B. MTW Supplement Narrative.

The New Smyrna Beach Housing Authority (NSBHA), established in 1950, is located in New Smyrna Beach, Florida. The NSBHA administers both the Public Housing and Housing Choice Voucher (HCV) programs as well as affordable housing options to all eligible households regardless of race, color, religion, sex, physical or mental handicap, familial status, national origin, or other protected class. The NSBHA is committed to providing quality, affordable housing, that enhances the lives of its residents and promotes their independence. The overall vision for the NSBHA's Moving to Work (MTW) program is to create a quality housing model that transforms families from poverty to prosperity while sustaining financial viability of the authority through the implementation of efficient business processes. Additionally, the NSBHA will develop and implement a comprehensive, integrated, and coordinated service delivery archetype that combines housing, coaching and mentoring, life skills and empowerment, education, and workforce development. Lastly, the NSBHA will reposition its public housing portfolio through demolition and new construction, which will include implementing initiatives that will provide families with more housing choices, employment, and educational centers.

1.i. - Alternative Utility Allowance (PH)
The NSBHA will streamline its recertifications by employing a standard utility allowance for its public housing households. This act will reduce staff hours, allowing staff to focus on other matters. Utility allowances, using the standard method, are the deduction of individual utilities based on bedroom size and dwelling type from a household's Total Tenant Payment (TTP). The NSBHA will make a standardized utility allowance by averaging every utility type and then adding those averages together based on bedroom size and dwelling type (multi-family and single-family). This will result in a single utility allowance amount, based on bedroom size and dwelling type, that will be deducted from a household's TTP. The NSBHA will have one standard utility allowance schedule based on bedroom size for public housing. This new practice will reduce the administrative burden on the NSBHA's staff during recertifications.

1.j. - Alternative Utility Allowance (HCV)

This new practice will reduce the administrative burden on the NSBHA's staff during recertifications.

1.m. - Utility Reimbursements (PH)
The NSBHA will eliminate utility reimbursements. The goal is to increase revenue for the authority while making households more self-reliant.
The NSBHA disburses \$2,127 in monthly utility reimbursements to approximately 19 public housing and HCV households, which equates to an average monthly utility reimbursement of \$112 per household. The yearly average reimbursement is \$1,343 per household. There are approximately 19 households that pay \$0 in rent due to their utility reimbursement. Once this activity takes effect, these households must pay at least the minimum rent of \$130 regardless of their utility allowance. The NSBHA will realize a minimum of \$2,127 in monthly cost savings and anticipates at least a \$25,524 cost savings during the first year in which this activity is implemented.

The total tenant payment (TTP) will be calculated based on gross income, and eligible households will pay at least the minimum rent of \$130. 1.v. - Alternative Income Inclusions/Exclusions (PH)

The NSBHA will eliminate the Earned Income Disregard. This will increase operational efficiencies by reducing the time it takes to administratively process the EID.

Currently, the EID allows individuals who go from not working in the previous 12 months, to working, to gradually phase in the income counted toward their rental calculation over a period of 2 years. The EID is an opportunity for clients that gain earned income, that did not previously have earned income to experience the benefit of increased income without that income increase being utilized for rent immediately; however, due to cumbersome regulations, the cost to continue offering this exclusion far outweigh the benefits. Families will benefit from an increase in income without an immediate increase in rent.

2.b. - Payment Standards- Fair Market Rents (HCV)

The NSBHA will raise the payment standard to 120% of the Fair Market Rents (FMR). Housing choices are dwindling due to growing local market rents, and this limits where NSBHA households can live. This activity is a remedy to this concern. The current NSBHA payment standard is 110% of the FMR. A payment standard of 120% of FMR will increase the payment standard by an average of \$118 for all bedroom sizes.

4 // \$1,580 // \$1,738 // \$1,896

3.a. - Alternative Reexamination Schedule for Households (PH)

The NSBHA will decrease the frequency of tenant reexaminations from annual to triennial for all public housing households. This restructuring will allow families to have a more consistent rent portion over a longer period of time, and it will create more time for the NSBHA staff to attend to other business affairs.

Interim recertifications will be limited to one interim per year at the request of the household. If the interim is for a decrease in income, only income decreases of 10% or more will be processed. Interim decreases will be limited to one during a calendar year and no interim decreases during the first six months after initial occupancy. Required interim recertifications for household composition changes or landlord rent increases will not count against the limit on voluntary interim recertifications.
