this alternative formula to remove any variance caused by utility payments and examine family rent contribution as a percentage of actual income received.

For 2023 annual reexaminations (n = 2,528), the average landlord rent was \$1,934. The average TTP to monthly gross income ratio was 28.11%. Ninety-four (94) out of 2,528 annual reexaminations (3.71%) showed families as rent burdened.

<u>Discussion.</u> The samples used in Analyses 1 and 2 were affected by ongoing delays in annual reexamination processing and submissions of HUD-50058 data. In response to the COVID-19 pandemic, the HPHA launched its "Lease-in-Place Initiative" which saw the enrollment of over 800 new families to its voucher programs. Analysis 1 included annual reexaminations from all voucher programs. The overall number of annual reexaminations being performed increased each year. Analysis 2 did not include annual reexaminations for Project-Based Vouchers and zero-income families. A reduction of sample size can be seen from CY 2022 to CY 2023. It was not possible to predict how the late reexaminations would have skewed the results of either analysis had they been completed. The HPHA was not able to fully assess what effect, if any, the Lease-in-Place Initiative had on these findings.

The results of the Analysis 1 show a clear upward trend in both program expenditures and how much families were paying towards rent. From CY 2019 to CY 2023, the average HAP amount went from \$1,177 to \$1,321, a total increase of 12.34%. This finding aligns with per unit cost data published on HUD's HCV dashboard which showed an increase from \$1,203 in CY 2019 to \$1,310 in CY 2023. The average family TTP amount grew from \$507 to \$600, an increase of 18.34%. Annual gross income grew from \$21,317 to \$25,013 during the same period, an increase of 17.34%. The results of Analysis 2 show a similar rise in average landlord rent over the same period: \$1,688 in CY 2019 to \$1,934 in CY 2023, an increase of 14.57%. Although HAP expenditures for the voucher programs rose over the last five years, both average TTP and average landlord rent amounts grew at faster rates.

Across the country, post-pandemic rental market trends show the cost of housing continuing to outpace wage growth (Choi et al., 2024). The results of Analysis 2 show that similar trends have affected HPHA program participants. Although gross income grew at a faster rate (17.34%) than landlord rents (14.57%), without subsidy many families would still be severely rent burdened. Based on all HCV reexaminations processed for CY 2023 (n = 1,724), 1,683 families (97.62%) would be paying more than 30% of their income towards rent without subsidy. One thousand six hundred forty-three families (95.30%) would be paying more than 35% of their income towards rent without subsidy. Within the last year alone (i.e., Q1 2023 to Q1 2024), statewide data on rents of primary residences showed an increase of 11% year-over-year (UHERO, 2024a). While local market rate rents

have continued to substantially increase, the HPHA's voucher programs have been able to keep housing affordable for the overwhelming majority of assisted families, with the TTP to gross income ratio growing from 27.94% in CY 2019 to only 28.11% in CY 2023. Based on the findings of Analysis 2, there were no zip codes in which the percentage of rent burdened families exceeded 10% across each year of the analysis period²

The implementation of the biennial reexamination activity alone is expected to slightly reduce voucher program expenditures and per unit costs after all families are transitioned to the new schedule. The average year-over-year increase in HAP from CY 2020 to CY 2023 derived from Analysis 1 was \$40. Assuming a family does not experience a decrease in income during the reexamination cycle that triggers an interim reexamination, any increase in HAP will be delayed to the family's next biennial reexamination. No anticipated increase in Administrative Fee expenditures are anticipated. The reduction in HAP expenditures may be offset to some degree by the payment standard activity; the scale of any such reduction will depend on how many zip codes have payment standards set above the normal upper bound of 110%. Based on the findings of the Analyses 1 and 2, the HPHA does not intend to amend the CY 2024 payment standard schedule or begin immediate implementation of the payment standard activity.

Looking forward, the HPHA anticipates most SAMFRs to rise in conjunction with local housing costs given the state's extremely limited housing inventory and new construction projections being lower than what is needed to meet overall demand (UHERO, 2024b). The HPHA's payment standard schedule is established in Q4 of each calendar year after HUD's publication of updated SAFMRs. Payment standards for a zip code may be set at above 110% but no more than 120% of the SAFMR for reasons such as alleviating rent burden, incentivizing landlord participation in higher opportunity neighborhoods, or to head off a sharp, projected rise in market rents (e.g., if the completion of planned developments were to increase average property values). Increasing the range that a zip code's payment standards can be set at also allows the HPHA to increase rental assistance for families that may be facing difficulties finding dwelling units of a specific size. Available data related to each of these factors will be analyzed to determine whether there is need for a higher-than-normal payment standard. The HPHA may use HUD's Payment Standard Analysis Tool and Two-Year Tool to estimate how proposed payment standard amounts will affect future program reserves and per

² The HPHA was permitted to set payment standards above 110% for CY 2022 and CY 2023 under the regulatory waivers described in Notice PIH 2021-14 and Notice PIH 2022-30. The analyses did not examine rent burden rates (using the Analysis 2 rent burden formula) under hypothetical payment standards capped at 110% of the SAFMRs effective in those years.

unit costs. The HPHA will monitor how the activities in combination affect program finances over the course of their implementation.

With regards to how the biennial reexamination activity might increase program cost-efficiency, it is difficult to estimate at this time what potential cost savings could be derived from a resulting reduction in administrative burden. Through informal qualitative data collection, the HPHA estimates the average staff time needed to process an annual reexamination to be five hours. (However, staff noted that the process can become significantly delayed if income, asset, or household composition information needed to conduct the reexamination is not immediately available and/or verifiable.) From CY 2019 to CY 2023, the HPHA performed an average of 3,064 annual reexaminations for the voucher programs. As a rough, "back-of-the-napkin" calculation: the HPHA assumes this waiver would halve the number of regularly scheduled reexaminations processed yearly (i.e., 1,532 annual reexaminations), resulting in a possible savings of 7,660 work hours per year, or approximately 638 work hours per month. This is the equivalent of 3.68 FTE positions (based upon the standard 2,080 working hours per year for white-collar State employees). These time savings could allow staff to tackle other outstanding issues. The HPHA will collect and analyze data on how this activity impacts the voucher programs' cost-effectiveness and reductions in administrative burden over the course of its implementation.

2. Describe the activity's impact on affordability of housing costs for affected households:

The HPHA anticipates these activities will have a positive impact on housing affordability for affected households. By undergoing fewer scheduled reexaminations, participant families keep more of their wage increases over time. Based on the findings of Analysis 1, from CY 2020 to CY 2023, the average family TTP increased by \$40 at each annual reexamination. Annualized, the activity could result in an average family savings of \$480 in the second half of the reexamination cycle. Families that are able to significantly increase their earned income stand to benefit more from this waiver. In zip codes with higher payment standards set between 110% and 120% of SAFMR, the HPHA can provide a deeper level of subsidy than what would normally be allowed under HUD policy. This will make it possible for affected families to lease up or remain housed without incurring unsustainable rent burdens. During implementation, the HPHA will regularly review trends in family gross income and rents to assess what impact or effects the activities may be having.

3. Describe the impact on the agency's waitlist(s):

The HPHA anticipates these activities will have no impact on the agency's waiting lists. Both the biennial reexamination activity and payment standard activity will only affect families who have already been admitted or are already participating in the HCV Program. During implementation, the HPHA will monitor the waiting lists and admission/denial rates to determine whether the activities are having unanticipated effects or impacts.

4. Describe the impact on the agency's termination rate of households:

The HPHA anticipates these activities will have no impact on the termination rate of households. Families will still be required to report all changes to family income, composition, and other eligibility factors between biennial reexaminations. A family that fraudulently or willfully hides or misreports any information they are otherwise required to report shall be in violation of their tenant obligations. The payment standards activity will not change or alter any operating requirement or tenant obligation established for the HCV Program. During implementation of these activities, the HPHA will monitor the termination rate of participant households to determine whether they are having unanticipated effects or impacts.

5. Describe the impact on the agency's current occupancy level in public housing and utilization rate in the HCV program:

The HPHA anticipates the biennial reexamination activity will have no impact on the voucher utilization rate in the HCV Program. The frequency of regularly scheduled reexaminations does not influence the number of authorized vouchers in use each year. The payment standard activity may maintain or increase the voucher utilization rate. The activity will be used to protect rent burdened families from housing insecurity and improve housing choice in high-opportunity neighborhoods and for families in need of specific-sized units in short supply. The payment standard for a zip code will only be set above 110% of the SAFMR if doing so will not harm overall program finances. The HPHA will monitor both activities to determine whether they are having an unintended impact on voucher utilization.

6. Describe the impact on meeting the MTW statutory goals of cost effectiveness, self-sufficiency, and/or housing choice:

Although it is difficult to predict how the biennial reexamination activity in combination with the payment standards activity will affect the overall cost effectiveness of each voucher program, the reduction in the number of reexaminations being conducted each year should relieve administrative burden and free up staff to accomplish other tasks. The biennial reexamination activity

can improve resident self-sufficiency by providing an incentive to increase their earned income between reexaminations. By increasing the maximum subsidy amounts available in high-opportunity neighborhoods, the payment standard activity could be used to improve housing choice for low-income families by incentivizing greater landlord participation.

7. Describe the impact on the agency's ability to meet the MTW statutory requirements:

The HPHA anticipates these activities will have no significant impact on the agency's ability to meet the five MTW statutory requirements.

a. Very-Low-Income Requirement

Neither activity will hamper the HPHA's ability to meet the Very-Low-Income Requirement.

The biennial reexamination activity may benefit very-low-income families participating in the voucher programs by allowing them to retain a greater amount of any wage increases they earn. If implementation is successful and families are able to increase income or move on from the voucher programs, the HPHA will continue to target very-low-income families for admission to meet the Requirement.

The HPHA does not anticipate the payment standard activity will have any effect on its ability to meet the Requirement. The HPHA may increase a zip code's payment standard if a significant percentage of families who are already receiving assistance become rent burdened. Doing so would protect very-low-income families with assistance from becoming more housing insecure.

b. Reasonable Rent Policy

The HPHA will use the biennial reexamination activity to establish its Reasonable Rent Policy. The switch to a biennial reexamination schedule will encourage employment and self-sufficiency for participating families by creating an incentive to increase earned income. Per the MTW Operations Notice (p. 26), this waiver shall "meet the definition of a reasonable rent policy..." Increases in earned income will not trigger an interim reexamination. Upon the implementation of HOTMA Sections 102 and 104, the HPHA will not apply increases in earned income to the adjusted income increase threshold.

c. Substantially the Same Requirement

The HPHA anticipates these activities will have no substantial impact on its ability to meet the Substantially the Same Requirement. Based on the analyses of potential impact to program finances, the combined implementation of both activities is expected to be cost neutral.

d. Comparable Mix Requirement

The HPHA anticipates these activities will not impair its ability to meet the Comparable Mix Requirement. Participating families with more working members may stand to benefit more from the biennial reexamination activity, but this will not be to the detriment of smaller families. All payment standards will be set within the acceptable range of 90% to 120% of the applicable SAFMR for each bedroom size. Payment standards in a zip code may be increased for specific dwelling unit sizes if such a need exists. The HPHA will monitor family size data to ensure variations caused by the payment standard activity do not violate this Requirement.

e. Housing Quality Standards (HQS) Requirement

The HPHA anticipates these activities will have no impact on its ability to meet the HQS Requirement. Neither activity will affect the physical inspection scores received for voucher-assisted dwelling units.

8. Describe the impact on the rate of hardship requests and the number granted and denied as a result of this activity:

The HPHA anticipates the payment standards activity will not impact the rate of hardship requests or number of requests granted or denied. The HPHA will not set any payment standard below 90% of the applicable SAFMR.

The HPHA anticipates the biennial reexamination activity will not impact the rate of hardship request or number of requests granted or denied. Although MTW Waiver 2.a. allows PHAs to limit the number of interim income adjustments to once per year, the HPHA has opted NOT to establish such a limit. Families who experience decreases in income between biennial reexaminations may still request an interim reexamination at any time.

During the implementation of these activities, the HPHA will monitor the number hardship requests received and the number of requests granted or denied. Any

increase in the number or rate of requests received will be presented in future MTW Supplements.

9. Across the other factors above, describe the impact on protected classes (and any associated disparate impact):

By itself, the biennial reexamination activity may have a disparate impact on protected classes, more specifically families with only fixed income sources (e.g., disabled families, elderly families). These families may be more vulnerable to becoming rent burdened when owners request rent increases between biennial reexaminations. Although a new rent amount must still meet rent reasonableness standards pursuant to the HPHA's Administrative Plan and Chapter 17-2031, HAR, the monthly HAP can only ever increase up to the applicable payment standard effective at the last biennial reexamination (i.e., assuming a family becomes zero-income and gross rent exceeds the payment standard). The activity will be to the benefit of the overwhelming majority of assisted families as it provides the opportunity to retain any income increases received throughout the reexamination cycle.

The purpose of the payment standards activity is to benefit all assisted families residing in or searching for housing in a zip code where greater amounts of subsidy are needed. The HPHA anticipates the activity can also help to alleviate some of the impacts of the biennial reexamination schedule. By setting select payment standards at a greater percentage of SAFMR, they ensure subsidy amounts can remain sufficient over the course of the two-year reexamination cycle. A family who becomes rent burdened or experiences other disparate impacts may request an exemption under the hardship policy at any time.

During the implementation of these activities, the HPHA will monitor the rate of requests received for reasonable accommodations and hardship exemptions. Any significant increase in the number or rate of requests received will be presented in future MTW Supplements.

MTW Supplement for FY 25

Attachment C

RAB Comments

HPHA MTW Supplement for FY 25 RAB Comments

The HPHA presented the draft MTW Supplement for FY 25 to the Resident Advisory Board for review and comments on February 12, 2024, and March 13, 2024.

1. **Proposed MTW Supplement Revision**: The HPHA will implement an MTW activity (waiver 3.a.) to allow for biennial reexaminations for all public housing families. The HPHA would not limit the number of interim reexaminations a family may request. The goals of the activity are to alleviate administrative burden and to create an incentive for families to increase their income between reexaminations.

RAB Comments

The RAB expressed some concerns that there may be families who take advantage of this activity and purposefully lower their income on more than one occasion between regular biennial reexaminations.

HPHA Response

The HPHA understands the RAB's concern about potential bad actors who may try to "game" the system by continuously lowering their rent. However, the HPHA current top priority is to alleviate administrative burden for its public housing office. The implementation of this activity will benefit the majority of public housing families participating in the program. While the AMP Offices and public housing families get accustomed to the new reexamination schedule, the HPHA will continuously monitor for instances of potential abuse. The adoption of this waiver does not preclude the HPHA from changing this policy again, subject to HUD approval, moving forward.

MTW Supplement for FY 25

Attachment D

Public Testimony

NOTICE OF PUBLIC HEARING

Pursuant to 24 CFR 903.17 and the MTW Operations Notice, the Hawaii Public Housing Authority (HPHA), Department of Human Services, hereby provides notice that it will hold a public hearing on (1) the 5-Year Public Housing Agency (PHA) Plan for Fiscal Years 2025 to 2029, (2) the Annual PHA Plan for Fiscal Year 2024-2025, (3) the Moving to Work (MTW) Supplement for Fiscal Year 2024-2025, and (4) the Amended MTW Supplement for Fiscal Year 2023-2024.

Background: The HPHA is developing its 5-Year PHA Plan and Annual PHA Plan as required by the Quality Housing and Work Responsibility Act (QHWRA) of 1998. The QWHRA was enacted to revitalize, improve, and make significant changes to the federal public housing and Housing Choice Voucher programs. PHA Plans describe how federally-funded programs administered by the HPHA will be operated and managed during the applicable fiscal year(s). The HPHA also uses the PHA Plans to inform the U.S. Department of Housing and Urban Develoment (HUD), its residents, and the public of the specific strategies it will employ to address the housing needs of low-income families within its jurisdiction.

The HPHA will include an MTW Supplement for Fiscal Year 2024-2025 as an attachment to the Annual PHA Plan for Fiscal Year 2024-2025. An MTW Supplement provides information on all future and ongoing MTW-related policies, waivers, and activities. Submittal of the MTW Supplement is a requirement for all expansion PHAs participating in the MTW Demonstration Program. For more information on the MTW Demonstration Program, please see the MTW Operations Notice, published in the Federal Register as FR-5994-N-05.

Finally, the HPHA is proposing an amendment to its MTW Supplement for Fiscal Year 2023-2024, which was submitted to HUD on March 29, 2023, and received final approval on June 2, 2023. Specifically, the amended MTW Supplement includes a request for HUD approval of MTW Waiver 3.b. which would allow the HPHA to conduct reexminations of HCV families biennialy (i.e., every two years).

Public Review: The drafts of the (1) 5-Year PHA Plan for Fiscal Years 2025 to 2029, (2) the Annual PHA Plan for Fiscal Year 2024-2025, (3) the MTW Supplement for Fiscal Year 2024-2025, and (4) the Amended MTW Supplement for Fiscal Year 2023-2024 are available for public viewing at the HPHA School Street Administrative Campus and the site management offices on weekdays between 7:45 a.m. to 4:30 p.m.

Digital copies of each draft are also available on the HPHA's website at: https://hpha.hawaii.gov/plans-reports

The public hearing will take place on:

Monday, March 4, 2024, at 5:00 p.m.

Remote Meeting:
The public may participate in the public hearing electronically via
Zoom using the following link:
https://us06web.zoom.us/j/87825266494?pwd=cDQx0L6ut0bbbMq
VksIMFfcEdB3wY8.1

enter the Meeting ID: 878 2526 6494, and the

Alternatively, the public may participate via telephone by calling 1-346-248-7799. When prompted, callers should enter the Meeting ID: 878 2526 6494, and the Password: 044636. The HPHA requests that meeting participants show their first and last name.

Physical Meeting Location:
The public may attend the public hearing at 1002 North School Street,
Building A Conference Room, Honolulu, HI 96817, which will also be
connected to the remote meeting via Zoom.

All interested persons are invited to provide oral or written comments on the PHA Plans and MTW Supplements. All comments received will be considered and incorporated appropriately into the applicable document. Oral comments may be presented during the public hearing. Persons who cannot attend the hearing and prefer not to provide written comments may call (808) 436-7183 to submit their comments as a voicemail message.

Written comments may be presented to the presiding officer at the public hearing, or mailed to the HPHA, Attention: PEO Public Hearing, at 1002 North School Street, Honolulu, Hawaii 96817. Written comments may also be faxed to (808) 832-4679 or sent by electronic mail to hpha@hawaii.gov. Written comments not presented at the public hearing should be received by the HPHA's Administrative Office by 4:30 p.m. on March 4, 2024.

If you need an auxiliary aid/service or other accommodation due to a disability, contact Benjamin Park at (808) 832-4693 as soon as possible, preferably by February 26, 2024. If a response is received after February 26, 2024, the HPHA will attempt to obtain the auxiliary aid/service or accommodation, but cannot guarantee that the request will be fulfilled. Upon request, this notice is available in alternate forms such as large print, Braille, or electronic copy.
