

# eVMS Wave 1: On-Boarding and Training

Department of Housing and Urban Development

Prepared by CVR Associates, Inc.

# Agenda

This webinar will introduce eVMS (Enterprise Voucher Management System), provide an overview of eVMS, and outline next steps and reference materials.

1. Purpose and Goals of eVMS
2. Overview of eVMS
3. eVMS Calculation
4. Demonstration and Use of eVMS
5. Importance of Accurate PIC Reporting
6. Additional Resources

# Purpose & Goals of eVMS

Purpose of the System

# Purpose of eVMS

eVMS is used for managing funds for the Housing Choice Voucher (HCV) Program and performs the following functions:

1. Automatically calculate HAPs using 50058 family-level data derived from PIC (PIH Information Center), and eventually from the Housing Information Portal (HIP). eVMS does not directly collect 50058 data.
2. Calculate and track administrative fees across all programs (available in later releases).
3. Provide a daily view of funding balances.

HUD developed eVMS to further support its mission to create **strong, sustainable, inclusive communities** and **quality affordable homes** for all.

# Goals and Expectations of Wave 1

**Congratulations!** Your public housing authority (PHA) is on its way to utilizing eVMS and getting funded using real-time 50058 data. Before diving into eVMS, here are the goals for Wave 1:

1. PHAs will begin receiving housing assistance payments (HAP) disbursements through eVMS beginning January of 2024. If there is a government shutdown, this date may be modified.
2. PHAs should successfully complete 50058 submissions in an accurate and timely fashion.
3. Work with the eVMS team and your FMC (Financial Management Center) Financial Analysts to ensure the HAP calculation in eVMS is sufficient to cover monthly needs.
4. PHAs begin using eVMS to see real-time, daily funding information and balances.
5. Continue reporting UML/expenses in VMS each month.

# Overview of eVMS

# Transition to eVMS

With the transition to eVMS, certain key tasks become even more important:

- Timely submission of 50058s
- Timely correction of PIC errors

Incomplete 50058 data could put PHAs at risk of underfunding.

# Monthly Disbursement

## Use of 50058 Data

- Unit Months Leased (UML) and HAP expenses will be gathered via submitted 50058s.
- Data will be used to determine monthly disbursements of HAP and administrative fee eligibility.

PHAs will still need to monitor disbursement schedules and work with FMC to request changes to disbursement amounts if anticipated HAP need exceeds planned eVMS disbursements.

**NOTE:** Confirm PIC and/or HIP (Housing Information Portal) information is/are current and accurate prior to requesting additional disbursements from FMC.

# PHA Landing Page

Upon logging in, the **PHA landing page** or the **Payment Analysis Report (PAR) Summary** page displays.

The calculations include:

- HAP Eligibility
- 50058 Calculation
- VMS Adjustments
- Financial Adjustments
- Available Budget Authority
- HAP Amount
- PHA Available Funds and Activity
- Admin Fees

# PAYMENT ANALYSIS REPORT (PAR)

Users can view **Column A Rates** and **Unit counts**, **Column B Rates** and **Unit counts**, the **total of Column A**, the **total of Column B**, the **total of both Column A and B combined**, and the **total after being multiplied by the proration factor**. The proration factor is a hard-coded value and may need to be updated on an annual basis.

The **Admin Fee** section has a column for PAR Today, Last Month Calculated, Difference, and Last Payment.

**NOTE:** Administrative fee calculations are currently unavailable.

# Administrative Fees

# eVMS Calculation

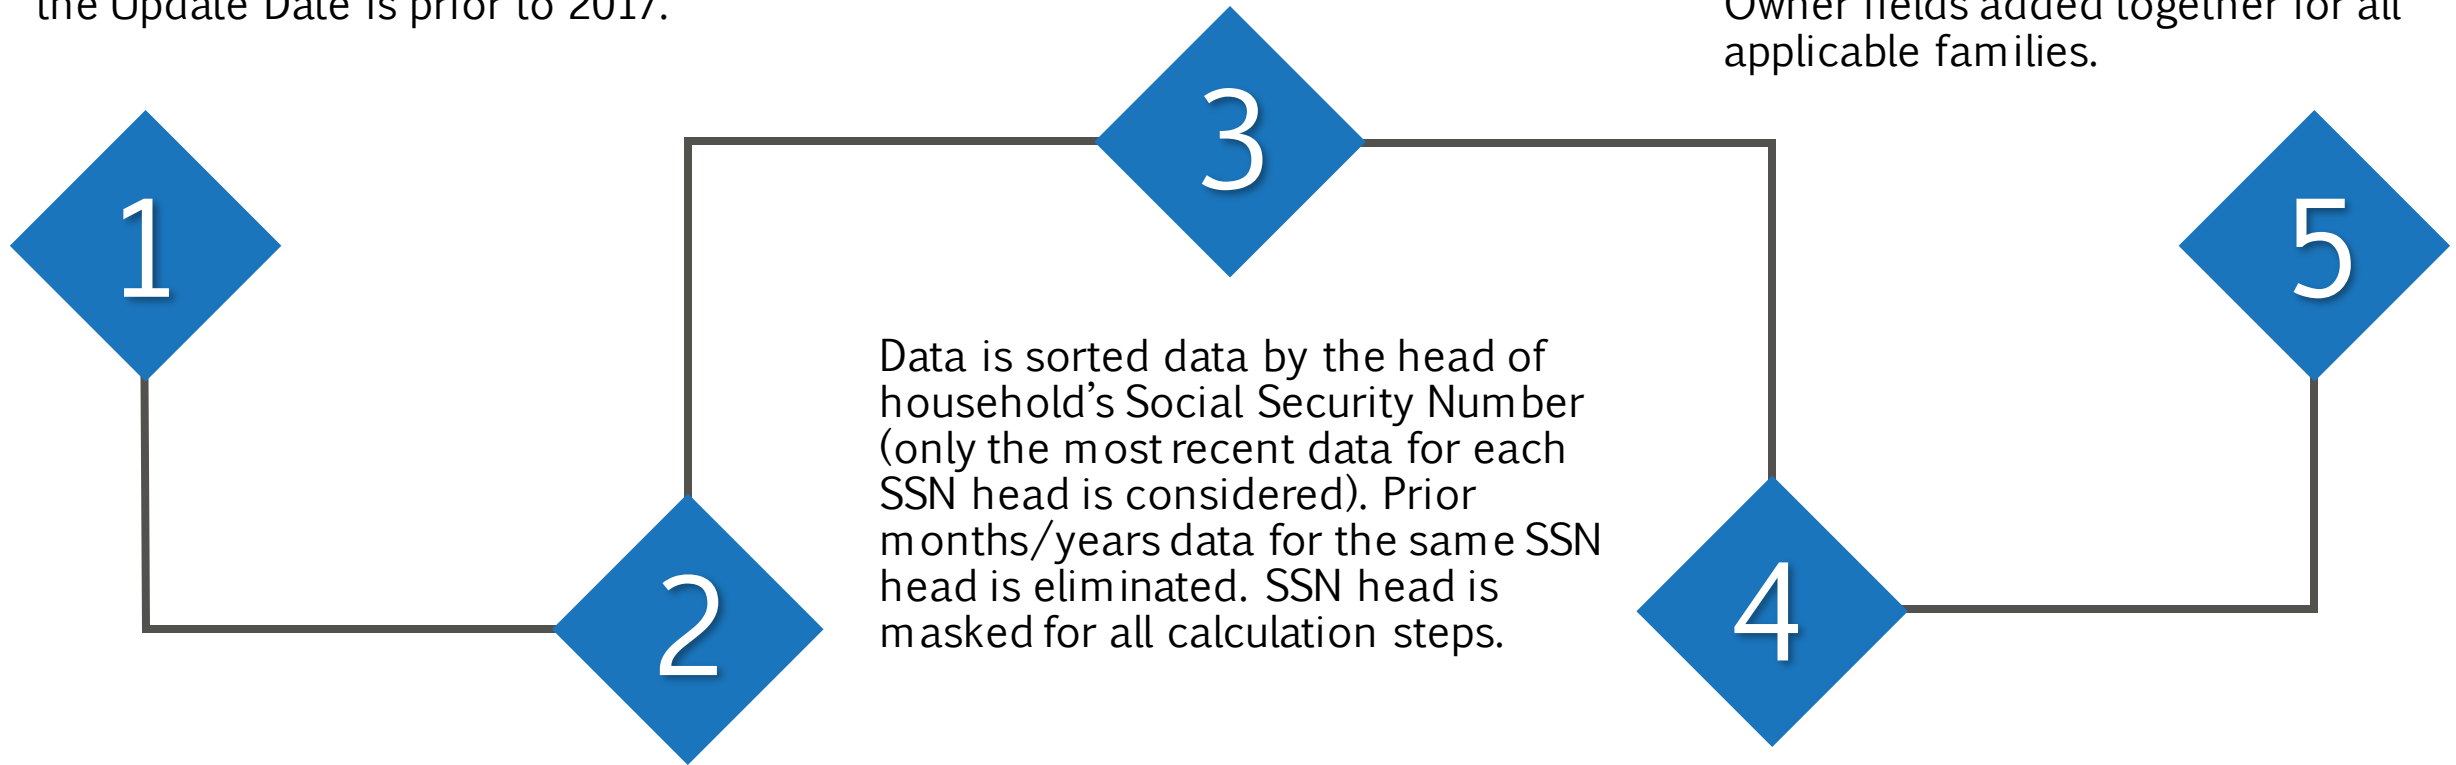

# Fields Used in 50058 HAP Calculation

Field	Field Number
SSN Head of Household	58 Unique Household Identifier
Date of Most Recent 58 Submission	Update Date
Effective Date of Action Code	2b
Action Code for 50058	2a
HAP Owed to Owner	11t, 12u, 15r

eVMS first filters out any families where the HAP to Owner is \$0 and the Update Date is prior to 2017.

After eVMS removes stated data, the 50058 HAP calculation is the HAP to Owner fields added together for all applicable families.

eVMS then filters out any data from future months that are not applicable to the current month's calculations (if the Effective Date of Action is less than the current month).

Families with a 5 (Port Out) or 6 (End of Participation) are eliminated.

# eVMS 50058 HAP Disbursement Calculation

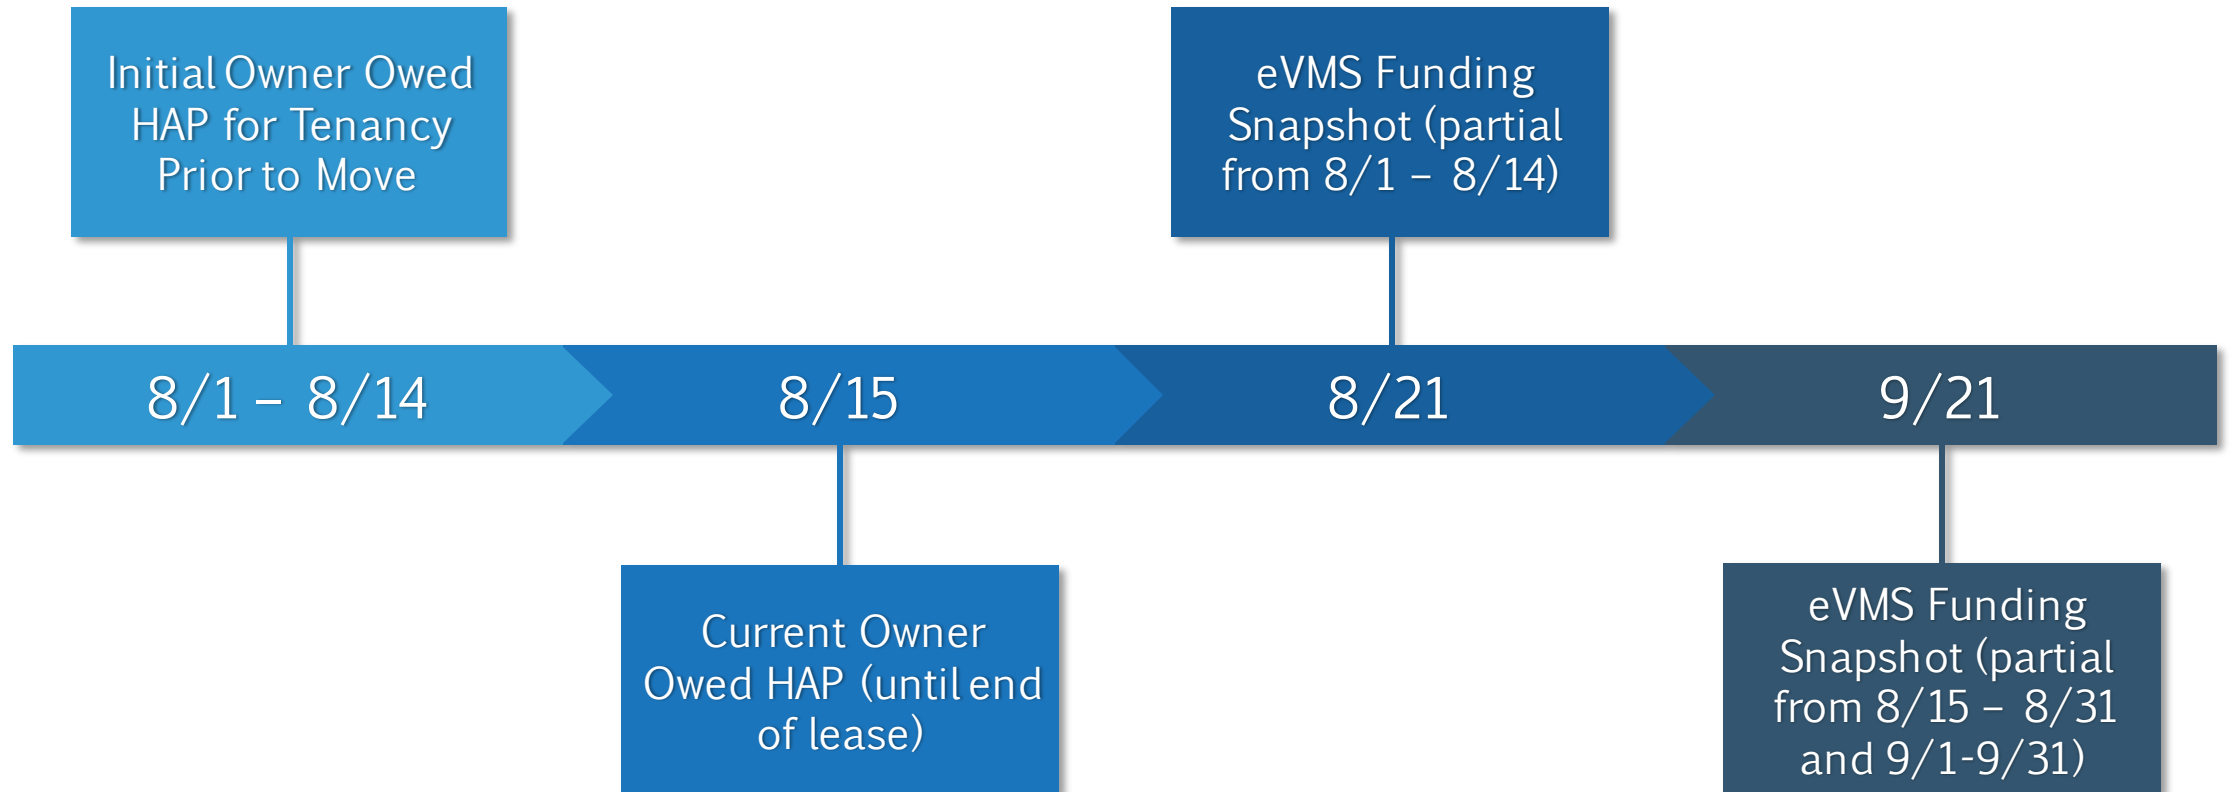

# Partial Month Calculation/ Late Entries

- There may be instances where a 50058 is submitted and the effective date of the action code is mid-month or a date other than the 1st, 30th, or 31st.
- If this is the case, eVMS calculates the HAP for only the number of days that the new action code applies to and uses prior month information for the first part of the month.
- The same applies if a 50058 is submitted after the month that is being calculated. eVMS will calculate the difference in what should have been paid in a prior month and will self-correct for the current month.

# Example: Partial Month Calculation

In this example, a tenant moves into a different unit mid-month:

# UMLs

- Administrative fees in eVMS are calculated using the Voucher Management System's (VMS) UMLs.
- HAP UMLs in the UMA (Unit Months Available)/UML modal are calculated in eVMS by counting the number of families included in the HAP calculation (i.e., number of 50058s).
- The UML count used for the yearly overleasing reconciliation is calculated using the number of families included in the eVMS 50058 calculation.
- Currently, there is no HAP reconciliation with VMS.

# Use of eVMS

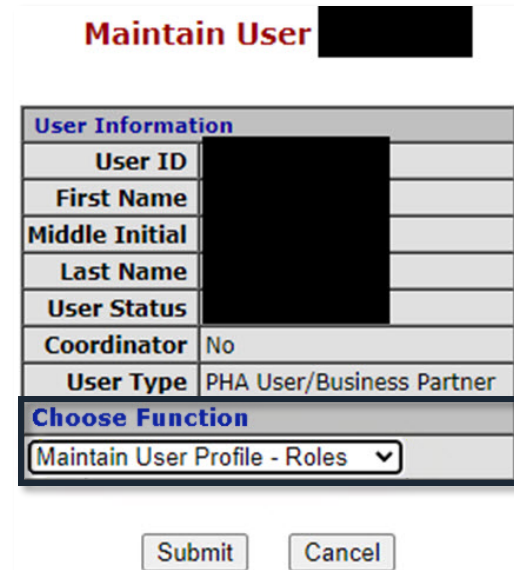

Demonstration and Overview

# Accessing eVMS

Use Secure Systems (WASS) Coordinators to assign a single user to the eVMS Role. Multiple users will be able to access eVMS in the near future. Send an **encrypted** email to [askEVMS@hud.gov](mailto:askEVMS@hud.gov) with your PHA Code and the **M Number** of the PHA staff member who will be accessing eVMS.

Select User Maintenance under System Administration.

Choose the function under Maintain User Profile – Roles.

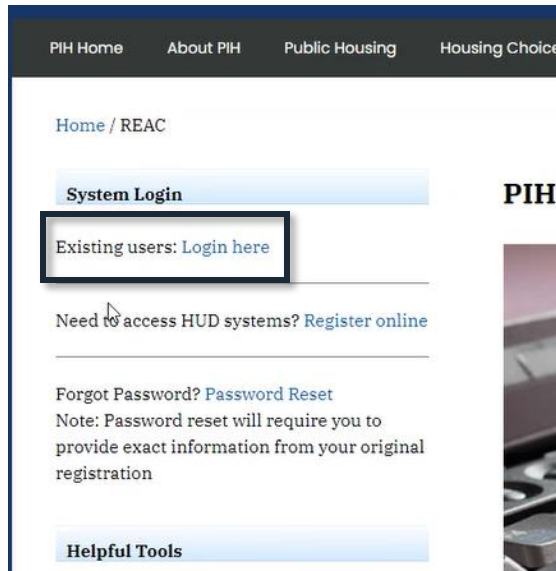

Select PHA Assignment Maintenance.

# Accessing eVMS

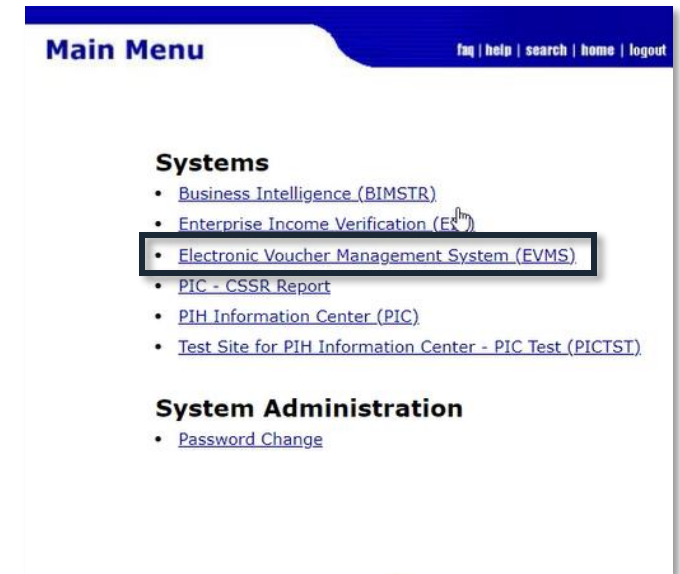

Using an internet browser (Google Chrome recommended), access eVMS through [REAC](#):

Select **Login here** within the **System Login** heading.

Enter your credentials.  
Accept the legal warning.

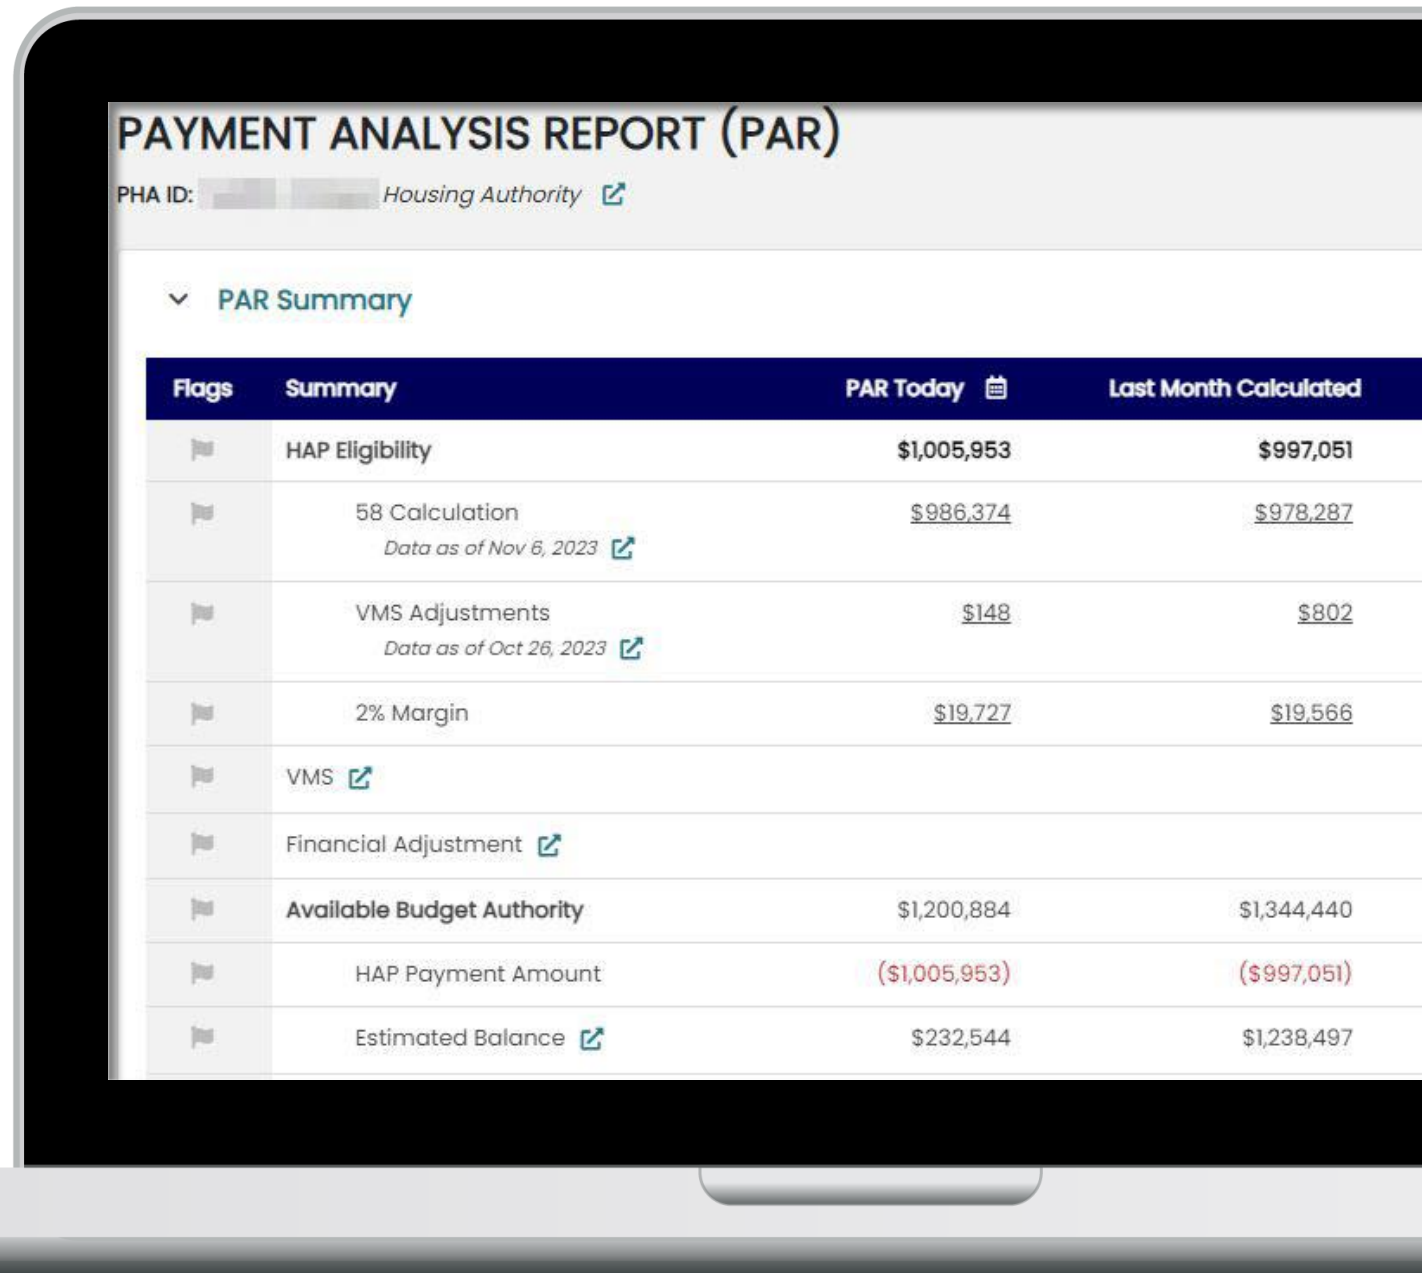

Select **Electronic Voucher Management System (eVMS)**.

# Landing Page

The landing page is the **Payment Analysis Report (PAR) Summary** page, which shows:

- HAP calculations
- 50058 family-level calculations
- VMS adjustments
- Estimated balances
- Funding statements

### 1.2 50058 Family-Level Calculation

The **58 Calculation** page can be viewed by clicking the link to the right of the line item **58 Calculation**. Under that line, the date of the most recent data is displayed. On this page, the calculated HAP is shown. The dollar amounts generated are based on calculations using 50058 data from the previous day.

Page	Summary
30	HAP Eligibility
30	58 Calculation Date as of Jul 1, 2022

Line items for the 50058 are displayed, including:

- Section 11: Project-Based HAP
- Section 12: Tenant-Based HAP
- Section 15: Homeownership (HOV) HAP

In addition, tracking for port-ins is provided on this page. This is the number of vouchers that are classified as portability-in (action code 4 from the 50058) for the current and last month calculation for the PHA.

See the image below for an example of the 58 Calculation page. Just like the PAR Summary page, there are columns with the value for that day, the previous month, and the difference from the previous month. A user can extract the current view of the 58 Calculation page at any time by clicking the **Print** button (Print) in the upper right corner of the screen.

To exit the 58 Calculation page, select the **X** in the upper right corner of the screen.

Check HUD's website for the most recent version of the manual.

# Importance of Accurate PIC Reporting

# Importance of Accurate PIC Reporting

Since disbursements of HAP will be dependent on PIC and/or HIP data, the timely and accurate submissions of 50058s have greater importance.

For SEMAP purposes, 50058s are due within 60 days of the effective date of the transmission. However, 50058s should be submitted on a regular basis and rejected submissions should be corrected quickly.

Incomplete PIC reporting could result in inaccurate disbursements of HAP and administrative fees.

# PIC Reporting PHA Deadlines

## Best Practices

Deadline*	PHA Best Practice
1 <sup>st</sup> through 19 <sup>th</sup> of the Month	PHAs complete 50058 submissions and submit to PIC and/or HIP
Weekly	PHA should review and verify the corrections no longer appear on the PIC Error Dashboard
15 <sup>th</sup> of the Month	PHAs complete all 50058 submissions and corrections to PIC and/or HIP errors
18 <sup>th</sup> of the Month	PHA's final check of the PIC Error Dashboard to ensure all corrections have been accepted
19 <sup>th</sup> of the Month	PHA submits all 50058s to PIC and/or HIP

\*If a date falls on a weekend or holiday, the action will take place on the following business day.

# PIC Reporting HUD Deadlines

Deadline*	HUD Action
21 <sup>st</sup> of the Month	eVMS locks as of 12 a.m. EST
21 <sup>st</sup> of the Month	eVMS calculations completed

\*If a date falls on a weekend or holiday, the action will take place on the following business day.

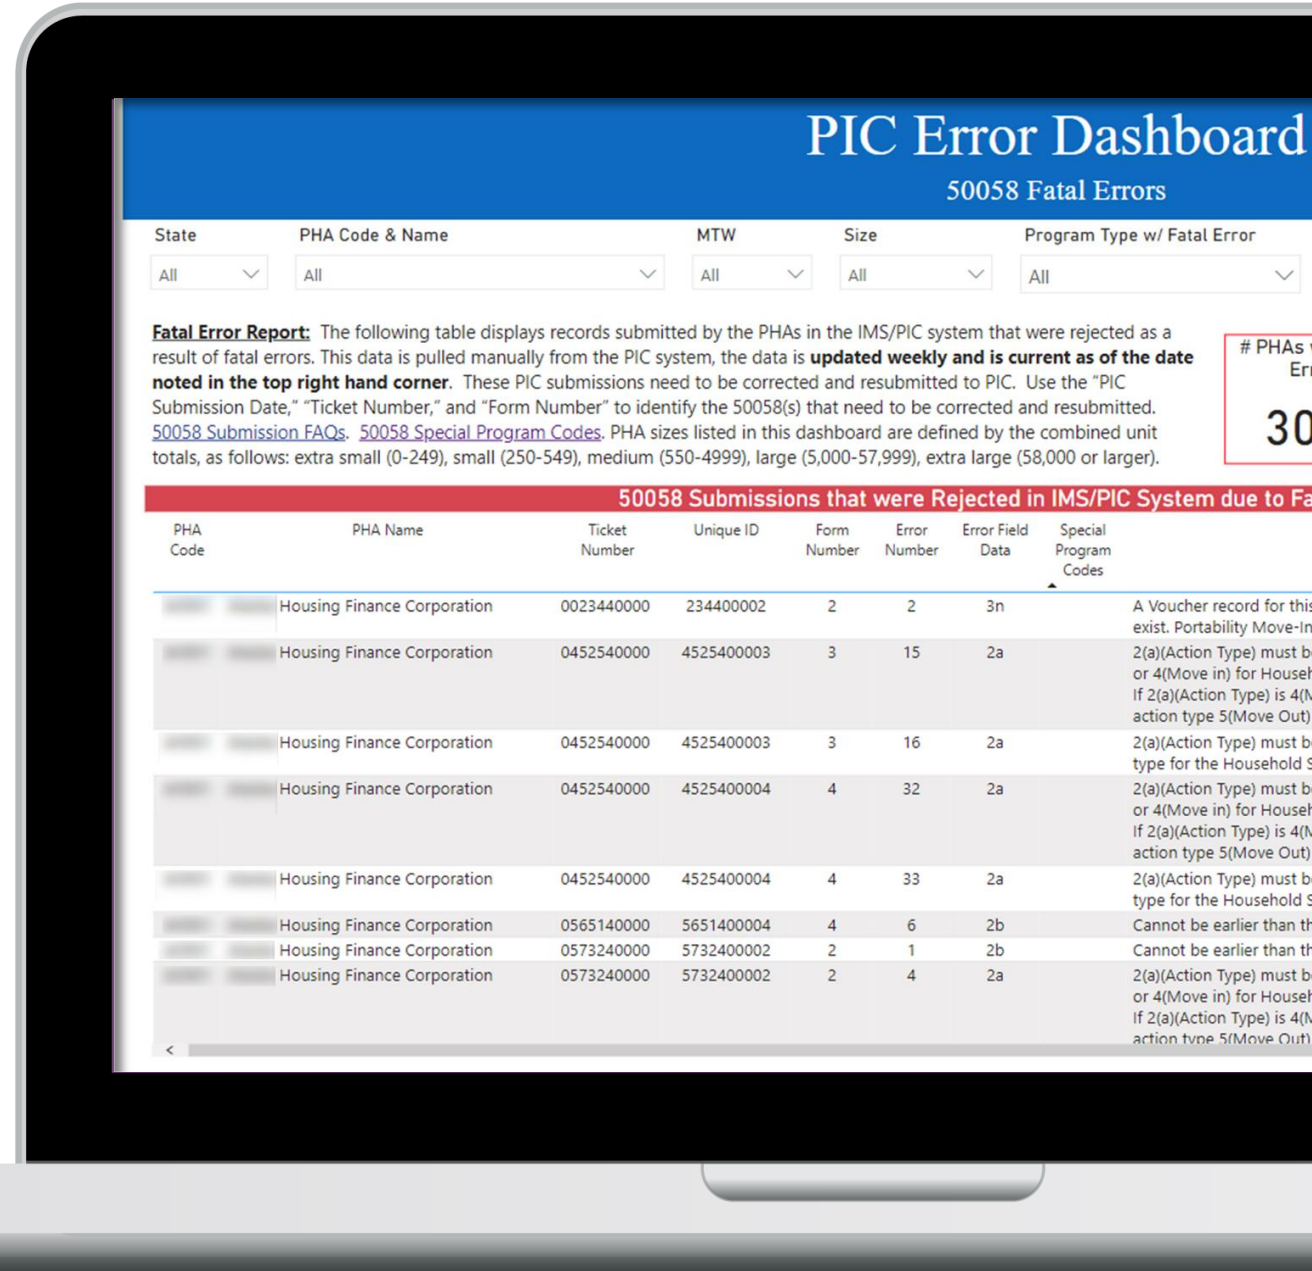

Sun	Mon	Tue	Wed	Thu	Fri	Sat
					1	2
PHA Deadlines					Begin 50058 submissions to PIC and/or HIP	
HUD Deadlines						
3	4	5	6	7	8	9
10	11	12	13	14	15	16
					Complete 50058 submissions and corrections	
17	18	19	20	21	22	23
	Check dashboard to verify corrections	Complete all 50058 submissions	50058 data sent to eVMS at EOD	eVMS locked down; calculations completed		
24	25	26	27	28	29	30
NOTE: Any updates to 50058s after the 19 <sup>th</sup> will be updated in eVMS after the 21 <sup>st</sup> .						

# PIC Error Dashboard

HUD developed the PIC Error Dashboard to provide PHAs with an updated view of current PIC errors and a snapshot of performance.

Use the dashboard to determine your PHA's current errors. Once corrected in the system of record, check the dashboard regularly (see updated date on the dashboard) to ensure the errors were corrected and accepted in PIC.

To access, [visit HUD's website](#). Check HUD Exchange to view current training materials.

# Additional Resources

# Additional Resources

In addition to this webinar, the following resources will be available on HUD Exchange ([www.hudexchange.info](http://www.hudexchange.info)):

- **eVMS Guidebook** that provides step-by-step instructions for using eVMS (also provided with this webinar).
- **Introduction to the PIC Error Dashboard Webinar and the PIC Error Correction Guidebook.**
- **Videos and handouts** about correcting the most common PIC errors and correction walkthroughs.
- **eVMS webinars** reviewing the software in-depth as well as best practices for implementation (coming soon).

Access the [PIC/IMS User Manuals](#) to review comprehensive instruction on IMS/PIC sub-modules.

# Additional Resources

- For 50058 PIC/HIP submission assistance, contact your local [PIC Coach](#).
  - HUD is offering technical assistance (TA) for PHAs needing additional 50058 submission assistance. This can be set up through your local PIC Coach.
- eVMS calculation assistance can be provided by your FMC Financial Analyst.

Access the [PIC/IMS User Manuals](#) to review comprehensive instruction on IMS/PIC sub-modules.

# HUD Acknowledgment of Support
