OVERVIEW

Eligible state and local governments receive annual block grants for community development and affordable housing from the U.S. Department of Housing and Urban Development (HUD). These grants include the Community Development Block Grant (CDBG), the HOME Investment Partnerships Program (HOME), the Emergency Solutions Grant (ESG), and the Housing Opportunities for Persons with AIDS Grant (HOPWA). A key feature of these grants is the grantee's ability to choose how the funds will be used. For each program, HUD describes a broad range of eligible activities. The state or local governments determine which of the eligible activities will best serve the needs of their community. In order to determine the most pressing needs and develop effective, place-based market-driven strategies to meet those needs, HUD requires grantees to develop a Consolidated Plan.

When developing a Consolidated Plan, a grantee must first analyze the needs within its jurisdiction and then propose strategies to meet those needs. The Consolidated Plan Template is designed to help grantees with this process. First, the Needs Assessment and Market Analysis outline levels of relative need in the areas of affordable housing, homelessness, special needs, and community development. This information is gathered through a number of methods, including consultation with local agencies, public outreach, a review of demographic and economic data sets, and a housing market analysis. Once finished, the needs assessment portion of the Consolidated Plan forms the basis of the Strategic Plan. The Strategic Plan details how the grantee will address its **priority needs**. The strategies must reflect the current condition of the market, expected availability of funds, and local capacity to administer the plan.

In May 2012, HUD's Office of Community Planning and Development (CPD) introduced the eCon Planning Suite, a collection of new online tools to help grantees create market-driven, leveraged housing and community development plans. These tools are designed to help grantees with the needs analysis and strategic decision making required for the Consolidated Plan.

One of these tools, the Consolidated Plan Template is now required for all Consolidated Plans. Grantees scheduled to submit a Consolidated Plan to HUD will use the template for the Consolidated Plan, Year 1 Action Plan and all subsequent Annual Action Plans.

The Consolidated Plan Template provides a number of benefits to grantees, including:

- A uniform, web-based format to help grantees ensure their Consolidated Plan includes all the required elements per the regulations. The template also includes a Quality Check that grantees can use to review the plan for missing information and discrepancies before submitting the final version to HUD.
- With the incorporation of the Consolidated Plan and Annual Action Plan into IDIS Online, all of the key reporting elements of the grants management cycle are integrated into one system. This will help ensure cohesiveness between the goals described in the Consolidated Plan and Action Plan and the outcomes tracked in IDIS and reported in the Consolidated Annual Performance and Evaluation Report (CAPER), making the Consolidated Plan a useful management tool.

- Many of the data tables within the Consolidated Plan Template are pre-populated with the latest housing and economic data. The data is provided to help grantees develop their funding priorities in the Strategic Plan and to save time in searching for and compiling the data.
- The Consolidated Plan Template is integrated with the CPD Maps tool. The maps and data sets available in CPD Maps can help grantees assess market conditions and present the information in a compelling fashion. CPD Maps is publicly available to ensure that community stakeholders will also have access to the same data sets. The Consolidated Plan Template allows grantees to easily insert maps and data tables from CPD Maps throughout the document.

This manual includes the following sections to provide instruction on how to use the Consolidated Plan Template in IDIS Online:

INTEGRATION INTO IDIS ONLINE

With the incorporation of the Consolidated Plan, Annual Action Plan, and CAPER into IDIS Online, all of the key reporting elements of the grants are integrated into one system. This will help ensure cohesiveness between the goals described in the Consolidated Plan and Action Plan and the outcomes tracked in IDIS and reported in the Consolidated Annual Performance and Evaluation Report (CAPER). The reports in IDIS Online can be run throughout the program year to monitor progress and performance against the goals established in the Consolidated Plan and Annual Action Plan.

To access IDIS Online, a grantee must have an active IDIS Online User ID. To add new users, grantees should follow the instructions on the IDIS Log On page:

<http://www.hud.gov/offices/cpd/systems/idis/obtainaccount.cfm>

Before a grantee user can add or edit a Consolidated Plan or Action Plan, the local IDIS Administrator for the grantee must edit the user's profile to provide that functionality¹. Local administrators can use these steps to edit a user's profile to provide access to the Consolidated Plan, Action Plan, and CAPER templates:

1. Click on Admin in the Main Menu bar (only local administrators will see this option).
2. By default, the system will display the Search User Profiles screen. Use the fields provided, such as User ID or First Name and Last Name to search for the user profile that needs to be revised, then click Search.

¹ All grantees have a local administrator. To determine who has local administrator privileges, run the Security Administrator User Profile Report (PR30). The grantee's local HUD field office can also update a user's privileges.

3. In the listed results, click on the Edit link for the user profile that needs to be revised.
4. The system will display the screen entitled "Edit User Profile (Page 1)." Click on the link labeled Grantee listed under Existing User Roles (see screenshot below).

NEW FORMAT

Prior to the Consolidated Plan Template, HUD did not require a specific format for the Consolidated Plan other than the required tables. The regulations indicate that a complete plan consists of information submitted in accordance with instructions prescribed by HUD or in such other format as jointly agreed upon by HUD and the jurisdiction.

The Consolidated Plan Template in IDIS Online provides a uniform and flexible template that helps ensure the Consolidated Plan is complete per the regulations found in 24 CFR Part 91. The template is divided into seven sections:

1. [Setup](#)
2. [Executive Summary](#)
3. [The Process](#)
4. [Needs Assessment](#)
5. [Market Analysis](#)
6. [Strategic Plan](#)
7. [First-Year Action Plan](#)

Each screen in the template includes a combination of data tables and narrative sections that set a baseline for HUD's expectations for the amount of information required. Grantees have the option of adding additional content, in the form of maps, pictures, text boxes, and tables, to support the baseline information. This allows grantees to customize the plan and add elements to tell a more compelling story.

REQUIRED VS. SUGGESTED FIELDS

Some fields within the template must be answered before the system will allow the user to save the page. In the system and throughout the manual, these fields are marked with an asterisk (*). It is important to note, however, that there are fields that are designed to capture information explicitly required by the Consolidated Plan regulations at 24 CFR Part 91. These fields are marked with an exclamation point (!) within the manual.

*!	Field	Description
	Introduction	Use the Introduction to explain the purpose of the Consolidated Plan and Action Plan.
!	Summarize the objectives and outcomes identified in the Plan.	Use this field to discuss the proposed objectives and outcomes of the plan in general.

In the example above, neither field is marked with an asterisk, meaning the user can save the page

without providing an answer to either field. The second field is marked with an exclamation point, inferring that this information is explicitly called for in the regulation and should be entered before submitting the final version of the plan to HUD. Please note that the regulatory requirements are dependent on the type of grantee and the grants covered by the plan. In cases where the field may be required for some grantees but not others, refer to the Description field to see if it applies.

There are several optional fields included to help the grantee create a better overall narrative structure and to make the plan more readable. For example, several screens have narrative fields labeled “Introduction” and “Discussion.” Other fields, while not required specifically by regulation, are included to help the grantee analyze the data presented.

While there is not always a direct correlation between each field and the regulatory requirements, each screen within the template cites the specific section(s) of the regulations that the screen is designed to capture. The regulatory citation for each screen is also included throughout this manual. When determining what fields to answer and the degree of information required, it is highly recommended that grantees refer to the cited regulation for guidance.

Consolidated Plans

PR-10 Consultation - 91.110, 91.300(b); 91.315(l)

In summary, there may be narrative fields that the grantee does not find useful and can leave blank (please be aware that some blank fields may trigger a warning or error on the Quality Check). **The key point is to ensure that the information submitted via the template fulfills all of the requirements per 24 CFR Part 91.**

The citation requirements for each screen for state and entitlement grantees are listed below:

NARRATIVE FIELDS

As the grantee fills a text box with narrative, a vertical scroll bar will appear on the right. The narrative field will expand dynamically as data is entered. The limit on the amount of text is 4,000 characters per field. Please note that this character limit includes white spaces, formatting marks such as new paragraphs, and other hidden characters. For example, the following text “The **quick** brown fox” contains 16 visible characters, but also contains 3 white space characters and additional hidden characters related to the bold and underline formatting. To input additional narrative beyond 4,000 characters, add another [text box](#). The screenshot below shows the features of narrative fields in the template.

Narrative Example

Type	Sequence	Label	Action
Text	1	Objectives and Outcomes	View Edit Delete

[Add GIS Map](#) | [Add GIS Data](#) | [Add JPEG](#) | [Add Text](#) | [Add Table](#)

Above each narrative box, the system provides formatting options, including bold, italics, underline, bullet pointed lists, and numbered lists. Each formatting tool is explained below.

Tools	Description
	Bold Italics Underline
	Bullet List Numbered List
	Undo Redo
	Paste as Plain Text. If this tool is toggled on, any text pasted into the narrative box will be stripped of all formatting. Paste from Word. This tool will allow the pasted text to retain limited formatting, including Bold, Italics, Underline, and simple numbered and bulleted lists. Paste from Word will not retain more complex formatting, such as tables and indentation.
	Select All. This tool selects all of the text currently entered in the narrative box.

Tools	Description
	Show/Hide Visual Control Characters. This tool is used to toggle the display of hidden formatting, such as paragraph marks (not currently functional).
	Edit HTML Source. This tool opens a dialog box where users can edit the HTML Code to format the text of the narrative box.

DRAFTING THE NARRATIVE IN MICROSOFT WORD

Some grantees may find it easier to draft the narrative portions of the plan by downloading a copy of the plan template into Microsoft Word. By doing so, staff who do not have access to IDIS Online can help draft the narrative and there is less of a chance of losing updates due to system time-outs or errors. Note that some screens have dynamic tables that must be built in IDIS, so not all content can be drafted in Microsoft Word and pasted into the template in IDIS.

To download the template as a Word document, click on  near the top of the Menu screen.

Consolidated Plans

Menu

Public reporting burden for this collection of information is estimated to average 210 hours per response including the time for reviewing instructions, searching existing data sources, gathering and maintaining information. This agency may not conduct or sponsor, and a person is not required to respond to, a number.

OMB Control No: 2506-0117 (exp. 07/31/2015)

In the resulting dialog box, select the portion of the plan to download and click the Submit button. Once the system is finished generating the download, click the [Download Document](#) link and save or open the Word file.

Once the narrative is ready to be copied into IDIS, the information will need to be copied separately into each narrative field. To copy back into IDIS, use the Paste as Plain Text or Paste as Word tools described above. Using Plain Text will remove all formatting from the text while Paste as Word retains limited formatting.

Please note that this technique will work for all of the narrative fields, but some sections of the plan have dynamic tables where this will not work.

DATA TABLES

When a grantee adds a new Consolidated Plan to the system, the system will automatically populate most of the tables with default data from the U.S. Census and other sources. The data tables in the Consolidated Plan Template are designed to help grantees analyze and compare the level and type of need in their communities. The default data provides several different cross-sections of the level of need experienced by different household types and income ranges as required by described in the regulation, including:

- Number and Types of Households
- Types and Severity of Housing Problems
- Disproportionately Greater Need by Race and Ethnicity

The default data is based on the grantee's program boundaries depending on the plan type (entitlement, state, consortia or regional plan) and the grant programs administered². A table indicating the default geographies used as the basis for each pre-populated data screen is provided in Appendix C. CPD Maps provides most of the same data at multiple geographic levels³. This allows grantees to compare the data based on geographic area. For example, a grantee may want to know how the vacancy rate in one neighborhood compares to that of another neighborhood or to the overall jurisdiction. CPD Maps makes these types of comparisons straightforward.

Grantees are not required to use the default data provided by the system. Default data can be replaced or complemented by specifying a [survey](#) or [administrative](#) data source. If an alternative source is specified, the user will be asked to identify the source and provide basic information on how the data was collected.

The user also has the option of providing notes under each table in which alternate data is used to indicate what was changed or why the change was necessary. In the example below, the grantee manually updated the table based on more current data from the U.S. Census. Because the public can view much of the default data in CPD Maps, these notes may be useful to avoid confusion during the citizen participation process.

² The default public housing data is based on the public housing agencies selected on AD-25. Grantees must consult with each public housing agency to verify that the data provided reflects the needs of public housing within the grantee's jurisdiction.

³ Some data, such as public housing data and disproportionate need, are not available in CPD Maps.

ADDITIONAL CONTENT

Grantees have the option of adding additional content in the form of maps, pictures, text boxes, and tables, to support the baseline information. This allows grantees to customize the plan to tell a more compelling story and helps the template meet the differing needs of various grantees. At the bottom of the narrative sections and the data tables, the system provides links that grantees can use to insert additional content.

Grantees can add multiple elements in each of the narrative sections or data tables that have these links. Once a new element is added, grantees can use the links in the Action column to view, edit, or delete elements. Grantees can also edit the order in which the additional content will display, as well as the labels used for each element. To do this, click on the <Sequence> or <Label> link.

ADD GIS MAP

The Consolidated Plan Template can pull in maps directly from CPD Maps. While not required, maps are an effective method of communicating geographic data. Maps can easily illustrate the boundaries of target areas and areas of geographic priority where narrative cannot. Maps are also effective at satisfying the Consolidated Plan requirements to describe areas of low-income concentration and areas of minority concentration. If grantees use their own GIS mapping tool to create maps, these maps can be added to the plan using the Add Image feature described in the next section.

Take the following steps to add a map to the template:

1. Click on the <Add GIS Map> link. A new browser window will open to display the GIS mapping tool. The tool should automatically zoom to the grantee's boundaries.
2. Use the Map Selection tools to create the grantee's desired map.
3. To send the map back to IDIS Online, click on the Print widget:
 - a. Provide a title for the map. The title will appear as the caption for the map in the printed version of the plan. Please note that the subtitle provided in CPD Maps will not export to the IDIS template.
 - b. Click on the <Export to IDIS> button. A popup box will appear that reads "Map & Legend image successfully exported to IDIS." Click <Ok> to close the box.
4. Back in IDIS, click the <Save> or the <Save and Return> button to save the changes. The map will now be listed under the selected narrative or data table. To view the map, click on the <View> link.
5. The browser window that CPD Maps opened in can be closed. A new browser window will open each time the <Add GIS Map> link is clicked.

ADD GIS DATA

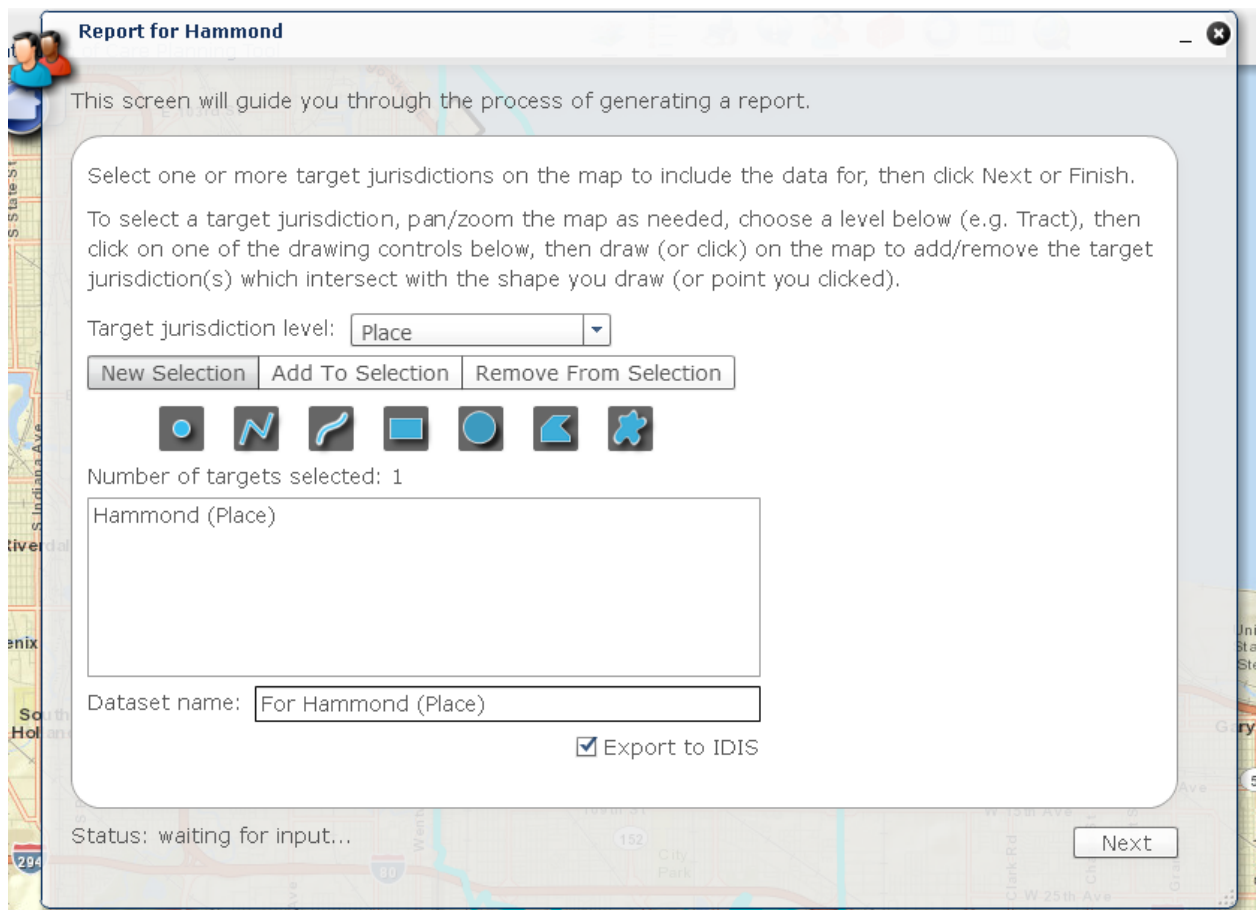

The Consolidated Plan Template has the ability to pull in data tables from CPD Maps. Many of the data tables in CPD Maps align with the default data tables in the Consolidated Plan Template. Adding the same data tables at different geographic levels can highlight differences in need between the grantee's

jurisdiction and the county, or between a group of census tracts serving as a target area and the jurisdiction as a whole, for example.

To add a GIS data table to the template, take the following steps:

1. Click on the <Add GIS Data> link. A new browser window will open to display CPD Maps. The tool should automatically zoom to the grantee's boundaries.
2. Click the Reports widget  to open it.
3. Use the tools provided in the dialog box to select one or more target geographies. After selecting the geographies, change the Dataset name. The Dataset name will be used as the default label in IDIS. Ensure that the "Export to IDIS" box is checked and click <Next>.

- Select the data table to insert by choosing a Category, Table Group, and Table. The system provides the following options:

5. Click the <Finish> button. A popup box will appear that reads “Report successfully exported to IDIS.” Click <Ok> to close the box.
6. Back in IDIS, click the <Save> or <Save and Return> button to save the changes. The data table will now be listed under the selected section of the plan. To view the data table, click on the <View> link.
7. The browser window that CPD Maps opened in can be closed. A new browser window will open each time the <Add GIS Data> link is clicked.

ADD .JPEG (IMAGES)

The Add Image feature can be used to add .jpeg formatted images, including photos, charts, maps, and graphs. Photos can be used to highlight past projects and current conditions of target properties and areas. For example, grantees can include before and after pictures of housing or commercial rehabilitation projects. If a grantee uses its own mapping software, this feature can be used to import maps generated by that software as an image. The Add Image feature can also be used to add charts and graphs to visually convey the information in the data tables. For each image, the grantee can provide a caption to identify and describe the image. The caption will be included in the printed report, centered and in boldface above the image.

To add a .jpeg to the template:

1. Click the <Save> button to save any changes to the page before adding the .jpeg.
2. Click on the <Add JPEG> link. A new browser window will open.
3. Provide a label in the Label field. This label will display below the image in the printed version of the template.
4. Click on the <Choose File> button. In the resulting box, locate the desired .jpeg file and click the <Open> button.
5. Click the <Save> button in the dialog box to close it and click <Save> on the IDIS screen to save the change.

To create a .jpeg of a chart or graph from Excel:

1. Right-click on the chart in Excel and select Copy. Alternatively, click the Print Screen button on the keyboard (this key may function differently on different computers).
2. Open an image editing software, such as Microsoft Paint.
3. Right-click on the canvas and select Paste or open the screen shot taken in Step 1.
4. Crop the image, if necessary.
5. Select File-Save As from the Main Menu and save the image as a .jpeg file.
6. Once the .jpeg file is saved to the computer, follow the steps above to insert the image into the template.

To create a jpeg of a chart, graph, or slide from PowerPoint:

1. Navigate to the desired slide.
2. Go to File-Save As and select .jpeg.

ADD TEXT

In the printed version of the template, the text entered in the narrative field will always appear at the beginning of each section, followed by the additional content provided by the grantee. The Add Text feature allows the grantee to add a text box after a map or data table as opposed to putting all of the narrative in the beginning of the section.

To add a text box to the template:

1. Click the <Save> button to save any changes to the page before adding the text box.
2. Click on the <Add Text> link. A new browser window will open.

3. Provide a label in the Label field. This label will display below the text box in the printed version of the template.
4. Input the additional text in the narrative field provided. The narrative field has the same character limit (4,000 characters) and formatting tools as the standard narrative fields (for more information, refer to the [Narrative Fields](#) section above).
5. Click the <Save> button in the dialog box to close it and click <Save> on the IDIS screen to save the change.

ADD TABLE

The Add Data Table feature allows the grantee to add a simple data table to the report. This feature is useful if the grantee wants to provide supplemental tables to the existing, pre-formatted tables. Users are not able to format the table. To insert a formatted table into the template, save the table as a jpeg and insert the table using the <Add JPEG> link [described above](#).

To add a data table, take the following steps:

1. Click on the <Add Table> link.
2. Provide a label in the Label field. This label will display below the table in the printed version of the template.
3. Input data in each cell needed for the table. While the data entry fields appear small on the screen, each field can accommodate several lines of text. In the printed version of the table, each cell will expand to show all of the text entered. Any rows or columns that are left completely blank will not appear in the printed version. The first row of data will be treated as column headers and appear in bold.
4. Click the <Save> button in the dialog box to close it and click <Save> on the IDIS screen to save the change.

QUALITY CHECK

The template includes a Quality Check that grantees can use to review the plan for missing information and discrepancies before submitting the final version to HUD. The check will generate a list of errors and warnings where information is missing in the template. These omissions may indicate that a requirement has not been met, which could potentially cause the HUD Field Office to not accept the plan submission as complete. For example, if any of the narrative fields on the Executive Summary screen are left blank or if all priority needs are not linked with goals in the Strategic Plan, the Quality Check will issue a warning.

However, plans can be submitted even if the Quality Check warnings are not cleared. The warnings are in place to help grantees determine if their plan is complete. If a user believes the plan meets all Consolidated Plan requirements, they can ignore the Quality Check warning and submit the plan to HUD in its current state.

For a list of all warnings and errors that may appear on the Quality Check, please refer to [Appendix A](#).

REGIONAL STRATEGY PLAN OPTION

The new template allows contiguous grantees to join efforts to create a regional strategy. This option allows multiple grantees to submit one Needs Assessment, Market Analysis, and Strategic Plan to HUD.

Once a group of grantees decide to pursue a Regional Strategy, one of the grantees must be designated as the lead grantee. The lead grantee does not indicate any special authority. It simply designates which grantee will be responsible for creating and submitting the regional plan.

With the exception of the Annual Action Plan screens, the lead grantee and all of the participating grantee users can edit the plan with the same privileges. The Annual Action Plan screens in the regional template apply only to the lead grantee. Other grantees participating in the regional strategy create a separate Action Plan and link their annual plan to the regional Consolidated Plan.

REGIONAL STRATEGY – LEAD GRANTEE

- The lead grantee is responsible for creating the shared Regional Consolidated Plan.
- The lead grantee is responsible for submitting electronically the shared Regional Consolidated Plan to HUD.
- The lead grantee is uses the Annual Action Plan screens included in the Regional Plan.

REGIONAL STRATEGY – PARTICIPATING GRANTEE

- Participating grantees must wait until the lead grantee creates the Regional Consolidated Plan.
- Once the lead grantee creates the Regional Consolidated Plan, participating grantees [can edit](#) any portion of the shared Consolidated Plan.
- To prepare the Action Plan, each participating grantee will [Add a New Action Plan](#) and link the Action Plan to the Regional Strategy Consolidated Plan.

SECTION II: THE CONSOLIDATED PLANNING PROCESS

The Consolidated Plan is part of a larger grants management and planning process that can be divided into six phases⁴: (1) determining needs, (2) setting priorities, (3) determining resources, (4) setting goals, (5) administering the programs, and (6) evaluating performance. The Consolidated Plan incorporates the first four phases. The fifth phase, administering the programs, encompasses all of the actions a grantee undertakes throughout a given program year. The final phase, evaluating performance, is documented in the annual report submitted to HUD, the Consolidated Annual Performance and Evaluation Report (CAPER). The result of each phase serves as the basis for what occurs in the next phase. For example, the needs described in the first phase should influence priority-setting in the second phase. The Consolidated Plan should clearly explain the relationships among needs, priorities, resources, goals, and proposed activities.

Citizen participation and consultation are incorporated throughout each phase. One of the main objectives of the citizen participation and consultation requirements is to ensure that input from a wide range of providers, citizens, advocacy groups, public and private agencies and community leaders is

⁴ The six phases described here are only a model of how each task in the grants management cycle relates to one another and is part of a larger, cohesive process. In practice, program managers do not necessarily carry out one phase at a time or at a specific time of the year. Many programs incorporate elements such as program evaluation and program design throughout the entire grants management process.

incorporated into both the development and implementation of the Consolidated Plan. A Consolidated Plan which has received “buy-in” from the community during its formulation is more likely to be successful.

DETERMINING NEEDS

The first step in the grants management process is to determine the varying needs within the community in the areas of affordable housing, community development, and homelessness. The Consolidated Plan regulations ([24 CFR Part 91](#)) explicitly list the requirements of the Needs Assessment and Market Analysis. The regulations also require CDBG grantees to provide a concise summary of the jurisdiction's priority non-housing community development needs.

The overall purpose of this phase is to scan the universe of needs and identify high priority needs that will be addressed by the strategic plan. Keep this end goal in mind throughout the process to create a strong link between the needs assessment and the strategic plan.

The Consolidated Plan Template in IDIS Online will assist grantees in providing the required level of information. The template is also designed to help grantees in their strategic decision making process. In the Strategic Plan, grantees are required to set general priorities for allocating funds among different activities and needs. The Needs Assessment and Market Analysis sections of the template presents information in a format that allows grantees to make comparisons between types and levels of need to support the decisions they make in their Strategic Plan.

In addition, the Needs Assessment and Market Analysis should form a large basis for determining what types of housing and community development programs the grantee will fund. The Market Analysis should demonstrate that the proposed strategies are feasible and have a high likelihood of success. For example, if the data shows that the market for owner-occupied units is soft due to large number of unsold units, the grantee may want to develop a down payment assistance program that takes advantage of lower market prices. On the other hand, the grantee would not want to fund new construction of for-sale units that run the risk of remaining vacant.

While citizen participation is incorporated throughout the entire planning process, it can play a key role in determining needs. An assessment that includes first-hand information from potential beneficiaries of funded activities can better gauge the level of need at the individual level and can help identify potential obstacles in program implementation. Consultations are valuable at this stage to determine what activities other organizations are already carrying out and to determine potential collaborations. Based on consultations and citizen participation, grantees can identify programs that are adequately meeting a need and choose to supplement and expand upon successful programs.

SETTING PRIORITIES

The second step in the grants management process is to determine priorities. The level of need in a community will always be greater than the limited resources available to meet the need. Accordingly, the first step of the Strategic Plan is to identify the grantee's **priority needs**. Priority needs are the needs that will be addressed by the goals outlined in the Strategic Plan. This section should make clear the

rationale for establishing the allocation priorities. The rationale should flow logically from the analysis in the Needs Assessment and Market Analysis. The housing strategy must indicate how the characteristics of the housing market have influenced grantee decisions to use funds for rental assistance, production of new units, rehabilitation of old units, and the acquisition of existing units.

Before the Consolidated Plan Template, grantees used HUD-prescribed tables to indicate priorities. For example, Table 2A Priority Housing Needs allowed grantees to indicate priority by tenure, household type, and income level. Table 2B Community Development Needs allowed CDBG grantees to indicate priority among eligible CDBG activities.

In the Consolidated Plan Template, grantees must still set general priorities among different activities and needs, but the format is much less structured than the previously prescribed tables. Grantees can determine the number of priority needs to add. For each priority need, they can indicate one or more populations to be served according to income, family type, homeless population, and special need.

Grantees also have the option of setting funding priorities on a geographic basis. This approach can be used to communicate the needs of a target area for a comprehensive, place-based strategy that coordinates the efforts and resources of the grantee and other stakeholders in the target area. Geographic priorities can also be used to describe target areas for a specific need. For example, the grantee may determine that the properties along an older commercial corridor have a higher level of need than other areas of the jurisdiction. The grantee can clearly convey this priority using the Geographic Priorities screen.

Data-Driven Planning Tool: Grantees may use the Data-Driven Planning Tool widget in CPD Maps to help determine needs and set priorities for their jurisdictions. The Tool enables grantees to compare housing, demographic, and economic data across neighborhoods, jurisdictions, regions, states or other geographies to analyze needs data in a broader context. Instructions for using the Data-Driven Planning Tool are included in the CPD Maps Desk Guide available at:

http://www.hud.gov/offices/cpd/about/conplan/pdf/cpdmaps_deskguide.pdf

DETERMINING RESOURCES

Before adding the goals in the Consolidated Plan Template, the grantee should complete the Anticipated Resources and Institutional Delivery Structure screens to identify the financial and organizational resources available to address its priority needs. The level of resources available will play a key role in determining strategies and goals. Grantees should consider all resources within the jurisdiction's control that can be reasonably expected to be available, including federal, state, and local resources. Federal resources could include Section 8 funds made available in the jurisdiction, Low-Income Housing Tax Credits, and competitive McKinney-Vento Homeless Assistance Act funds expected to be available to address priority needs and specific objectives identified in the Strategic Plan.

SETTING GOALS

Once priorities have been established, grantees must develop a set of goals based on the availability of resources, and local organizational capacity.

The goals should specifically address the priority needs outlined on the Priority Needs screen. The goals will serve as a management tool to help the grantee track and monitor performance throughout the term of the Consolidated Plan. In order for goals to be effective management tools, they must be well-defined. The table below outlines five characteristics that effective goals have in common.

Five Characteristics of Effective Goals	
Specific	Provide enough detail to establish what the grantee wants to accomplish. Specific goals are more easily measured than vague goals.
Measurable	Use a numeric goal. For the Consolidated Plan, each goal can include a number of Goal Outcome Indicators.
Action-Oriented	Explain what actions must be taken in order to achieve the goal. For Action Plan projects, the template includes a section for planned activities.
Realistic	Understand the limitations of the situation, including those set by available resources, capacity, and political will.
Time-Bound	Establish a deadline. For the Consolidated Plan, each goal includes a start date and an end date.

Much like the priorities, the Consolidated Plan Template provides a great deal of flexibility in establishing goals, allowing the grantee to determine the number of goals and how the goals are defined. On the other hand, the template requires the goals set in each Action Plan to parallel the goals designated in the Consolidated Plan.

The Consolidated Plan Template introduces twenty-two Goal Outcome Indicators (GOI) that are based on the Performance Measurement Indicators already in IDIS Online. For each goal, grantees can set a numeric target for one or more of the Goal Outcome Indicators. For a description of each Goal Outcome Indicator, please refer to [Appendix B](#).

	Goal Outcome Indicator	Unit of Measure
1	Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit	Persons Assisted
2	Public Facility or Infrastructure Activities for Low/Moderate Income Housing Benefit	Households Assisted

ADMINISTERING THE PROGRAMS

The fifth phase, program delivery, encompasses all of the actions a grantee undertakes throughout a given program year. Each year, the grantee will describe the work it plans to undertake with the grant funds on the Projects page of the Action Plan. Each project must address at least one goal described in the Consolidated Plan's Strategic Plan. The project information provided in the Annual Action Plan Template will carry forward into the other sections of IDIS Online. Grantees will still be required to add activity-level data into IDIS Online.

EVALUATING PERFORMANCE

Tracking progress throughout the program year can help grantees identify and address issues that if otherwise left alone could lead to difficulty satisfying commitment and expenditure requirements. Grantees can use the Reports feature of IDIS Online to monitor and assess the number of accomplishments reported during the program year to determine if each funded activity is producing the expected results.

Within 90 days after the end of its program year, a grantee must submit a Consolidated Annual Performance and Evaluation Report (CAPER) to HUD. The primary purpose of the CAPER is to report on accomplishments of funded activities within the program year and to evaluate the grantee's progress in meeting one-year goals described in the Annual Action Plan and long-term goals described in the Consolidated Plan. As of May 2012, the CAPER is integrated into IDIS Online. With the Consolidated Plan, Action Plan, IDIS, and CAPER all part of the same system, it will be easier for grantees to compare goals described in the Consolidated and Action Plan, the outcomes tracked in IDIS and reported in the CAPER.

The CAPER also provides grantees an opportunity to evaluate the effectiveness of their programs. The evaluation should identify programs and projects that performed well and those that experienced issues. This final step in the grants management cycle provides insights and lessons learned that can be used in the next cycle to improve program performance.

SUMMARY

The six phase model describes how each task in the grants management cycle relates to one another and is part of a larger, cohesive process. Likewise, the sections of the Consolidated Plan should fit together into one unified narrative:

- The Needs Assessment and Market Analysis provide an overall picture of the different levels of need in the community and the market in which the funded programs will be carried out.
- The rationale for setting priorities in the Strategic Plan should flow logically from the Needs Assessment and Market Analysis.
- The goals in the Consolidated Plan and the Annual Action Plan should clearly describe the grantee's plans to use the resources available to address the priority needs.

The projects in the Annual Action Plan should be designed to address the goals and priority needs outlined in the Consolidated Plan.

SECTION III: THE CONSOLIDATED PLAN TEMPLATE

The Consolidated Plan Template is designed to collect the information required by the regulations found in [24 CFR Part 91](#). The template will vary based on the CPD grants received (CDBG, HOME, ESG, and HOPWA) and grantee type (entitlement, state, or consortia). For consortia grantees and grantees who opt to create a regional strategy, the template will vary based on whether the user is the lead grantee or a participating grantee.

CONSORTIA PLANS

Consortia plans must be added by the Consortia's lead grantee. When adding the plan, the lead grantee specifies the other participating grantees who receive CDBG, ESG, or HOPWA directly from HUD. Participating grantees are Consortia participants that are also grantees under one or more of the other Consolidated Plan grant programs (CDBG, ESG or HOPWA). Once the plan is saved, the system will create a Consolidated Plan Template for the lead grantee and an additional template for each participating grantee based on the grants they receive. All of the templates will have the same value in the 'version' field. All of the templates will also have the same title, except that the titles for each of the participating grantees will be appended with the name of the grantee, as illustrated in the screenshot below.

The 'Lead Grantee' version of the plan will contain the housing-related screens that apply to the consortia as a whole. This includes all screens in the Process section, Needs Assessment and Market Analysis except for the Non-Housing Community Development Needs screens, and the Strategic Plan⁵. While only the lead grantee can set up the plan, both lead grantee users and participating grantee users can edit the 'Lead Grantee' version of the plan for the consortia as a whole. Users for the lead grantee have view-only privilege for the 'Participating Grantee' versions.

⁵ [NA-50](#) and [MA-45](#) screen only needs to be completed if the lead grantee also receives CDBG, in which case the data will only apply to the lead grantee and only the lead grantee will be able to view and edit these screens.

Each participating grantee that receives from directly from HUD will have their separate plan. The screens that appear on the 'Participating Grantee' version of the plan are determined by the grants that the participating grantee receives directly from HUD (i.e. CDBG, ESG). Housing-related screens in the Needs Assessment and Market Analysis will only appear in the template assigned to the lead grantee. Participating grantees are expected to contribute their housing information in the housing screens on the lead grantee's template.

Participating Grantees of a HOME Consortia who receive CDBG will see the following screens in their version of the template:

- [NA-50 Non-Housing Community Development Needs](#)
- [MA-45 Non-Housing Community Development Assets](#)

Participating Grantees of a HOME Consortia who receive ESG will see the following screens in their version of the template:

- [NA-40 Homeless Needs](#)
- [MA-30 Homeless Facilities](#)
- [SP-60 Homelessness Strategy](#)
- [AP-65 Homeless and Other Special Needs Activities](#)

Only the lead grantee can submit the plan. The submitted plan includes the 'Lead Grantee' version for the consortia as a whole and each 'Participating Grantee' version. Similarly, when the plan is printed, the 'Lead Grantee' version will print first, followed by the sections for each 'Participating Grantee'.

REGIONAL STRATEGY PLANS

The new template allows contiguous grantees to join efforts to create a regional strategy. This option allows multiple grantees to submit one Needs Assessment, Market Analysis, and Strategic Plan to HUD.

Once a group of grantees decide to pursue a Regional Strategy, one of the grantees must be designated as the lead grantee. The lead grantee does not indicate any special authority. It simply designates which grantee will be responsible for creating and submitting the regional plan.

With the exception of the Annual Action Plan screens, the lead grantee and all of the participating grantee users can edit the plan with the same privileges. The Annual Action Plan screens in the regional template apply only to the lead grantee. Other grantees participating in the regional strategy create a separate Action Plan and link their Annual Plan to the regional Consolidated Plan.

OVERVIEW : ADDING AND SUBMITTING A PLAN

1. Add the plan to the system by completing the [Administration screen](#) (detailed steps are included below). Saving the Administration screen saves the Consolidated Plan to the system. The system will insert default data sets into the data entry screens and provide users with Edit privileges to access these screens
2. Add additional data sources, including survey and administrative data. If they have the information, grantees can choose to complete this step when completing the [Administration screen](#). Otherwise, the user can cite the alternative data source while completing the tables on any of the data entry screens.
3. Complete each of the screen listed in the Consolidated Plan Menu. After completing each screen, the user will be returned to the Consolidated Plan Menu. While screens do not need to be completed in the order in which they are listed, some screens rely on data provided on others. It is recommended that grantees complete the Geographic Priorities, Priority Needs, and Anticipated Resources screens before the Goals screen.
4. Return to the Administration screen to run the [Quality Check](#). This feature will provide a summary including the following information:
 - a. Fields that were not answered
 - b. Priorities that have no associated goals
 - c. Other potential errors and discrepancies for each screen
5. Print a copy for review using the <Download as Word Document> button at the top of the Consolidated Plan menu screen. Things to review include:
 - a. Accuracy of the information
 - b. Order in which information is included
6. [To submit the plan](#), go to the Administration screen (AD-25 in a Consolidated Plan or AD-26 in an Annual Action Plan) and update the status of the plan from “Open in Progress” to “Submitted for Review.” Changes are not allowed when a Consolidated Plan or Action Plan is in a “Submitted for Review” or “Review Completed” status. Once the user saves the Administration screen with the “Submitted for Review” status, the following will occur:
 - a. Field Office staff will receive an e-mail from the system. It is recommended that grantees verify with their Field Office that the plan has been received.
 - b. The Field Office will review the submitted plan and accept the plan as complete or return the plan for revision. If returned, the Field will update the plan status to “Reviewed and Awaiting Modifications.” If accepted as complete, the Field Office Acceptor will update to “Review Completed.”

ADDING A CONSOLIDATED PLAN

To add a new plan to IDIS Online:

1. Click on Plans/Projects/Activities in the Main Menu bar, highlighted with the red box in the screenshot below. By default, the system will display the Search Activities screen. On the left side of the screen, the system will display the sub-menus for Activities, Projects, Consolidated Plans, and Action Plans and Consolidated Annual Performance and Evaluation Reports (CAPERs). If the Consolidated Plan and Action Plan menus do not appear, the user should check with their local IDIS administrator to make sure the IDIS user profile has been assigned access for these screens. Local administrators can follow the instructions in the [Integration into IDIS Online](#) section to add access to a profile.
2. To add a new 3–5 year Consolidated Plan, click on <Add> in the Consolidated Plan submenu, highlighted with the red box in the screenshot below. This plan template will include both the 3–5 year plan and the Year 1 Action Plan. To add a standalone Annual Action Plan or an Action Plan for Years 2-5, click on <Add> in the Action Plan submenu. The system will display the Administration screen.

The screenshot displays the IDIS Online user interface. At the top, a navigation bar contains several menu items: **Plans/Projects/Activities** (highlighted with a red box), **Funding/Drawdown**, **Grant**, **Grantee/PJ**, **Admin**, and **Reports**. Below the navigation bar, a yellow notification banner states: "You have 8 CDBG and 7 HOME activities that have been flagged. Click [here](#) to go to the review page." The main content area is titled "Activity" and "Search Activities". On the left side, there is a vertical menu with sub-menus for "Activity", "Project", "Consolidated Plans" (highlighted with a red box), and "Annual Action Plans". Each sub-menu lists options like "Add", "Search", "Review", "CDBG Cancellation", "Copy", and "Search". The "Search Activities" section contains a "Search Criteria" form with the following fields: "Program:" (dropdown menu set to "All"), "IDIS Project ID:" (text input), "Status:" (dropdown menu set to "All"), "Activity Name:" (text input), "IDIS Activity ID:" (text input), "Program Year:" (dropdown menu set to "Select"), "Grantee/PJ Activity ID:" (text input), and "Activity Owner:" (dropdown menu set to "HAMMOND, IN"). At the bottom of the search criteria section, there are "Search" and "Reset" buttons.

3. Complete the Administration screen using the information below. Each required field is marked with an asterisk (*). Grantees can leave non-required fields blank and provide this information later. When finished, click the <Save> button at the bottom of the screen. Once a plan is saved, the status is set to “Open—in Progress” and the grantee will be taken to the Consolidated Plan Menu screen that will list all of the screens in the Consolidated Plan Template.

Enter the last program year of the Consolidated Plan. This should be the calendar year in which the last program year begins. For example, if the last program year covered by the 5 Year Consolidated Plan begins on July 1, 2017, use 2017 as the Ending Year.
*	Title	Enter a title for the Consolidated Plan. HUD has not provided any guidance for the title. The title will be displayed on the cover and at the top of each page of the printed report. The title can be changed after the plan is created.
*	Plan Version	Provide a version for the plan. This field is used to identify different versions of a plan for the same Beginning Year. As discussed above, the version is also used to identify related plans for members of a HOME Consortium or a Regional Strategy . Versions can be numerical (i.e. Version 1 and Version 2), based on a date (i.e. Version as of July 2013), or any other methodology the grantee chooses. The version must be unique for the selected Beginning Year. The version cannot be edited after the plan has been created.
	If Amendment	Identify if the plan is an amendment. The default is n/a. When a Substantial Amendment is indicated, the system will provide a dialog box in which the user can explain the changes being made.
*	Programs Included	The system will place a check next to each program (CDBG, HOME, ESG, HOPWA) the jurisdiction receives. The user should change the default selection if it is incorrect. At least one selection must be indicated. The Quality Check will provide a warning if the programs selected do not match the grantee's allocations in IDIS.

Any data source added on this screen will be available as an alternative source for the data tables in the Needs Assessment and Market Analysis sections. Grantees may also add data sources as they enter alternative data to any screen throughout the Consolidated Plan Template.</p> <p>Alternative data sources can come from a variety of sources, from neighborhood surveys to national studies. Common alternative sources of local data may include the homeless point-in-time count, code violation records, and surveys of local government agencies and service providers.</p> <p>Because some tables will not be populated with data provided by HUD, and will therefore require entering data from additional sources, the Quality Check will provide a warning if the grantee does not identify any additional data sources.</p>
*	Select Public Housing Agency	<p>Click the <Select Public Housing Agency> button. The system will display a search screen. Search for the public housing agencies operating within the grantee’s jurisdiction by agency name, code, or by simply clicking Search to see all the public housing agencies in the grantee’s state. In the results, click the checkbox next to each public housing agency that operates within the grantee’s jurisdiction (<u>even if the PHA is not located within the jurisdiction</u>) and click the <Select> button. States may want to select all PHAs within the state. Grantees must select at least one PHA in order to create a Consolidated Plan.</p> <p>The system will populate data fields on the public housing data screens (NA-35 and MA-25), based on the public housing agencies selected here⁶. It is recommended that grantees consult with each public housing agency to verify that the data reflects the needs of public housing within the grantee’s jurisdiction. This is especially important when the jurisdiction boundary of the grantee differs from that of the public housing agency selected. For States, the level of public housing data provided by the template is optional. See the State-specific instruction for screens NA-35 and MA-25 for more information.</p>

⁶ Please note that if more than one PHA is selected, any pre-populated data based on an average or median will be blank.

COPYING A CONSOLIDATED PLAN

Grantees have the option of copying data from one version of the Consolidated Plan into a new version. Grantees can use this feature to submit a Substantial Amendment to the existing Consolidated Plan or to copy the information in a Consolidated Plan from one year to a new year (i.e. 2012 to 2017).

When the Copy feature is used to create a plan amendment, all elements of the plan are copied, including any attachments, additional content (i.e. images, maps, and text boxes that were inserted throughout the template), and alternate data sources.

When the Copy feature is used to copy the plan's information to a new year or new version (i.e. the copy is not an amendment to the original plan), the data in the tables will be updated based on the current data sources. Any data manually entered based on alternate data sources will be overwritten.

Plan Element	Copy is an amendment	Copy is NOT an amendment
Attachments	Copied	Copied.
Additional Content	Copied	Copied
Alternate Data Sources	Copied	List of data sources is copied, but data in tables is replaced with current data sources.
Pre-populated data in tables	Copied	Data is replaced with current data sources.

Only the lead grantee for the Consortia can copy the Consolidated Plan. Participating grantees cannot copy a Consolidated Plan. Participating grantees can make copies of their Annual Action Plan. If the Consortia includes participating grantees that receive any direct grants, the participant grantee's Consolidated Plans will be copied when the lead grantee copies the plan.

If the source Consolidated Plan is a Regional Strategy Plan, the copy will be a Regional Strategy Plan as well. Please note that any Action Plans created by participating grantees that have been associated to the Regional Strategy are not automatically copied. Nor can associated Action Plans be copied and linked to the new version of the Regional Strategy. Participating grantees will have to create new versions of their Action Plan and associate it to the copied version of the Regional Strategy. (See instructions for adding an Annual Action Plan)

Source Consolidated Plan's Start Year:*

Source Consolidated Plan's Version:*

New Consolidated Plan's Start Year:*

New Consolidated Plan's End Year:*

New Consolidated Plan's Version:*

If Amendment: *

Use the following steps to copy a Consolidated Plan:

1. Before copying the plan, the user must know the Start Year and Version of the plan that they want to copy.
2. Go to Plan/Projects/Activities in the Main Menu. In the Consolidated Plan sub-menu, click on <Copy> link to display the Copy Consolidated Plan screen.
3. Enter the Source Consolidated Plan's Start Year and Version.
4. Enter the Start Year, End Year and Version for the new copy of the plan. The combination of the Year and Version for the new plan must be different than any of the grantee's existing plans. If the new copy is a Substantial Amendment to the existing plan, the Start Year must be the same as the Source Plan Start Year.
5. Designate whether the copy is an amendment. If the copy is not an amendment, select the default NA. Otherwise, select Minor or Substantial. A Minor amendment is any change that does not pass the threshold for a Substantial Amendment as outlined in the grantee's Citizen Participation Plan.
6. Click the Copy button. The system will create a copy of the plan and return to the full list of the grantee's Consolidated Plans. The default title of the copied plan will be "ConPlan Copy."
7. Locate the new copy of the plan and click <Edit>.
8. Click on the link for the AD-25 Administration screen.

9. Grantees can update the plan's title on this screen.
10. If the copy is a Substantial Amendment, the screen will include a text box labeled "Explanation of Substantial Amendment Changes" immediately following the existing Substantial Amendment checkbox. The information provided in this text box will not appear on the printed version of the plan. The information is a place for the grantee to communicate a summary of the amendments made to the plan to the Field Office Reviewer.
11. If the plan is ready for submittal to the Field Office, update the status to "Submitted for Review" and ask the local HUD Field Office to change the status to "Review Complete". While HUD review of amendments is not required, the amended Action Plan must have a "Review Complete" status so that the system will refer to the updated version of the plan for the CAPER.
12. When finished editing the screen, click <Save and Return> to save any changes.

EDITING A CONSOLIDATED PLAN

Grantees can edit plans with a status of “Open in Progress”, “Open in Progress / FO Review”, and “Reviewed and Awaiting Modifications.” Plans with a status of “Submitted for Review” or “Review Completed” cannot be edited, but can be viewed using the Search feature. To edit a plan with a status of “Review Completed”, the grantee must [copy the plan](#), make the needed changes, and resubmit to HUD for review.

To edit an existing Consolidated Plan in IDIS Online:

1. Click on Plans/Projects/Activities in the Main Menu bar. By default, the system will display the Search Activities screen. On the left side of the screen, the system will display the sub-menus for Activities, Projects, Consolidated Plans, Action Plans and Consolidated Annual Performance and Evaluation Reports (CAPERs). If the Consolidated Plan and Action Plan menus do not appear, check with the local IDIS administrator to make sure the user’s [IDIS user profile has been assigned access](#) for these screens.
2. Click on <Search> in the Consolidated Plan submenu. Click the <Search> button to view a list of all plans associated with the grantee.
3. Once the system displays the list of plans, click on <Edit> link for the relevant plan. The system will display a menu of links for the screens in the selected Consolidated Plan.

OVERVIEW

This screen collects some basic information about the plan and is used to submit the plan once all of the other screens have been completed. Certain information provided when first adding the plan is now read-only and cannot be edited as shown in the screenshot below. Once the plan is completed and is ready for submission to HUD, grantees will return to this screen to add attachments, run the Quality Check, and update the status of the plan to 'Submitted for Review.'

DATA ENTRY

The information in the first section of the screen was provided when the Consolidated Plan was created. Some of the fields are read-only and cannot be changed.

AD-35 Grantee Survey Data Documentation

OVERVIEW

While many of the data tables within the template are populated with default data, there will be some instances when the grantee will need to augment the default data with additional data from local or alternate sources. In order to edit the default data, the grantee must first create a citation for the local/alternate data. Grantees will use AD-35 Grantee Survey Data Documentation to create a citation for surveys that will serve as an alternate data source for the plan. Examples of alternate data sources include informal surveys such as neighborhood surveys as well as formal studies that use statistical methods. Grantees will use AD-40 Grantee Administrative Data Documentation to create citations for non-survey data sources.

This screen is accessed by clicking the <Add Survey Data Source> button on the Administration screen or by clicking on the <Alternate Data> button on any data table and then clicking the <Add Survey Data Source> button. Grantees will enter basic information about the data and how it was collected to add it to the list of alternative data sources. Each data source added on this screen will be available as an alternative source for the data tables in the Needs Assessment or Market Analysis sections. The Quality Check will provide a warning if the grantee leaves any of the fields blank.

OVERVIEW

The Verify Grantee/PJ – Program Contacts page collects contact information for the lead agency and the contact information for each funded program. This information will carry forward from year to year. Jurisdictions can use this page to notify their local HUD office of changes to its contact information at any time by clicking the <Submit Changes to HUD FO> button⁹. The button sends an e-mail to the assigned Field Office CPD Representative and to the Field Office CPD Director. This process is independent of the Consolidated Plan or Action Plan submission and approval.

Program-specific (CDBG, HOME, ESG, HOPWA) primary and secondary contact fields are displayed for each program selected on the Administration screen. The Quality Check will provide a warning if the grantee does not provide contact information for a program included in the plan.

EXECUTIVE SUMMARY

ES-05 Executive Summary

Regulation Citation(s): 24 CFR 91.200(c), 91.220(b), 91.300(c), 91.320(b)

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The Executive Summary serves as an introduction and summarizes the key points of the plan. It should be written in a manner so that readers will understand it without reading the remainder of the plan. For the Consolidated Plan, a good Executive Summary will describe the process of developing the plan, the key findings of the Needs Assessment as the basis for the priorities selected, and how the proposed goals and objectives will address those priorities. Because the summary pulls highlights from the rest of the plan, grantees many want to consider writing the Executive Summary last.

The Executive Summary includes the following seven narratives. The Quality Check will provide a warning if any field is left blank.

1. Introduction
2. Summary of Objectives and Outcomes
3. Evaluation of Past Performance
4. Summary of the Citizen Participation and Consultation Process
5. Summary of Public Comments
6. Summary of Comments Not Accepted
7. Summary

DATA ENTRY

There is only one Executive Summary for a Consolidated Plan submission covering both the Consolidated Plan and the first-year Action Plan. Consequently, the Executive Summary fields/functionality is the same for the Consolidated Plan and Action Plan.

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Introduction	Use the Introduction to explain the purpose of the Consolidated Plan and Action Plan.
!	Summarize the objectives and outcomes identified in the Plan.	Use this field to discuss the proposed objectives and outcomes of the plan in general.
!	Evaluation of Past Performance	This is an evaluation of past performance that led the grantee to determine goals or projects. Evaluation of past performance provides a context for the current plan and serves as a basis for current objectives and outcomes.
!	Summary of Citizen Participation Process and Consultation Process	This is a summary from the Citizen Participation and Consultation sections of the plan.
!	Summary of Public Comments	Use this field to provide a brief narrative summary of public comments received. If additional space is needed, use the features on the Administration screen to attach a separate document containing the comments.

THE PROCESS

The Consolidated Plan regulations require that the grantee identify the lead agencies responsible for the development of the plan and the administration of the grants. The regulations also require that the grantee consult with public and private service providers and other stakeholders. The grantee must also conduct outreach to encourage citizen participation during the development of the plan. This section collects information regarding the grantee's consultation and citizen participation efforts.

The screens that compose the Process section include:

1. [Lead and Responsible Agencies](#)
2. [Consultation](#)
3. [Citizen Participation](#)

OVERVIEW

The consolidated planning process requires jurisdictions to reach out to and consult with other public and private agencies when developing the plan. The plan itself must include a summary of the consultation process, including identification of the agencies that participated in the process. Jurisdictions also are required to summarize their efforts to enhance coordination between public and private agencies.

24 CFR 91.100 requires the following consultations for local governments:

- Public and private agencies that provide health services and social and fair housing services, including those focusing on services to children, elderly persons, persons with disabilities, persons with HIV/AIDS and their families, and homeless persons.
- State or local health and child welfare agencies regarding the portion of its Consolidated Plan concerning lead-based paint hazards.
- Adjacent governments regarding priority non-housing community development needs and local government agencies with metropolitan-wide planning responsibilities regarding problems and solutions that go beyond a single jurisdiction (e.g., transportation).
- For HOPWA grantees, consult broadly to develop a metropolitan-wide strategy for addressing the needs of persons with HIV/AIDS and their families.
- Local public housing agency concerning public housing needs, planned programs, and activities.

In addition, for the sections that address homelessness, local governments must consult with the following:

- Each Continuum of Care that serves the jurisdiction’s geographic area. For ESG grantees, these consultations must address the allocation of ESG among eligible activities, the development of policies, performance standards and program evaluation.
- Public and private agencies that address housing, health, social services, victim services, employment, and education needs of low-income, homeless, and special needs populations.
- Publicly funded institutions and systems of care that may discharge persons into homelessness, such as health-care facilities, mental health facilities, foster care, and corrections programs.

- Business and civic leaders.

STATE SPECIFIC INSTRUCTION

State grantees are required to undertake the following consultations per 24 CFR 91.110:

- Other public and private agencies that provide assisted housing (including any state housing agency administering public housing), health services, and social and fair housing services, including those focusing on services to children, elderly persons, persons with disabilities, persons with HIV/AIDS and their families, and homeless persons.
- State or local health and child welfare agencies in regard to the portion of its consolidated plan concerning lead-based paint hazards.
- Local governments in non-entitlement areas of the state in regard to the method of distribution of assistance under the CDBG program.

For the sections that address homelessness, the state must consult with the following:

- Each Continuum of Care within the state. These consultations must address the allocation of ESG among eligible activities, the development of policies, performance standards and program evaluation.
- Public and private agencies that address housing, health, social services, victim services, employment, and education needs of low-income, homeless, and special needs populations.
- Publicly funded institutions and systems of care that may discharge persons into homelessness, such as health-care facilities, mental health facilities, foster care, and corrections programs.
- Business and civic leaders.

OVERVIEW

Grantees are required to provide opportunities for the public to participate in the development of the Consolidated Plan. The plan must provide a summary of the citizen participation efforts made, including efforts to broaden public participation, a summary of citizen comments or views on the plan, and a written explanation of comments not accepted and the reasons why these comments were not accepted.

The plan should highlight efforts to encourage participation from the following populations:

- Low- and moderate-income persons
- Residents of slum and blighted areas, predominantly low- and moderate-income neighborhoods, and in areas where CDBG funds are proposed for use
- Minorities
- Non-English speaking persons
- Persons with disabilities
- Public housing residents and other low-income residents of targeted revitalization areas in which public housing developments are located
- Local and regional institutions, including the Continuum of Care, businesses, developers, nonprofit organizations, philanthropic organizations, and community-based and faith-based organizations

The plan must describe the process undertaken to allow citizens to review the plan and submit their comments. At a minimum, this includes:

- How the plan (or a summary of the plan) was published for review
- Dates, times, and locations of public hearings
- When and how citizens were notified of the hearings
- Dates of the 30-day citizen comment period
- Summary of any technical assistance provided to groups seeking funding assistance

The plan should also note any alternative public involvement techniques, such as the use of focus groups and the Internet.

STATE SPECIFIC INSTRUCTION

State grantees are required to follow the citizen participation regulations per 24 CFR 91.115. While state grantees are not required to include their Citizen Participation Plan, the information on this screen should convey the following:

- How the state grantee encouraged citizens to participate in the development of the plan, especially participation by:
 - Low- and moderate-income persons, particularly those living in slum and blighted areas and in areas where CDBG funds are proposed for use
 - Residents of predominantly low- and moderate-income neighborhoods
 - Minorities and non-English speaking persons
 - Persons with disabilities
- How the state grantee encouraged the participation of local, regional, and statewide institutions, Continuums of Care, and other organizations (including businesses, developers, nonprofit organizations, philanthropic organizations, and community-based and faith-based organizations) that are involved with or affected by the programs or activities covered by the consolidated plan in the process of developing and implementing the consolidated plan
- If the state grantee used alternative public involvement techniques, such as the use of focus groups and the Internet
- The specific modes of outreach used by the State to develop and communicate the plan, including at a minimum:
 - Publication of the amount of assistance the state grantee expects to receive and the range of activities that may be undertaken, including the estimated amount that will benefit persons of low- and moderate-income and the plans to minimize displacement of persons and to assist any persons displaced
 - Publication of the proposed consolidated plan
 - One public hearing on housing and community development needs before the proposed consolidated plan is published for comment
 - Outreach targeted to meet the needs of non-English speaking residents when a significant number of non-English speaking residents can be reasonably expected to participate
 - The 30 day public comment period

NEEDS ASSESSMENT

The Needs Assessment of the Consolidated Plan, in conjunction with information gathered through consultations and the citizen participation process, will provide a clear picture of a jurisdiction's needs related to affordable housing, special needs housing, community development, and homelessness. From this Needs Assessment, the grantee will identify those needs with the highest priority, which will form the basis for the Strategic Plan and the programs and projects to be administered.

Most of the data tables in this section will be populated with default data based on the most recent data available. Grantees can replace or supplement these data with alternative data sources. Grantees also can support the data tables they present with GIS maps, GIS data sets, images, custom data tables, and additional text.

The template is based on the regulations and includes the following sections:

Housing Needs Assessment

In general, the plan must provide a concise summary of the jurisdiction's estimated housing needs projected for the ensuing five-year period. The need should be described according to the categories listed in the regulations, including income level, tenure, and household type, and by housing problems, including cost burden, overcrowding, and substandard housing conditions. These requirements are fulfilled on [NA-10 Housing Needs Assessment](#).

Housing problems, in this context, include the following:

- Lack of a complete kitchen or plumbing facilities.
- Cost burdened: A housing cost burden of more than 30 percent of the household income. Cost burden is the fraction of a household's total gross income spent on housing costs. For renters, housing costs include rent paid by the tenant plus utilities. For owners, housing costs include mortgage payments, taxes, insurance, and utilities.
- Overcrowded: Overcrowded is defined as more than one person per room, not including bathrooms, porches, foyers, halls, or half-rooms.

Disproportionately Greater Need

The plan must provide an assessment for each disproportionately greater need identified. A disproportionately greater need exists when the members of racial or ethnic group at a given income level experience housing problems at a greater rate (10% or more) than the income level as a whole. This information is collected on screens [NA-15](#), [NA-20](#), [NA-25](#) and [NA-30](#).

Public Housing

In cooperation with the public housing agency or agencies that have jurisdiction within the grantee's boundaries, the plan must provide a concise summary of the needs of public housing residents. [NA-35 Public Housing](#) collects information on the number and type of public housing units and characteristics of their residents.

Homeless Needs Assessment

The plan must describe the nature and extent of unsheltered and sheltered homelessness within the jurisdiction. Grantees will use data from the Homeless Management Information System (HMIS) and data from the Point-In-Time (PIT) count as a baseline for this section. This requirement is fulfilled on [NA-40 Homeless Needs Assessment](#).

The description must include estimates regarding the number of persons experiencing homelessness on a given night, the number of persons who experience homelessness each year, the number of persons who lose their housing and become homeless each year, the number of persons who exit homelessness each year, the number of days that persons experience homelessness, and other measures specified by HUD. The plan must include a narrative description of the characteristics and needs of low-income individuals and families with children who are currently housed but threatened with homelessness.

Non-Homeless Special Needs Assessment

To the extent practicable, the plan should describe the level of housing need for persons who are not homeless but require supportive housing, including the elderly, frail elderly, persons with disabilities, persons with alcohol or other drug addiction, persons with HIV/AIDS and their families, public housing residents, and any other categories the jurisdiction may specify.

For HOPWA grantees, the plan must identify the size and characteristics of the population with HIV/AIDS and their families within the eligible metropolitan statistical area it will serve.

This requirement is fulfilled on [NA-45 Non-homeless Special Needs Assessment](#).

Non-Housing Community Development Needs

For CDBG grantees, the plan must provide a concise summary of the jurisdiction's priority non-housing community development needs, including the need for public facilities, public improvements, public services, and other eligible uses of CDBG. This requirement is fulfilled on [NA-50 Non-Housing Community Development Needs](#).

DATA TABLE: HOUSING PROBLEMS

This table displays the number of households with housing problems. Problems in this table are listed from most severe (at the top of the table) to least severe. If households have more than one of these problems, they are included in the count of households with the most severe housing problem. For example, if a household is *both* cost-burdened and lives in substandard housing, they would be counted in the category of households living in substandard housing. Each housing problem is detailed by tenure and HUD Adjusted Median Family Income (HAMFI). Default Data Source: Comprehensive Housing Affordability Strategy (CHAS) data.

DATA TABLE: HOUSING PROBLEMS 2

This table displays the number of households with no housing problems, one or more housing problems, and negative income by tenure and HUD Adjusted Median Family Income (HAMFI). This table aggregates the data from the previous table, showing the total number of households that have any housing problem. Default Data Source: Comprehensive Housing Affordability Strategy (CHAS) data.

DATA TABLE: CROWDING (MORE THAN ONE PERSON PER ROOM)

This table displays the number of households that are overcrowded, defined as households with more than one person per room, excluding bathrooms, porches, foyers, halls, or half-rooms. The data is displayed by household type, tenancy, and household income (expressed as a percentage of Area Median Income (AMI)). Default Data Source: Comprehensive Housing Affordability Strategy (CHAS) data.

For supplemental overcrowding data, jurisdictions may want to consult their code enforcement departments to determine if single family units are being illegally converted into multi-unit properties. Jurisdictions may also consult with the local CoC to determine the level of “doubling up” and “couch surfing” that is occurring within the area.

DATA ENTRY: ADDITIONAL NARRATIVES

Two required questions are not specifically included in this section. Users should respond to the following questions either in the “Discussion” field or in added text boxes.

1. Describe the number and type of single person households in need of housing assistance.
2. Estimate the number and type of families in need of housing assistance who are disabled or victims of domestic violence, dating violence, sexual assault or stalking.

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

These characteristics may be linked to the description of housing cost burden, severe cost burden, overcrowding (especially for large families), and substandard conditions being experienced by extremely low-income and low-income renters compared to the jurisdiction as a whole. The information provided in this field will supplement the definition of “at risk of homelessness” listed in 24 CFR 91.5 and can be used to qualify households for homeless prevention services.

OVERVIEW

A disproportionately greater need exists when the members of racial or ethnic group at a given income level experience housing problems at a greater rate (10 percentage points or more) than the income level as a whole.¹² For example, assume that 60% of all low-income households within a jurisdiction have a housing problem and 70% of low-income Hispanic households have a housing problem. In this case, low-income Hispanic households have a disproportionately greater need. Per the regulations at 91.205(b)(2), 91.305(b)(2), and 91.405, a grantee must provide an assessment for each disproportionately greater need identified. Although the purpose of these tables is to analyze the relative level of need for each race and ethnic category, the data also provide information for the jurisdiction as a whole that can be useful in describing overall need.

DATA TABLE: DISPROPORTIONATELY GREATER NEED TABLES

This section has four tables that capture the number of housing problems by income, race, and ethnicity. Each table provides data for a different income level (0–30%, 30–50%, 50–80%, and 80–100% AMI). Default Data Source: Comprehensive Housing Affordability Strategy (CHAS) data. Click the <Add Another> button to add another racial category to the table. When a racial category is added, it is added only to the specific table on the screen. To calculate the percentage of housing problems experienced by each group, divide the number of households with a housing problem within the group by the total of households with a housing problem and those without a housing problem. Do not include households with no/negative income.

For example, assume that 60% of all low-income households within a jurisdiction have a housing problem and 70% of low-income Hispanic households have a housing problem. In this case, low-income Hispanic households have a disproportionately greater need. Per the regulations at 91.205(b)(2), 91.305(b)(2), and 91.405, a grantee must provide an assessment for each disproportionately greater need identified.

This screen displays:

1. Narrative: Introduction
2. Table: Disproportionately Greater Need—Housing Cost Burden
3. Narrative: Discussion

DATA ENTRY: INTRODUCTION

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Introduction	Enter a brief introduction defining “disproportionately greater number of cost-burdened households” and provide anecdotal or other supporting narrative to describe the different levels of need among racial and ethnic categories. In some jurisdictions, there may be overlap between disproportionately greater need for a race and higher levels of housing problems within areas of low-income and minority concentration.

DATA TABLE: DISPROPORTIONATELY GREATER NEED TABLE—HOUSING COST BURDEN

This table displays cost burden information for the jurisdiction and each racial and ethnic group, including no cost burden (less than 30%), cost burden (30-50%), severe cost burden (more than 50%), and no/negative income. Default Data Source: Comprehensive Housing Affordability Strategy (CHAS) data.

Click the <Add Another> button to add another racial category to the table. When a racial category is added, it is added only to the specific table on the screen.

Housing Cost Burden		<=30%	30-50%	>50%	No/negative income (not computed)	Action
Jurisdiction as a whole	#	4330	14255	0	1245	
White	#	7450	0	1105	3275	
Black / African American	#	0	155	455	0	
Asian	#	10	25	0	0

Pacific Islander	#	0	115	50	0	
Hispanic	#	61220	19930	16285	660	
	#					

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Each of the following fields appears for the jurisdiction as a whole and each race and ethnicity.	
	Housing Cost to Income Ratio Less than 30% (No Cost Burden)	The number of households without a cost burden .
	Housing Cost to Income Ratio Between 30% and 50% (Cost Burdened)	The number of cost-burdened households that pay between 30% and 50% of their income on housing-related costs.
	Housing Cost to Income Ratio Greater Than 50% (Severely Cost Burdened)	The number of severely cost-burdened households that pay more than 50% of their income on housing-related costs.
	No/Negative Income (Not Computed)	The number of households whose income is zero or negative due to self-employment, dividends, and net rental income. These households are not included in the other two categories. Households with zero or negative income cannot actually have a cost burden, but still require housing assistance and therefore are counted separately.

DATA ENTRY: DISCUSSION

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Discussion	This specific field is optional, but grantees must discuss disproportionately greater need for housing cost burden at some point in the document. This may be a logical section in which to include an analysis of the data presented above.

OVERVIEW

This page provides an opportunity to summarize the findings related to disproportionately greater need. Answer the three narrative fields provided regarding disproportionately greater need. The narrative on this screen should be based on the data in the previous sections.

DATA ENTRY: NARRATIVE

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
!	Are there any income categories in which a racial or ethnic group has disproportionately greater need than the needs of that income category as a whole?	Identify the income categories in which a racial or ethnic group has disproportionately greater need than the needs of that income category as a whole. Review the disproportionately greater need screens for housing problems, severe housing problems, and housing cost burdens and identify any racial or ethnic groups that have a need disproportionate to the jurisdiction as a whole (a difference of more than 10%).
	If they have needs not identified above, what are those needs?	If applicable, describe unidentified needs in this field.
	Are any of those racial or ethnic groups located in specific areas or neighborhoods in your community?	If applicable, identify the specific areas or neighborhoods where a racial or ethnic group has disproportionately greater needs. In some jurisdictions, there may be overlap between disproportionately greater need for a race and higher levels of housing problems within areas of low-income and minority concentration.

OVERVIEW

The plan must provide a concise summary of the needs of public housing residents. This information should be gathered through consultations with the public housing agency or agencies located within the jurisdiction's boundaries.

This page contains the following sections:

1. Introduction
2. Totals in Use
3. Characteristics of Residents
4. Race of Residents
5. Ethnicity of Residents
6. Additional Narrative

The system will provide default data for the public housing agencies selected on screen AD-25. This data is based on information submitted by the public housing agencies to HUD. There may be instances in which the public housing agency did not report data to HUD. In addition, it is important to note that in cases where the public housing agency's jurisdiction does not match that of the grantee, the grantee will need to edit the data to reflect the needs of their jurisdiction. **It is recommended that grantees consult with each public housing agency to verify that the data reflects the needs of public housing within the grantee's jurisdiction.**

STATE GRANTEE INSTRUCTION

The information on this page is not required for states. While all of the specific data fields presented are not required, state grantees need to ensure they address the requirements of 91.305 within their submission. Specifically, the regulations require states to estimate the number and type of families in need of housing assistance, including public housing residents and families on public housing and Section 8 waiting lists. If it is not feasible to provide some of the data on this screen, leave the fields blank and use the narrative to describe the needs of public housing.

DATA ENTRY: INTRODUCTION

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Introduction	Provide a concise narrative summary of the needs of public housing residents. HOME and CDBG-funded rental projects often target tenants with similar characteristics to public housing residents.

DATA TABLE: TOTALS IN USE TABLE

This table displays the number of vouchers and units by public housing program type. The default data used in this section is based on reports from PHAs to HUD. Numbers should be confirmed with the associated PHA. Missing values do not necessarily mean a zero value, but rather that the PHA did not report on that field. Default Data Source: Public and Indian Housing Information Center (PIC).

	Program Type								
	Certificate	Mod-Rehab	Public Housing	Vouchers					
				Total	Project-based	Tenant-based	Special Purpose Vouchers		
							Veterans Affairs Supportive Housing	Family Unification Program	Disabled*
# of units/vouchers in use	178	253			178				
*Includes Non-Elderly Disabled, Mainstream One-Year, Mainstream Five-Year, and Nursing Home Transition									

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
		<i>(All fields are pre-populated – if not pre-populated, use the alternate data to provide data collected during consultation with the PHA)</i>
	Certificate	The total number of Section 8 certificates administered by the public housing authority (PHA). The Section 8 Rental Certificate program increases affordable housing choices for very low-income households by allowing families to choose privately owned rental housing. Families apply to a local PHA or administering governmental agency for a Section 8 certificate. The PHA pays the landlord the difference between 30% of the household's adjusted income and the unit's rent.
	Mod-Rehab	Enter the total number of units in developments that were funded under the moderate rehabilitation program administered locally by PHAs. The moderate rehabilitation program provides project-based rental assistance for low-income families. Assistance is limited to properties previously rehabilitated pursuant to a housing assistance payments (HAP) contract between an owner and a PHA.
	Public Housing	Enter the total number of units in developments operated by the PHAs within the jurisdiction.

*!	Field	Description <i>(All fields are pre-populated – if not pre-populated, use the alternate data to provide data collected during consultation with the PHA)</i>
	Vouchers	
	Total	Enter the total number of Section 8 vouchers (project based plus tenant based) administered by the PHA.
	Project Based	Enter the total number of project-based Section 8 vouchers administered by the PHA.
	Tenant Based	Enter the total number of tenant-based Section 8 vouchers administered by the PHA.
	Special Purpose: Veterans Affairs Supportive Housing	The HUD–Veterans Affairs Supportive Housing program combines Housing Choice Voucher rental assistance for homeless veterans with case management and clinical services provided by the U.S. Department of Veterans Affairs (VA). The VA provides these services for participating veterans at VA medical centers and community-based outreach clinics.
	Special Purpose: Family Unification Program	Family Unification Program funding is allocated through a competitive process; therefore, not all PHAs administer the program.
	Special Purpose: Disabled	In this context, disabled includes non-elderly disabled, mainstream 1-year, mainstream 5-year, and nursing home transition.

DATA TABLE: CHARACTERISTICS OF RESIDENTS TABLE

This table displays the characteristics of public housing residents by public housing program type. Default Data Source: Public and Indian Housing Information Center (PIC). Grantees should verify the accuracy of this data through consultations with the PHAs who operate within their jurisdiction.

*!	Field	Description
	For each type of public housing program (each column), provide the following:	
	Average Annual Income†	Provide the average annual income.
	Average Length of Stay†	Provide the average length of stay (in years).
	Average Household Size†	Provide the average household size.
	# Homeless at admission	Provide the number of homeless individuals at admission.
	# of Elderly Program Participants	Provide the number of elderly participants (age 62 and older).
	# of Disabled Families	Provide the number of disabled families.
	For project-based units, provide the following:	
	# of Families requesting accessibility features	Provide the number of families requesting accessibility features.
	# of HIV/AIDS program participants	Provide the number of HIV/AIDS program participants.
	# of DV victims	Provide the number of domestic violence victims.

† Average fields will not appear for grantees who select more than one PHA

DATA TABLE: RACE OF RESIDENTS TABLE

This table displays the racial composition of residents for each public housing program. Default Data Source: Public and Indian Housing Information Center (PIC). The default data source does not include the Other racial category. In order to populate these fields, the grantee must specify an Alternate Data Source. Some residents may identify their race as Hispanic or Latino. In this case, the jurisdiction may need to distinguish the HUD definitions of race and ethnicity to ensure information is collected/reported consistently.

Race of Residents

*!	Field	Description
		For each Program Type column, report the number of residents who identify with each race category.
	White	Report the number of residents who identify as White for each Program Type column. The HUD definition for White is a person having origins in any of the original peoples of Europe, North Africa, or the Middle East.
	Black/African American	Report the number of residents who identify as Black or African American for each Program Type column. The HUD definition for Black/African American is a person having origins in any of the black racial groups of Africa.
	Asian	Report the number of residents who identify as Asian for each Program Type column. The HUD definition for Asian is a person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
	American Indian, Alaska Native	Report the number of residents who identify as American Indian or Alaska Native for each Program Type column. The HUD definition for American Indian/Alaska Native is a person having origins in any of the original peoples of North and South America (including Central America) and who maintains a tribal affiliation or community attachment.
	Pacific Islander	Report the number of residents who identify as Pacific Islander for each Program Type column. The HUD definition for Pacific Islander is a person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
	Other	Report the number of residents who identify with a race not included in any of the categories listed above as Other for each Program Type column.

DATA TABLE: ETHNICITY OF RESIDENTS TABLE

OVERVIEW

The plan must describe the nature and extent of unsheltered and sheltered homelessness, including rural homelessness, within the jurisdiction. At a minimum, the recipient must use data from the Homeless Management Information System (HMIS) and data from the Point-In-Time (PIT) count conducted in accordance with HUD standards. The plan must estimate the following for each category of homeless population:

- Number of persons experiencing homelessness on a given night
- Number of persons who experience homelessness each year
- Number of persons who lose their housing and become homeless each year
- Number of persons who exit homelessness each year
- Number of days that persons experience homelessness

The plan also must contain a brief narrative description of the nature and extent of homelessness by racial and ethnic group, to the extent information is available. This page includes the following:

1. Introduction
2. Homeless Needs Table
3. Rural Homelessness
4. Nature and Extent of Homelessness by Race and Ethnicity
5. Sheltered and Unsheltered
6. Discussion

	Introduction	Use the Introduction to provide a summary of the information presented below.

STATE SPECIFIC INSTRUCTION

Virtually all state grantees should answer “Some” or “All” to the “Population includes Rural Homeless?” question. Based on the selected answer, the page will change the narrative questions on the screen.

DATA TABLE: HOMELESS NEEDS TABLE

This table collects the homeless estimates required by the regulations. Default Data Source: None. Most of the data for each Continuum of Care is accessible in CPD Maps. When reviewing the Continuum of Care data in CPD Maps, grantees should consult with the Continuum to determine which portion of the data is attributed to the Consolidated Plan grantee’s jurisdiction. Use the Alternate Data button to add an [Administrative Data Source](#). The Administrative Data Source should summarize how the grantee consulted with their local Continuum of Care to obtain the data for the grantee’s jurisdiction. States and local jurisdictions with multiple Continuums of Care should present combined data for ALL Continuums within the grantee’s geographic area. Grantees can create a report in CPD Maps that aggregates data for multiple Continuums to be used for the Con Plan. For more guidance on producing reports, see the [CPD Maps Desk Guide](#).

NA-45 Non-Homeless Special Needs Assessment

OVERVIEW

The plan should describe, to the extent practicable, the housing needs of persons who are not homeless but require supportive housing. This includes but is not limited to:

- Elderly (defined as 62 and older)
- Frail elderly (defined as an elderly person who requires assistance with three or more activities of daily living, such as bathing, walking, and performing light housework)
- Persons with mental, physical, and/or developmental disabilities
- Persons with alcohol or other drug addiction
- Persons with HIV/AIDS and their families
- Victims of domestic violence, dating violence, sexual assault, and stalking

For a jurisdiction seeking funding on behalf of an eligible metropolitan statistical area under the HOPWA program, the needs described for housing and supportive services must address the unmet needs of low-income persons with HIV/AIDS and their families throughout the eligible metropolitan statistical area. The HOPWA and the HIV Housing Need tables are presented only if the grantee is a HOPWA grantee (HOPWA program is indicated in the Administration screen).

This page includes the following sections:

1. For Consortia members, NA-50 only appears if they receive CDBG and only applies to their own CDBG needs.

OVERVIEW

For CDBG grantees, the plan must provide a concise summary of the jurisdiction's priority non-housing community development needs eligible for assistance under HUD's community development programs by CDBG eligibility category.

For all members of a HOME Consortia, this screen only appears if the grantees receives CDBG. Grantees should limit the discussion to the non-housing community development needs of their CDBG jurisdiction.

This screen fulfills requirements related to the needs for public facilities, public improvements, and public services. Information related to economic development needs is collected on [MA-45 Non-Housing Community Development Assets](#).

MARKET ANALYSIS

The purpose of the Market Analysis is to provide a clear picture of the environment in which the grantee must administer their programs over the course of the Consolidated Plan. In conjunction with the Needs Assessment, the Market Analysis will provide the basis for the Strategic Plan and the programs and projects to be administered.

Most of the data tables in this section will be pre-populated with a default data set based on the most recent data available. Grantees can replace or supplement these data with alternative data sources. Grantees also can support the data tables they present with GIS maps, GIS data sets, images, and custom data tables.

The template is based on the regulations and includes the following sections:

General Characteristics of the Housing Market

The plan must describe the significant characteristics of the jurisdiction's housing market, including the supply, demand, and condition and cost of housing. The template provides a baseline of this information for the jurisdiction on the following screens:

- [MA-10 Number of Housing Units](#)
- [MA-15 Cost of Housing](#)
- [MA-20 Condition of Housing](#)

To the extent information is available, the plan should include an estimate of the number of vacant or abandoned buildings and whether units in these buildings are suitable for rehabilitation. The plan must also identify and define and describe areas of low-income concentration and areas of minority concentration on [MA-50 Needs and Market Analysis Discussion](#).

Lead-based Paint Hazards

The plan must estimate the number of housing units within the jurisdiction that are occupied by low-income families or moderate-income families that contain lead-based paint hazards. This requirement can be fulfilled on [MA-20 Condition of Housing](#).

Public and Assisted Housing

The plan must describe and identify the public housing developments and public housing units in the jurisdiction, the physical condition of such units, the restoration and revitalization needs, Section 504 needs, and the public housing agency's strategy for improving the management and operation of such public housing and for improving the living environment of low- and moderate-income families residing in public housing. This requirement can be fulfilled on [MA-25 Public and Assisted Housing](#).

Assisted Housing

The plan must include a description of the number and targeting (income level and type of family served) of units currently assisted by local, state, or federally funded programs and an assessment of whether any such units are expected to be lost from the assisted housing inventory for any reason, such as expiration of Section 8 contracts. This requirement can be fulfilled on [MA-10 Number of Housing Units](#).

Facilities, Housing, and Services for Homeless Persons

The plan must include a brief inventory of facilities, housing, and services that meet the needs of homeless persons within the jurisdiction, particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth. The inventory of services must include both services targeted to homeless persons and mainstream services, such as health, mental health, and employment services to the extent those services are used to complement services targeted to homeless persons. This requirement can be fulfilled on [MA- 30 Homeless Facilities and Services](#).

Special Need Facilities and Services

The plan must describe the housing stock available to serve persons with disabilities and other low-income persons with special needs, including persons with HIV/AIDS and their families. The plan must describe, to the extent information is available, the facilities and services that assist persons who are not homeless but who require supportive housing and programs for ensuring that persons returning from mental and physical health institutions receive appropriate supportive housing. This requirement can be fulfilled on [MA-35 Special Needs Facilities and Services](#).

Barriers to Affordable Housing

The plan must describe any regulatory barriers to affordable housing, including public policies that affect the cost of housing and the incentives to develop, maintain, or improve affordable housing in the jurisdiction. These include tax policies affecting land and other property, land use controls, zoning ordinances, building codes, fees and charges, growth limits, and policies that affect the return on residential investment. . This requirement can be fulfilled on [MA-40 Barriers to Affordable Housing](#).

Needs and Market Analysis Discussion

At the end of this section, the [MA-50 Needs and Market Analysis Discussion](#) section provides an opportunity to summarize the key points in terms of the level of need and market conditions of the community. This summary can help form the basis for the rationale used in the Strategic Plan.

OVERVIEW

While not required, the Market Analysis overview provides a place to summarize the key points of each section of the Market Analysis and can set a basis for some of the funding priorities that must be described in the Strategic Plan. A thorough overview will touch on the key points of the following sections:

- Significant characteristics of the jurisdiction's housing market in general, including the supply, demand, and condition and cost of housing
- Housing stock available to serve persons with disabilities and other special needs
- Condition and needs of public and assisted housing
- Brief inventory of facilities, housing, and services that meet the needs of homeless persons
- Regulatory barriers to affordable housing
- Significant characteristics of the jurisdiction's economy

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
		For each income range (each row), provide the number of affordable rental and owner units.
	Rental	The number of affordable rental units for each income range. A rental unit is considered affordable if gross rent, including utilities, is no more than 30% of the household income. If not using the default data set, briefly describe how affordability was calculated.
	Owner	The number of affordable owner units for each income range. An owner unit is considered affordable if monthly housing costs, including principal and interest, taxes, and insurance, are no more than 30% of the household income. If not using the default data set, briefly describe how affordability was calculated.

RENTS TABLE

Default Data Sources: HUD Fair Market Rents and HUD HOME Rents.

Monthly Rent (\$)	Efficiency (no bedroom)	1 Bedroom	2 Bedroom	3 Bedroom	4 Bedroom
Fair Market Rent					
High HOME Rent					
Low HOME Rent					

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
		For each unit size, the following rents are provided:
	Fair Market Rent	(NOTE: FMR are not applicable to state grantees) Fair Market Rents (FMRs) are gross rent estimates that include rent plus the cost of all tenant-paid utilities. FMRs are set to the dollar amount at which 40% of the standard-quality rental housing units are rented, excluding non-market rental housing (e.g., public housing). For jurisdictions within a metropolitan area, the FMR is based on the metropolitan area. For jurisdictions outside of a metropolitan area, the FMR is calculated at the county level.

*!	Field	Description
	High HOME Rent	(NOTE: This table is not applicable to state grantees) High HOME Rents are equal to the FMR or 30% of the adjusted income of a family whose income equals 65% AMI, whichever is lower.
	Low HOME Rent	(NOTE: This table is not applicable to state grantees) Low HOME Rents are equal to 30% of the adjusted income of a family whose income equals 50% AMI.

DATA ENTRY: ADDITIONAL NARRATIVE

Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Is there sufficient housing for households at all income levels?	Use this optional field to indicate whether there is sufficient housing for households at all income levels. Include the data source and briefly describe the process to establish the response.
	How is affordability of housing likely to change considering changes to home values and/or rents?	Use this optional field to provide a narrative summary describing how affordability of housing is likely to change considering changes to home values and/or rents. Include the data source and briefly describe the process to establish the response..
	How do HOME Rents/FMRs compare to area median rents? How might this have an impact on your strategy to produce or preserve affordable housing?	Use this optional field to provide a brief comparison of HOME Rents/FMRs to the area's median rents. Indicate how the characteristics of the housing market will influence the use of funds made available for rental assistance, production of new units, rehabilitation of old units, or acquisition of existing units. For example, if the area's median rents are much higher than the HOME Rents/FMRs, then the strategy should reflect programs that produce or preserve affordable housing.
	Discussion	Use this field to provide additional narrative regarding the information provided on this page.

DATA ENTRY: CONDITION OF UNITS TABLE

This table displays the number of housing units, by tenure, based on the number of “conditions” the units has. Selected conditions are similar to housing problems in the Needs Assessment and are (1) lacks complete plumbing facilities, (2) lacks complete kitchen facilities, (3) more than one person per room, and (4) cost burden greater than 30%. The table also calculates the percentage of total units that the category represents. Default Data Source: American Community Survey (ACS).

DATA ENTRY: RISK OF LEAD-BASED PAINT HAZARD TABLE

The plan must estimate the number of housing units that contain lead-based paint hazards and the number of those units that are occupied by extremely low-income, low-income, and moderate-income families. The use of lead-based paint in housing was banned in 1978. For the purposes of this plan, the number of units built before 1980 occupied by households with children serves as a default baseline of units that contain lead-based paint hazards. Jurisdictions are encouraged to use an alternate data source if one is available. Default Data Source: Comprehensive Housing Affordability Strategy (CHAS) data.

Risk of Lead-Based Paint Hazard	Owner-Occupied		Renter-Occupied	
	Number	%	Number	%
Total Number of Units Built Before 1980.	79318	90%	31240	85%

		For each type of property, report the number of units suitable for rehabilitation and those not suitable for rehabilitation, based on the jurisdiction’s definition of “substandard but suitable for rehabilitation.”
	Vacant Units	Vacant units include those for lease and those for sale without occupants.
	Abandoned Vacant Units	Report the number of vacant units that meet the grantee’s definition of “abandoned.” For the purposes of the plan, the grantee may choose to adopt the Neighborhood Stabilization Program (NSP) definition of abandoned: A home or residential property is abandoned if either: <ul style="list-style-type: none"> • Mortgage, tribal leasehold, or tax payments are at least 90 days delinquent • A code enforcement inspection has determined that the property is not habitable and the owner has taken no corrective actions within 90 days of notification of the deficiencies • The property is subject to a court-ordered receivership or nuisance abatement related to abandonment pursuant to state or local law or otherwise meets a state definition of an abandoned home or residential property
	REO Properties	REO properties are properties owned by lenders as a result of foreclosure.
	Abandoned REO Properties	Lender-owned properties that meet the ‘abandoned’ definition listed above.

OVERVIEW

For Entitlement grantees, the plan must provide a concise summary of the needs of public housing, including:

- Identification of the public housing developments in the jurisdiction
- Number of public housing units
- Physical condition of public housing units
- Restoration and revitalization needs of the public housing units
- Number of families on public housing and tenant-based waiting lists
- Results from the Section 504 Needs Assessment of public housing projects located within its boundaries

The jurisdiction may address this section by cross-referencing and attaching relevant portions of the PHA Plan available at <http://www.hud.gov/offices/pih/pha>. However, supplementary information necessary to complete this section may also be required. For example, the jurisdiction must describe how its plan will help address the public housing needs; the jurisdiction's activities to encourage public housing residents to become more involved in management and participate in homeownership, and, for "troubled" public housing agencies, the manner in which the state or unit of general local government will provide financial or other assistance to such troubled public housing agencies in improving their operations to remove such designations.

This screen contains the following sections:

1. Introduction
2. Total Number of Units Table
3. Condition of Public Housing Units
4. Additional Narrative

The system will provide partial default data for the public housing agencies selected on screen AD-25. This data is based on information submitted by the public housing agencies to HUD. There may be instance where no data was reported to HUD by the public housing agency. In addition, it is important to

note that in cases when the public agency’s jurisdiction does not match that of the grantee, the grantee should edit the data to reflect the needs of their jurisdiction. **It is recommended that grantees consult with each public housing agency to verify that the data reflects the needs of public housing within the grantee’s jurisdiction.**

STATE GRANTEE INSTRUCTION

The information on this screen is optional for state grantees. As part of the Strategic Plan requirements, state grantees must “describe the manner in which the plan of the state will address the needs of public housing.” State grantees have the option of using this section to describe the existing conditions and needs of public housing, which will serve as the basis for the decisions made in the Strategic Plan. If default data is missing and it is not feasible to collect it, state grantees may leave the data tables blank and use the narratives in this section to describe the basis for the public housing strategies.

MA-30 Homeless Facilities and Services

Regulation Citation(s): 24 CFR 91.210(c), 91.310(b), 91.410

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The plan must include a brief inventory of facilities, housing, and services that meet the needs of homeless persons within the jurisdiction, particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth. The inventory of services must include both services targeted to homeless persons and mainstream services, such as health, mental health, and employment services to the extent those services are used to complement services targeted to homeless persons.

Jurisdictions should consult the Continuum of Care for access to the most recent Housing Inventory Chart. Note that the fields may not match the fields on the Housing Inventory Chart exactly and some calculation may be necessary. States and local jurisdictions with multiple Continuums of Care will need to compile the Housing Inventory Charts from all of the Continuums within their geographic area.

- **Emergency Shelter:** Any facility, the primary purpose of which is to provide a temporary shelter for the homeless in general or for specific populations of the homeless, and which does not require occupants to sign leases or occupancy agreements.
- **Transitional Housing:** Transitional housing. A project that is designed to provide housing and appropriate supportive services to homeless persons to facilitate movement to independent living within 24 months, or a longer period approved by HUD.
- **Permanent Supportive Housing:** Permanent housing in which supportive services are provided to assist homeless persons with a disability to live independently.

DATA ENTRY: FACILITIES TARGETED TO HOMELESS PERSONS TABLE

Default Data Source: None. Most of the data for each Continuum of Care is accessible in CPD Maps. Use the Alternate Data button to add an [Administrative Data Source](#). The Administrative Data Source should summarize how the grantee consulted with their local Continuum of Care to obtain the data for the grantee’s jurisdiction. States and local jurisdictions with multiple Continuums of Care should present combined data across for ALL Continuums within the geographic area of the jurisdiction.

OVERVIEW

The plan must describe, to the extent information is available, facilities and services that assist persons who are not homeless but require supportive housing and programs for ensuring that persons returning from mental and physical health institutions receive appropriate supportive housing.

While HOPWA data is only available for HOPWA grantees, all grantees should ensure they address the needs of the HIV/AIDS population and meet the requirements for the citations listed above.

If the grantee plans to use HOME funds or other tenant-based rental assistance to assist one or more of these subpopulations, the grantee must justify the need for such assistance in their Consolidated Plan.

MA-40 Barriers to Affordable Housing

Regulation Citation: 24 CFR 91.210(e), 91.310(d), 91.410

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

This section requires the jurisdiction to explain whether the cost of housing or the incentives to develop, maintain, or improve affordable housing are affected by public policies, particularly those of the local jurisdiction. Such policies include tax policy affecting land and other property, land use controls, zoning ordinances, building codes, fees and charges, growth limits, and policies that affect the return on residential investment.

HUD Form 27300, used for competitive grants, can serve as a useful guidance document in assisting jurisdictions in identifying the specific policies, procedures, or processes that impact the cost of developing, maintaining, or improving affordable housing.

HUD has established a regulatory barrier clearinghouse at <http://www.huduser.org/rbc> that provides examples of how communities can identify and remove barriers to affordable housing.

DATA ENTRY

The table below describes the data entry fields for this screen. Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

For CDBG grantees, the plan must provide a concise summary of the jurisdiction's priority non-housing community development needs that are eligible for assistance. This screen can be used to describe the economic development needs of the jurisdiction.

This screen also provides a wealth of data regarding the local economic condition of the jurisdiction and compares the ability of the local work force to satisfy the needs of local businesses. Much of this data can be used to describe the level of housing demand in the local market.

This screen contains the following sections:

1. Introduction
2. Business by Sector
3. Labor Force
4. Occupations by Sector
5. Travel Time to Work
6. Educational Attainment
7. Median Earnings in the Past 12 Months
8. Additional Narrative

STATE SPECIFIC INSTRUCTION

Based on data available to the State, the plan must describe the significant characteristics of the State's housing markets including such aspects as the supply, demand, and condition and cost of housing. In many cases, a state may contain several different distinct housing markets within its jurisdiction. State grantees may find it useful to insert additional content into the template in order to fully describe each housing market. Please refer to the section on [inserting additional content](#) for more information.

OVERVIEW

This screen provides grantees an opportunity to summarize key points from the Needs Assessment and Market Analysis. In addition, the Consolidated Plan regulations require the grantee to define the terms “area of low-income concentration” and “area of minority concentration” and to identify and describe any areas that meet such definitions.

DATA ENTRY: CHARACTERISTICS OF THE HOUSING MARKET

The table below describes the data entry fields for this screen. Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Are there any populations or households in areas or neighborhoods that are more affected by multiple housing problems? (include a definition of "concentration")	Identify any populations or households in areas or neighborhoods that are more affected by multiple housing problems.
!	Are there areas in the Jurisdiction where racial or ethnic minorities or low-income families are concentrated? (include a definition of "concentration")	Required for Non-state grantees. Describe any area of low-income concentration and any area of minority concentration and state how the jurisdiction defines the terms “area of low-income concentration” and “area of minority concentration.”
	What are the characteristics of the market in these areas/neighborhoods?	Provide a narrative describing the characteristics of the market in these areas/neighborhoods.
	Are there any community assets in these areas/neighborhoods?	Provide a narrative describing community assets in these areas/neighborhoods.
	Are there other strategic opportunities in any of these areas?	Provide a narrative describing opportunities in these areas/neighborhoods.
	States with Colonias only:	
!	Based on the needs analysis above describe the State’s needs in Colonias.	For states with colonias, summarize the needs of colonias.

STRATEGIC PLAN

The plan must identify the priority needs of the jurisdiction and describe strategies that the jurisdiction will undertake to serve the priority needs.

STATE GRANTEE INSTRUCTION

For state grantees, the plan must provide a summary of its methods of distribution and funding criteria. The level of detail in these sections for state grantees does not need to be extensive, so long as the details are contained in other readily available state documents.

The Strategic Plan section of the template includes the following screens:

Overview

The [SP-05 Overview](#) screen provides jurisdictions with an opportunity to introduce the key points of the Strategic Plan.

Geographic Priorities

Grantees must explain how funding is allocated geographically, but have the option of designating target areas. This approach recognizes that a neighborhood's economic and social needs are interconnected and focuses on the neighborhood as a whole. In effect, a place-based priority will require a comprehensive, place-based strategy with coordinated action between the grantee and other stakeholders and resources. This requirement is fulfilled on [SP-10 Geographic Priorities](#).

Priority Needs

Priority needs are the needs that will be addressed by the goals outlined in the Strategic Plan. This section should clarify the rationale for establishing the allocation priorities. The rationale should flow logically from the analysis in the Needs Assessment and Market Analysis. This requirement is fulfilled on [SP-25 Priority Needs](#).

Influence of Market Conditions

The housing strategy must indicate how the characteristics of the housing market have influenced grantee decisions to use funds for rental assistance, production of new units, rehabilitation of old units, and the acquisition of existing units. This requirement is fulfilled on [SP-30 Influence of Market Conditions](#).

Anticipated Resources

The plan must estimate the resources that will be available to address the grantee's priority needs. The level of resources available will play a key role in determining strategies and goals. Grantees should consider all resources within the jurisdiction's control that can be reasonably expected to be available,

including federal, state, and local resources. This requirement is fulfilled on [SP-35 Anticipated Resources](#).

Institutional Delivery Structure

The Strategic Plan must provide a concise summary of the organizations that will carry out the identified objectives. While it is not necessary to identify every potential subrecipient and partner, the plan should describe the framework of organizations that will carry out the plan. This requirement is fulfilled on [SP-40 Institutional Delivery Structure](#).

Goals

The plan must include summaries of the objectives the grantee intends to initiate and/or complete during the timeframe of the Consolidated Plan. For each objective, grantees must identify proposed accomplishments and outcomes in quantitative terms. To assist with this, grantees must use one or more of the 22 Goal Outcome Indicators (GOI) to specify proposed numeric accomplishments the jurisdiction hopes to achieve over the course of the Strategic Plan. The goals should specifically address the priority needs. Much like the priorities, the Consolidated Plan Template provides grantees a great deal of flexibility in establishing goals in that the grantee may determine the number of goals and how the goals are defined. This requirement is fulfilled on [SP-45 Goals](#).

Public Housing

The plan must include the jurisdiction's plan to meet the needs of public housing residents and public housing developments. This requirement is fulfilled on [SP-50 Public Housing](#).

Barriers to Affordable Housing

The plan must identify strategies for removing or ameliorating any negative effects of public policies that serve as barriers to affordable housing identified on [MA-40 Barriers to Affordable Housing](#). Such policies include tax policy affecting land and other property, land use controls, zoning ordinances, building codes, fees and charges, growth limits, and policies that affect the return on residential investment. This requirement is fulfilled on [SP-55 Barriers to Affordable Housing](#).

Homelessness Strategy

The plan must describe the jurisdiction's strategy for reducing and ending homelessness through outreach, shelter activities, rapid re-housing, and homeless prevention. The strategies should consider both the housing and supportive services needed in each stage of the process. This requirement is fulfilled on [SP-60 Homelessness Strategy](#).

Lead-based Paint Hazards

The plan must outline the jurisdiction's proposed actions to evaluate and reduce lead-based paint hazards and how housing policies and programs will address this issue. This requirement is fulfilled on [SP-65 Lead-based Paint Hazards](#).

Anti-Poverty Strategy

The plan must provide a concise summary of the jurisdiction's goals, programs, and policies for reducing the number of poverty-level families. The plan should also address how housing programs funded through the Consolidated Plan will be coordinated with the jurisdiction's other programs and services in order to reduce the number of poverty-level families. These policies may include the jurisdiction's policies for providing employment and training opportunities to Section 3 residents pursuant to 24 CFR part 135. This requirement is fulfilled on [SP-70 Anti-Poverty Strategy](#).

Colonias Strategy (for States bordering Mexico)

State grantees who border Mexico (Texas, Arizona, California, and New Mexico) set aside up to ten percent of their state CDBG funds for colonias. The set-aside funds are used for all CDBG-eligible activities that meet the needs of colonias. This requirement is fulfilled on [SP-75 Colonias Strategy](#).

Monitoring

The plan must describe the standards and procedures the jurisdiction will use to monitor their housing and community development projects and ensure long-term compliance with program and comprehensive planning requirements. This requirement is fulfilled on [SP-80 Monitoring](#).

OVERVIEW

At a minimum, grantees must use this screen to discuss how investments are allocated geographically.

While not required, grantees are encouraged to identify any locally designated areas where geographically targeted revitalization efforts are carried out through multiple activities in a concentrated and coordinated manner. For the purpose of the Consolidated Plan, local target areas are loosely defined and do not need to conform to a set of standards. Target areas allow grantees to communicate a higher priority for one or more areas over the jurisdiction as a whole and to call out priority needs and goals for specific geographic areas. Local target areas include but are not limited to redevelopment areas, Neighborhood Stabilization Program (NSP) target areas, and transit-oriented development areas.

In addition, CDBG entitlement grantees may elect to designate a Neighborhood Revitalization Strategy Area (NRSA). If HUD approves such a strategy, the jurisdiction can obtain greater flexibility in the use of the CDBG funds in the revitalization area(s) as described in 24 CFR part 570, subpart C. Similarly, CDBG grantees can receive greater regulatory flexibility by working with Community Development Financial Institutions (CDFIs) within their target areas.

SP-25 Priority Needs

OVERVIEW

The plan must indicate the general priorities for allocating investment of available resources among different needs. **Priority needs** are those that will be addressed by the goals outlined in the Strategic Plan. Before the Consolidated Plan Template, grantees used the HUD-prescribed tables to indicate priorities. For example, Table 2A Priority Housing Needs allowed grantees to indicate priority by tenure, household type, and income level. Table 2B Community Development Needs allowed CDBG grantees to indicate priority among eligible CDBG activities.

In the Consolidated Plan Template, grantees still must set general priorities among different activities and needs, but the format is much less structured than the prescribed tables. Grantees can determine the number of priority needs to add. HUD has not issued guidance on how to structure this information. Grantees may choose to organize their priority needs according to the structure presented in the regulations at 24 CFR 91.215:

- Affordable Housing
 - Rental assistance
 - Production of new units
 - Rehabilitation of existing units
 - Acquisition of existing units
- Homelessness
 - Outreach
 - Emergency shelter and transitional housing
 - Rapid Re-housing
 - Prevention
- Non-housing Community Development
 - Public Facilities
 - Public Improvements and Infrastructure
 - Public Services
 - Economic Development

For each priority need, the jurisdiction can indicate one or more populations to be served according to income, family type, homeless population, and special need. In addition, each priority need will be

assigned a priority level of “low” or “high.” The priority level simply indicates relative preference among the needs listed. Jurisdictions have the option of using the narrative sections to elaborate on the meaning of “low” and “high.” For example, a jurisdiction may state that it plans on using available resources described in the plan to address “high” priorities and expects other funding sources or community stakeholders to address “low” priorities.

The plan must also discuss the rationale for establishing the allocation priorities given to each priority need. The rationale should flow logically from the analysis of information in the Needs Assessment, Market Analysis, and the information gathered during the consultation and citizen participation process.

OVERVIEW

The plan must describe how the characteristics of the housing market influenced the jurisdiction's decisions regarding allocation priorities among the types of housing assistance:

- Rental assistance
- Production of new units
- Rehabilitation of existing units
- Acquisition of existing units (including the preservation of affordable housing units)

The allocation priorities must also factor in the severity of housing problems and needs of renters and owners by income level (extremely low-income, low-income, and moderate-income), persons at risk of homelessness, and homeless persons. For the purpose of this section, household and income types may be grouped together where the analysis would apply to more than one of them.

If the grantee intends to use HOME funds for tenant-based assistance, the grantee must specify local market conditions that led to this decision.

DATA ENTRY: INFLUENCE OF MARKET CONDITIONS

For each of the following types of affordable housing programs, describe the housing market characteristics that will influence the use of funds available for housing type. Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description

OVERVIEW

The plan must identify the federal, state, local, and private resources expected to be available to the jurisdiction to address priority needs and specific objectives identified in the Strategic Plan, including the following:

- Entitlement allocations and anticipated program income for:
 - CDBG
 - HOME
 - ESG
 - HOPWA
- Section 8 funds
- Low-Income Housing Tax Credits
- Competitive McKinney-Vento Homeless Assistance Act funds
- HOME match
- ESG match

This section of the plan should also describe how federal funds will leverage additional resources, including a narrative description of how matching requirements of the HUD programs will be satisfied.

STATE GRANTEE INSTRUCTIONS

For state grantees, the plan must describe the strategy to coordinate the Low-Income Housing Tax Credit with the development of housing that is affordable to low-income and moderate-income families.

OVERVIEW

The plan must provide a concise summary of the organizations that will carry out the objectives outlined in the Strategic Plan. This group of organizations, known as the jurisdiction's **institutional structure**, may include, but is not limited to:

- Departments of the jurisdiction
- Other government agencies, such as Consortia members
- Nonprofit organizations
- Community and faith-based organizations
- Philanthropic organizations
- Private industry
- Continuum of Care that serve the grantee's jurisdiction

The plan should also include a brief assessment of the strengths and gaps of the institutional structure in terms of its ability to carry out the Strategic Plan and any actions that the jurisdiction will undertake to overcome gaps and weaknesses in the institutional structure.

DATA ENTRY: INSTITUTIONAL STRUCTURE TABLE

Grantees must use the Institutional Structure Table to list the agencies that will be involved in implementing the plan. Use the <Add Another> button to insert additional rows in the table. Grantees are not required to specify every organization that will be involved in the program delivery of funded activities. It is understood that some organizations will not be selected to participate until after the plan has been approved. At a minimum, grantees should identify the lead agency and other organizations that will play a major role in administering funded activities.

SP-45 Goals

Regulation Citation: 24 CFR 91.215(a)(4), 91.315(a)(4), 91.415

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

For local jurisdictions, the plan must summarize its priorities and the specific goals it intends to initiate and/or complete within the term of the Strategic Plan. Each goal must use one or more Goal Outcome Indicators to describe in quantitative terms what the jurisdiction hopes to achieve. The plan should be explicit about what the jurisdiction intends to do with formula grant funds in the context of its larger strategy.

Much like the priority needs, the template provides grantees a great deal of flexibility in establishing goals in that the grantee determines the number of goals and how the goals are defined. Keep in mind that the goals listed in the Strategic Plan and those in the Action Plan will be tightly linked. In order to be included in the Action Plan, a goal must also appear in the Strategic Plan.

STATE GRANTEE INSTRUCTION

For state grantees, the plan should provide goals to the extent that the grantee is able to do so. HUD recognizes that states generally do not initiate specific projects or activities, but offer programs through which local communities apply for funding to accomplish specific objectives. These local applications are submitted after the Consolidated Plan is submitted to HUD and approved.

SP-50 Public Housing Accessibility and Involvement

Regulation Citation: 24 CFR 91.215(c), 91.315(c), 91.415

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The plan must include a concise summary of the grantee's strategy to address the needs of public housing developments and their tenants. Jurisdictions are allowed to cross-reference pages of relevant documents such as the PHA Plan in order to streamline the Consolidated Plan and make the process less burdensome.

For local government grantees, the plan must include:

- The need to increase the number of accessible units where required by Section 504.
- Strategies to encourage public housing residents to become more involved in management and to participate in homeownership.
- If HUD designates the public housing agency as "troubled," strategies to provide financial or other assistance to improve its operations and remove such a designation.

STATE GRANTEE INSTRUCTION

For state grantees, the plan must do the following:

- For a state in which a state agency administers public housing funds, the plan must describe activities to encourage resident involvement in management and to participate in homeownership.
- The plan must describe how the state will address the needs of public housing.
- If HUD designates a public housing agency located within the non-entitlement portion of the state as "troubled," the strategy for the state must describe the manner in which the state or unit of general local government will provide financial or other assistance to improve the public housing agency's operations and remove the "troubled" designation.

DATA ENTRY: NARRATIVE

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
!	Need to Increase the Number of Accessible Units (if Required by a Section 504 Voluntary Compliance Agreement)	Describe, if required by a Section 504 Voluntary Compliance Agreement, the need to increase the number of accessible units.

!	Is the public housing agency designated as troubled under 24 CFR part 902?	Answer Yes, No, or Not Applicable (N/A).
!	Plan to remove the 'troubled' designation	If the grantee's public housing agency is troubled, describe the manner in which the state or unit of local government will provide financial or other assistance to improve the agency's operations and to remove such designation.

SP-55 Barriers to Affordable Housing

Regulation Citation: 24 CFR 91.215(h), 91.315(h), 91.415

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The plan must identify strategies for removing or ameliorating negative effects of public policies that serve as barriers to affordable housing identified on MA-40 Barriers to Affordable Housing. Such policies include tax policy affecting land and other property, land use controls, zoning ordinances, building codes, fees and charges, growth limits, and policies that affect the return on residential investment. HUD has established a regulatory barrier clearinghouse at <http://www.huduser.org/rbc> that provides examples of how communities can identify and remove barriers to affordable housing.

SP-60 Homelessness Strategy

Regulation Citation: 91.215(d), 91.315(d), 91.415

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The plan must describe the jurisdiction's strategy for reducing and ending homelessness through:

- Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs
- Addressing the emergency shelter and transitional housing needs of homeless persons
- Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living
- Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families who are:
 - Likely to become homeless after being discharged from publicly funded institutions and systems of care
 - Receiving assistance from public and private agencies that address housing, health, social services, employment, education, or youth needs

The strategies should consider both the housing and supportive services needed in each stage of the process. Many elements of the Continuum of Care plan (homeless needs, inventory, strategy, and priorities) correspond to the homeless elements required by the Consolidated Plan. HUD guidelines and guidance seek to integrate the two planning processes and to use the CoC information in developing the Consolidated Plan. A jurisdiction may attach relevant portions of the CoC plan and include any supplementary information necessary to complete the Consolidated Plan, such as the CoC Housing Inventory Chart, Service Activity Chart, the discharge coordination policy, and plans to end homelessness or chronic homelessness.

Where the CoC geography is not contiguous with a jurisdiction's geography, the relevant parts of the CoC plan should be apportioned to the grantee's jurisdiction. States may consider including a combination of goals from all of the CoCs in the state, focusing on the Balance of State CoC goals (if applicable), and/or including the goals from the State Interagency Plan or Statewide 10-year plan.

DATA ENTRY: NARRATIVE

The table below describes the data entry fields for this screen. Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Describe how the jurisdiction's strategy and how the Strategic Plan goals contribute to the strategy for the following:	
!	Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs.	Describe the jurisdiction's strategy for reaching out to homeless persons and assessing their individual needs.
!	Addressing the emergency shelter and transitional housing needs of homeless persons.	Describe the jurisdiction's strategy for addressing the emergency shelter and transitional housing needs of homeless persons.
!	Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.	Describe the jurisdiction's strategy for rapid-rehousing.
!	Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.	Describe the jurisdiction's strategy for homelessness prevention.

SP-65 Lead-based Paint Hazards

Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The plan must outline the following in regard to lead-based paint hazards:

- Proposed actions to evaluate and reduce lead-based paint hazards
- Proposed actions to increase access to housing without such health hazards
- How the proposed actions will be integrated into housing policies and programs

In addition, non-state grantees must address how the proposed actions are related to the extent of lead poisoning and hazards.

SP-70 Anti-Poverty Strategy

Regulation Citation: 24 CFR 91.215(j), 91.315(j), 91.415

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The plan must provide a concise summary of the jurisdiction's goals, programs, and policies for reducing the number of poverty-level families. The plan should focus on activities designed to reduce the number of persons in poverty rather than on services provided to persons in poverty. In addition, the plan should focus on factors over which the jurisdiction has control, including:

- The coordination of housing programs funded through the Consolidated Plan with the jurisdiction's other programs and services in order to reduce the number of poverty-level families
- Job training, job placement, life skills training, and welfare to work programs designed to reduce the number of poverty-level families
- The jurisdiction's policies for providing employment and training opportunities to Section 3 residents pursuant to 24 CFR 135

STATE SPECIFIC INSTRUCTION

A state grantee's plan must provide a concise summary of the state's anti-poverty efforts and how the housing components of the Consolidated Plan will be coordinated with other programs, such as Temporary Assistance for Needy Families, and employment and training programs. State grantees can satisfy this requirement by citing statewide plans and other relevant planning documents.

DATA ENTRY: NARRATIVE

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?				<input checked="" type="checkbox"/>		

OVERVIEW

A colonia is defined as any identifiable community in the United States–Mexico border regions of Arizona, California, New Mexico, and Texas that has inadequate sewage systems, no potable water supply, and a shortage of decent, safe, and sanitary housing. The border region includes the area within 150 miles of the U.S.–Mexico border excluding metropolitan statistical areas with populations exceeding one million.

Texas, Arizona, California, and New Mexico set aside up to 10 percent of their state CDBG funds to be spent in colonias communities. The set-aside funds are used for all CDBG-eligible activities that meet the needs of colonias. Common uses of these funds include water system and sewer improvements and housing assistance.

FIRST-YEAR ACTION PLAN

In the Action Plan, the jurisdiction must provide a concise summary of the actions, activities, and programs that will take place during the program year to address the priority needs and goals identified by the Strategic Plan. In the template, the information collected for the first-year Action Plan will differ slightly from other years in that some of the sections have been integrated into the Consolidated Plan and are not repeated in the Year 1 Action Plan. These include the Executive Summary, Consultation, and Citizen Participation sections. The Year 1 Action Plan Template contains the following sections:

- AP-15 Expected Resources
- AP-20 Annual Goals and Objectives
- AP-25 Allocation Priorities (States Only)
- AP-30 Method of Distribution (States Only)
- AP-35 Projects
- AP-40 Section 108 Loan Guarantee (States Only)

OVERVIEW

For local jurisdictions, the plan must summarize the specific goals it intends to initiate and/or complete within the term of the program year. Each goal must use one or more of the Goal Outcome Indicators to describe in quantitative terms what the jurisdiction hopes to achieve. The plan should be explicit about what the jurisdiction intends to do with formula grant funds in the context of its larger strategy.

STATE GRANTEE INSTRUCTION

For state grantees, the plan should provide goals to the extent that states are able to do so.

A goal must be listed in the Strategic Plan on SP-45 Goals in order to be included in the Action Plan. A jurisdiction can only have one annual goal for each Strategic Plan goal.

AP-25 Allocation Priorities (States Only)

Regulation Citation: 24 CFR 91.320(d)

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?				<input checked="" type="checkbox"/>		

OVERVIEW

For state grantees, the plan must describe the reasons for its allocation priorities and how the proposed distribution of funds will address the priority needs and goals of the Strategic Plan. In the template, a state will be asked to express its allocation priorities by assigning a percentage of each CPD grant to each goal. The level of detail in these sections does not have to be extensive as long as the details are contained in other readily available state documents.

DATA ENTRY: INTRODUCTION

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Introduction	Use the Introduction to provide highlights and key points of the funding allocation priorities.

DATA ENTRY: FUNDING ALLOCATION PRIORITIES TABLE

In this table, state grantees will indicate the percentage of funds expected to be allocated to each goal for each funding source.

OVERVIEW

The Action Plan must provide a concise summary of the eligible programs or activities that will take place during the program year to address the priority needs and specific objectives identified in the Strategic Plan. In the template, each eligible program/activity is called a **project**.

The jurisdiction should include enough detail for each project so that HUD may determine that the project is an eligible use of the proposed funding source. Each project must be associated with one or more priority needs and one or more goals. The jurisdiction must use one or more of the Goal Outcome Indicators to describe the planned accomplishments and indicate a target date for realizing the accomplishment.

Jurisdictions that receive ESG should use one project to describe all ESG funding. The system will display an error if the jurisdiction adds a second project with ESG funding.

This section will replace the former table 3C.

STATE SPECIFIC INSTRUCTION

Project-level detail is not required for a state grantee's Annual Action Plan. Once a state grantee has allocated funding via its Method of Distribution, the state grantee will use the Projects sub-menu in IDIS Online to add its projects for the program year.

However, State grantees should note that in order for accomplishments to associate to the goals listed in the plan, projects must be entered in the Action Plan template. Given this, it will be necessary to amend the plan and resubmit it after the projects have been added.

DATA ENTRY: NARRATIVE

The table below describes the data entry fields for this screen. Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

AP-40 Section 108 Loan Guarantee (States Only)

Regulation Citation: 24 CFR 91.320(k)(1)(ii)

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?				<input checked="" type="checkbox"/>		

OVERVIEW

For state grantees, the plan must indicate if the state plans on allowing Units of General Local Government (UGLG) to apply for Section 108 Loan Guarantees available through CDBG. These loan guarantees provides communities with a source of financing for economic development, housing rehabilitation, public facilities, and large-scale physical development projects. Borrowed funds are guaranteed by future CDBG allocations to cover the loan amount as security for the loan.

States may choose to identify one or more specific UGLGs to be assisted or may indicate that all or a specified subset of UGLGs are eligible for assistance and describe how applications will be selected for assistance.

DATA ENTRY: NARRATIVE

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
!	Will the state help non-entitlement units of general local government to apply for Section 108 loan funds?	Yes or No.
!	If yes, describe available grant amounts.	Describe the level of assistance available to UGLGs, the types of programs eligible for assistance, the national objective(s) to be met, and the planned repayment for the amount of funds borrowed.
!	If yes, describe how applications will be accepted.	Describe the state's process for selecting applications from its UGLGs.

AP-45 Community Revitalization Strategies (States Only)

Regulation Citation(s): 24 CFR 91.320(k)(1)(ii)

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?				<input checked="" type="checkbox"/>		

OVERVIEW

For state grantees, the plan must indicate if the state plans on allowing Units of General Local Government (UGLG) to apply for a Community Revitalization Strategy designation. Such designation provides the state and UGLG regulatory flexibility in satisfying the eligibility and national objective requirements of the CDBG program.

If a state elects to allow revitalization strategies in its program, the plan must describe the state's process and criteria for approving local government's revitalization strategies. A state must approve a local government's revitalization strategy before it may be implemented.

DATA ENTRY: NARRATIVE

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Will the state allow units of general local government to carry out community revitalization strategies?	Yes or No.
	Describe the state's process and criteria for approving local government's revitalization strategies.	Self-explanatory.

AP-48 Method of Distribution for Colonias Set-Aside (States with Colonias Only)

Regulation Citation: 91.320(d)&(k), see also HUD Notice CPD 11-001

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?				<input checked="" type="checkbox"/>		

OVERVIEW

State grantees that border Mexico (Texas, Arizona, California, and New Mexico) may set aside up to ten percent of their state CDBG funds for colonias. A colonia is defined as any identifiable community in the United States–Mexico border regions of Arizona, California, New Mexico, and Texas that has inadequate sewage systems, no potable water supply, and a shortage of decent, safe, and sanitary housing. The set-aside funds are used for all CDBG-eligible activities that meet the needs of colonias. Common uses of these funds include water system and sewer improvements and housing assistance.

This screen collects information about the state’s method of distribution specifically for colonias.

OVERVIEW

STATE GRANTEE INSTRUCTION

For state grantees, the plan must describe the geographic areas of the state in which it will direct assistance during the ensuing program year and provide rationale for its priorities in allocating investment geographically.

For a local jurisdiction, this screen is only required if geography was used to determine funding allocation priorities or if it identified one or more target areas in the Strategic Plan.

AP-55 Affordable Housing

Regulation Citation(s): 24 CFR 91.220(g), 91.320(g), 91.420

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The Action Plan must specify goals for the number of homeless, non-homeless, and special needs households to be provided affordable housing within the program year. The plan must also indicate the number of affordable housing units that will be provided by program type, including rental assistance, production of new units, rehabilitation of existing units, or acquisition of existing units. For the purpose of this section, the term “affordable housing” is defined in the HOME regulations at 24 CFR 92.252 for rental housing and 24 CFR 92.254 for homeownership.

This section replaces table 3B.

DATA ENTRY

For each goal listed, estimate the number of homeless households that will be helped in the program year with **housing assistance**. This includes:

- Rental assistance
- Production of new units
- Rehabilitation of existing units
- Acquisition of existing units

This estimate should not include the provision of emergency shelter, transitional shelter, or social services. For goals by Program Type, each assisted unit should only be included under one Program Type. For example, report the unit once under either Acquisition or Rehabilitation if the jurisdiction administers a program that acquires vacant units for rehabilitation and resale; do not report the unit under both Acquisition and Rehabilitation.

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Introduction	Use this field to provide a short overview of the jurisdiction's planned actions and to emphasize key points regarding the topics listed on the page.
One-Year Goals for the Number of Households to be Supported (by Population Type):		
!	Homeless	Enter the annual goal for housing assistance for units reserved for homeless individuals and households.
!	Non-Homeless	Enter the annual goal for housing assistance for all units NOT reserved for homeless individuals and households.
!	Special Needs	Enter the annual goal for housing assistance for units reserved for households that are not homeless but require specialized housing or supportive services.
!	Total	System calculated. The total for population type should equal the total below for program type.
One-Year Goals for the Number of Households Supported Through (by Program Type):		
!	Rental Assistance	Enter the annual goal for housing assistance for programs such as tenant-based rental assistance (TBRA) and one-time payments to prevent homelessness.
!	Production of New Units	Enter the annual goal for the construction of new units, including the conversion of non-residential properties.
!	Rehab of Existing Units	Enter the annual goal for the rehabilitation of existing units, including reconstruction. If the unit will be acquired and rehabilitated, report the unit only once. Do not report the unit under both Acquisition and Rehabilitation.
!	Acquisition of Existing Units	Enter the annual goal for housing assistance for programs such as down payment assistance. If the unit will be acquired and rehabilitated, report the unit only once. Do not report the unit under both Acquisition and Rehabilitation.
!	Total	System calculated. The total for program type should equal the total above for population type.

OVERVIEW

This section should describe what actions the grantee will take in the given program year to carry out the public housing portion of the Strategic Plan. The jurisdiction must identify the manner in which its plan will address the needs of public housing during the program year. If the public housing agency is designated as "troubled" by HUD or otherwise is performing poorly, the jurisdiction must describe the manner in which it will provide financial or other assistance to improve the operations of the public housing agency to remove such a designation.

DATA ENTRY: NARRATIVE

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Introduction	Use this field to provide a short overview of the jurisdiction's planned actions and to emphasize key points regarding the topics listed on the page.
!	Actions planned during the next year to address the needs of public housing residents	Briefly describe any actions planned to address the needs of public housing residents. Indicate if any funded projects will address the needs of public housing residents.
! AP-65 Homeless and Other Special Needs Activities

Regulation Citation(s): 24 CFR 91.220(i), 91.320(h), 91.420

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The Action Plan must describe the jurisdiction's one-year goals and the specific actions steps it will undertake in the program year to carry out the homeless strategy outlined in SP-60 Homelessness Strategy.

The Action Plan must also describe the jurisdiction's one-year goals and specify the activities it will undertake to serve the housing and supportive service needs of non-homeless populations who require supportive housing. While this screen does not have fields that specifically address special needs goals, this information can be included in the Introduction and/or the Discussion narratives.

DATA ENTRY: NARRATIVE

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Introduction	Use this field to provide a short overview of the jurisdiction's planned actions and to emphasize key points regarding the topics listed on the page. If the jurisdiction's Strategic Plan includes goals and objectives that will serve the needs of special needs populations who require supportive housing, include a description of the proposed actions.
	Describe the jurisdiction's one-year goals and actions for reducing and ending homelessness including:	
!	Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs.	Describe actions planned to address reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs. Describe the link between the actions and the one-year goals.

*!	Field	Description
!	Addressing the emergency shelter and transitional housing needs of homeless persons.	Describe the grantee’s actions planned to address emergency shelter and transitional shelter needs for the homeless (individual and families), including domestic violence shelters, residential programs for runaway/homeless youth, and hotel/motel/apartment voucher arrangements paid by a public/private agency because a person or family is homeless. Describe the link between the actions and the one-year goals.
!	Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.	Describe grantee actions to support the transition from shelter or transitional housing to permanent housing or independent housing, particularly for chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth. This may include shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again. Discussion should also include a description of appropriate supportive housing for persons leaving mental/physical health facilities. Describe the link between the actions and the one-year goals.
!	Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.	Describe grantee specific actions planned to address the prevention of homelessness for those in greatest need. Describe the link between the actions and the one-year goals.

OVERVIEW

State grantees who border Mexico (Texas, Arizona, California, and New Mexico) may set aside up to ten percent of their state CDBG funds for colonias. A colonia is defined as any identifiable community in the United States–Mexico border regions of Arizona, California, New Mexico, and Texas that has inadequate sewage systems, no potable water supply, and a shortage of decent, safe, and sanitary housing. The set-aside funds are used for all CDBG-eligible activities that meet the needs of colonias. Common uses of these funds include water system and sewer improvements and housing assistance.

This screen collects information about the state’s proposed actions for colonias, including those that:

- Address obstacles to meeting underserved needs
- Reduce the number of poverty-level families
- Develop institutional structure
- Enhance coordination between public and private housing and social service agencies

OVERVIEW

The plan must describe the jurisdiction's planned actions to carry out the following strategies outlined in the Consolidated Plan:

- Foster and maintain affordable housing
- Evaluate and reduce lead-based paint hazards
- Reduce the number of poverty-level families
- Develop institutional structure
- Enhance coordination

In addition, the jurisdiction must identify obstacles to meeting underserved needs and propose actions to overcome those obstacles.

OVERVIEW

This section addresses the program-specific requirements for the Annual Action Plan. The Consolidated Plan Final Rule contains requirements regarding program-specific narratives in the Action Plan for CDBG and HOME.

DATA ENTRY: INTRODUCTION

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Introduction	Use this field to provide a short overview of the jurisdiction's planned actions and to emphasize key points regarding the topics listed on the page.

DATA ENTRY: CDBG

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
!	1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed.	Indicate all program income received, amount receipted into IDIS Online, and amount not yet committed to activities.

*!	Field	Description
!	2. The amount of proceeds from Section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's Strategic Plan.	If the jurisdiction has an open Section 108 project, provide a summary of the project. The summary should include the project name, a short description, and current status of the project, as well as the amount of the Section 108 loan. Also include: if there is an EDI or BEDI grant and the amount; the total amount of CDBG assistance provided for the project; the national objective code(s); matrix code(s); if the NOC has been met; if project status is complete; number of beneficiaries (jobs created/retained, number of FTE jobs held by/made available to LMI persons); and number of households assisted, and of those the number, how many are LMI.
!	3. The amount of surplus funds from urban renewal settlements.	Indicate the amount of funds from urban renewal settlements. This will typically be \$0.
!	4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan.	Indicate any funds returned to the grantee line of credit for which the planned use has not been included in a prior Action Plan. Funds returned may be a result of ineligible activities, excessive draws, or ineligible expenditures.
!	5. The amount of income from float-funded activities.	Indicate the amount of funds relieved as income from float-funded activities.
!	Total Program Income	System calculated.
!	The amount of urgent need activities.	Indicate the amount of funds planned for urgent need, identify the activity(s) in the Action Plan, and certify that the activity is designed to meet urgent community development needs because existing conditions pose a serious and immediate threat to the health or welfare of the community and because other financial resources are not available.
!	The estimated percentage of CDBG funds that will be used for activities that benefit persons of low- and moderate-income.	Indicate the percentage of funds from the CDBG grant that will be spent on LMI beneficiaries. 70% is the minimum.
!	Overall Benefit: A consecutive period of 1, 2, or 3 years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low- and moderate-income. Specify the years covered that include this Action Plan.	Indicate the consecutive period (1, 2, or 3 years) the grantee has elected for the overall benefit period that includes the current Action Plan. Period of 1, 2, or 3 years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low- and moderate-income.

DATA ENTRY: HOME

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

REVIEWING AND SUBMITTING THE CONSOLIDATED PLAN

Once a jurisdiction has completed the data entry screens, it is recommended that it takes the following actions to review and submit the plan:

- Return to the Administration screen and add the attachments to the plan. The plan must include a SF-424 and the appropriate certifications for each CPD grant that the jurisdiction will receive, as well as citizen participation comments. Both the SF-424 and the certifications must be signed by the grantee's highest elected official and hard copies with original signatures must be mailed to HUD. Optional attachments include:
 - Cover Page Image
 - Report Header Icon
 - Page Header
 - Unique Appendices
- Return to the Administration screen to run the Quality Check. This feature provides a summary of errors and warnings, including a list of the fields that were not answered and discrepancies between different sections of the plan, such as when a priority need does not have an associated goal. Each error and warning will identify the screen that contains the issue (i.e. SP-10). Jurisdictions may find it helpful to print this screen and address each item listed. Errors and warnings will not prevent a jurisdiction from submitting its plan for review, but the jurisdiction is encouraged to review each item before submission. For a complete list of potential errors and warnings, please refer to [Appendix A](#).

Consolidated Plan

To submit the plan, return to the Administration screen and update the status of the plan from “Open in Progress” to “Submitted for Review.” Once the plan has been submitted, the jurisdiction will no longer be able to edit the information in the template.

The HUD Field Office staff person designated as the HUD Field Office Acceptor will receive an e-mail that the jurisdiction has updated the plan’s status. The Field Office Acceptor will review the submitted plan and approve or reject it. If rejected, the plan’s status will update to “Reviewed and Awaiting Modifications.” This will allow the jurisdiction to make necessary changes and revisions to the plan and to submit it again. If approved, the Field Office Acceptor updates to “Review Completed” and the information in the template will remain read-only.

When grantees amend an approved plan, both the amended plan and the previous version of the plan will be saved and available for viewing.

SECTION IV: THE ACTION PLAN TEMPLATE

The Action Plan Template is not required until grantees use the Consolidated Plan Template or exercise the option to enter a stand-alone Action Plan for a paper-based Consolidated Plan. The template is designed to collect the information required by the Consolidated Plan regulations found in 24 CFR Part 91.

The Action Plan Template is used in the following scenarios:

- Grantees participating in a Regional Strategy Consolidated Plan
- Grantees using IDIS to submit an Annual Action Plan for Year 2, 3, 4, or 5 of a Consolidated Plan

Grantees who have not used IDIS to submit the Consolidated Plan may still opt to use the Action Plan Template to prepare a submission for Year 2, 3, 4, or 5 of a Consolidated Plan not loaded into IDIS Online. These “stand-alone” Action Plans include three screens from the Strategic Plan section of the Consolidated Plan: [SP-10 Geographic Priorities](#), [SP-25 Priority Needs](#), and [SP-45 Goals](#).

ADDING AN ANNUAL ACTION PLAN

To add a new Annual Action Plan to IDIS Online:

1. Click on Plans/Projects/Activities in the Main Menu bar. By default, the system will display the Search Activities screen. On the left side of the screen, the system will display the sub-menus for Activities, Projects, Consolidated Plans, and Action Plans. If the Consolidated Plan and Action Plan menus do not appear, check with the local IDIS administrator to make sure the user’s IDIS user profile has been assigned access for these screens.
2. To add a new Action Plan, click on Add in the Annual Action Plan sub-menu. The system will display the Administration screen.
3. Complete the Administration screen using the information below. Each required field is marked with an asterisk (*). Grantees can leave non-required fields blank and provide this information later.

*!	Field	Description
*	AAP Program Year	Enter the program year. For most grantees, this is the calendar year in which their program year begins. For example, if the grantee’s program year is July 1, 2012, through June 30, 2013, the program year is 2012.
*	AAP Title	Enter a title. The title will be displayed on the cover and at the top of each page of the printed report.

*!	Field	Description
*	AAP Plan Version	Enter a unique version. This field is alpha-numeric and can contain up to twenty characters. This field is listed in the search results and can be used to differentiate between different drafts of a plan.
	If Amendment	Only a grantee user can identify the type of plan amendment (n/a, Substantial, Minor) being made. The default is n/a. When an amendment is indicated, the system will provide a dialog box with the definition of a Substantial Amendment and will indicate that Substantial Amendments require citizen participation and HUD approval. Amendments must be submitted to the Field Office for their records and approval (if substantial). Even minor amendments must be submitted to the field office so that they can change the status of the amended plan to "Review Completed". While there is no requirement for HUD to approve minor amendments, the status of the Action Plan must be changed to "Review Completed" in order for the amendments to be reflected in the CAPER.
*	Programs Included	The system will place a check next to each program (CDBG, HOME, ESG, HOPWA) that the jurisdiction receives. The user may change the default selection. At least one selection must be indicated. The Quality Check will provide a warning if the programs selected do not match the grantee's allocations in IDIS.
*	Is this Annual Action Plan associated with a Consolidated Plan?	If the Action Plan is for the second, third, fourth, or fifth year of a Consolidated Plan already entered into IDIS, select Yes and click the Associate with Con Plan button. If the Action Plan will not be associated with a Consolidated Plan in the system (i.e. a stand-alone Action Plan), select no. Participants in Regional Strategies who are not the lead grantee should associate their Annual Action Plan with the Consolidated Plan created by the lead grantee here.

- When finished, click on the <Save> button at the bottom of the screen. Once a plan is saved, the status is set to "Open—in Progress" and the user will be taken to the Annual Action Plan Menu screen that will list all of the data entry screens. Below is a screenshot of the Annual Action Plan menu for a stand-alone Action Plan. The menu for an Action Plan associated with a Consolidated Plan is the same except for the Strategic Plan section, including [SP-10 Geographic Priorities](#), [SP-25 Priority Needs](#), and [SP-45 Goals](#).

COPYING AN ANNUAL ACTION PLAN

Grantees have the option of copying data from one version of the Action Plan into a new version. Grantees can use this feature to copy the information in an Action Plan from one year to a new year (i.e. 2012 to 2017) or to submit a Substantial Amendment to the existing Action Plan.

The new copy of the Action Plan will include any attachments and all additional content, such as images, maps, and text boxes that were inserted throughout the template. If the Action Plan that is copied is associated with a Consolidated Plan in the system, the copy will be associated with the same plan. If the Action Plan that is copied is stand-alone (not associated with a Consolidated Plan in the system), the information in the Action Plan's Geographic Priorities, Priority Needs, and Goals screens will be copied as well.

If the grantee is a consortia with participants, only the consortia lead can copy the plan. When the lead copies the plan, any participant Action Plans are copied as well. Consortia Participants cannot copy their plans. If the source Action Plan is a Regional Plan, the clone will be a Regional Consolidated Plan as well. The Copy function only works for the same grantee; the system cannot copy one grantee's plan to another.

If Amendment: *

Take the following steps to copy an Action Plan:

1. Go to Plan/Projects/Activities in the Main Menu. In the Action Plan sub-menu, click Search.
2. Click <Search> to bring up all existing Action Plans. Make note of the program year and version name for the plan to be copied (called the “Source Plan”).
3. On the left-hand Action Plan sub-menu, click <Copy>.
4. In the copy screen, enter the Source Action Plan’s Program Year and Version. The Source Action Plan is the plan that will be copied. Please note that the Version is case-sensitive (see screenshot above).
5. Enter the Program Year and Version for the new copy of the plan. The combination of the Year and Version for the new plan must be different than any of the grantee’s existing plans (once set on this screen, the version identifier cannot be modified). If the new copy is an amendment (Substantial or Minor) to the existing plan, the Program Year must be the same as the Source Program Year.
6. Designate if the copy of the plan is an amendment. If the copy is not an amendment, select the default NA. Otherwise, select Minor or Substantial. A Minor amendment is any change that does not meet the threshold for a Substantial Amendment as outlined in the grantee’s Citizen Participation Plan.
7. Click the <Copy> button. The system will create a copy of the plan and display a list of all of the grantee’s Action Plans. The title of the copied plan defaults to “AAP Copy.” This can be changed on the AD-26 Administration screen.
8. Locate the new copy of the plan and click <Edit>.
9. Click on the link for the AD-26 Administration screen.
10. Update the plan’s title.
11. If the copy is a Substantial Amendment, the screen will include a text box labeled “Explanation of Substantial Amendment Changes” immediately following the existing Substantial Amendment checkbox. The information provided in this text box will not appear on the printed version of the plan. The grantee can use this space to communicate to the Field Office a summary of the amendments made to the plan.
12. When finished editing the screen, click <Save and Return> to save any changes.

EDITING AN ANNUAL ACTION PLAN

To edit an existing Action Plan in IDIS Online:

1. Click on <Plans/Projects/Activities> in the Main Menu bar. By default, the system will display the Search Activities screen. On the left side of the screen, the system will display the sub-menus for Activities, Projects, Consolidated Plans, and Action Plans. If the Consolidated Plan and Action Plan menus do not appear, check with the local IDIS administrator to make sure the user's IDIS user profile has been assigned access for these screens.
2. Click on <Search> in the Action Plan submenu. The system will display a search screen. Provide search parameters in the Year and Status fields and click <Search>. If no results appear, clear search parameters and search without any specified parameters.
3. Once the system displays the list of plans, click on <Edit> link for the relevant plan. The system will display a menu of links for all the data entry screens for the plan selected.

A description of each screen in the [Action Plan Template](#) is described in Section III: The Consolidated Plan Template. Use the links on the following page to navigate to the description of each page. Please note that some screens in the Action Plan are similar to screens in the Consolidated Plan yet have different screen numbers. For example, AD-26 Administration and AP-05 Executive Summary are the Action Plan equivalents to the Consolidated Plan screens AD-25 Administration and ES-05 Executive Summary, respectively.

Grantees using IDIS to prepare and submit an Action Plan for Year 2, 3, 4, or 5 of a Consolidated Plan not loaded into IDIS Online will need to complete three screens from the Strategic Plan section of the Consolidated Plan: [SP-10 Geographic Priorities](#), [SP-25 Priority Needs](#), and [SP-45 Goals](#). These sections, marked below with an asterisk (*), will need to be completed only for Action Plans that are not associated with a Strategic Plan in IDIS Online.

Items marked with a double asterisk (**) are not included in the First-Year Action Plan because similar information is provided in the Consolidated Plan screens. Please note that [AP-15 Expected Resources](#) for the First-Year Action is read-only since the same information is provided on [SP-35 Anticipate Resources](#) for the Strategic Plan.

REVIEWING AND SUBMITTING THE ACTION PLAN

The steps for reviewing and submitting an Annual Action Plan are the same for submitting a Consolidated Plan. Please refer to "[Reviewing and Submitting the Consolidated Plan](#)" for more details.

SECTION V: THE CAPER TEMPLATE

Once an Annual Action Plan has been submitted in IDIS (either stand-alone or associated with a Consolidated Plan in the system), grantees MUST submit their CAPER/PER via IDIS for that program year.

Within 90 days of the end its program year, a jurisdiction is required to provide an annual report to HUD that summarizes its performance for the program year. Local jurisdictions must prepare a Consolidated Annual Performance and Evaluation Report (CAPER). States prepare a Performance and Evaluation Report (PER).

The performance report must include a description of the resources made available, the investment of available resources, the geographic distribution and location of investments, the families and persons assisted (including the racial and ethnic distribution of persons assisted), actions taken to affirmatively further fair housing, and other actions indicated in the Strategic Plan and the Action Plan.

The importance of timely and accurate performance reports cannot be overstated. Grantees should strive to ensure that all applicable deadlines are met. Performance reporting meets three basic purposes:

- Provides HUD with necessary information to meet its statutory requirement to assess each grantee's ability to carry out relevant CPD programs in compliance with all applicable rules and regulations
- Provides information necessary for HUD's Annual Report to Congress, also statutorily mandated
- Provides grantees an opportunity to describe to citizens their successes in revitalizing deteriorated neighborhoods and meeting objectives stipulated in their Consolidated Plan

NOTE FOR ESG GRANTEEES: Beginning with the Federal Fiscal Year (FFY) 2012 grant, ESG grantees must use the CAPER template to complete the following screens (regardless if the Action Plan is entered in IDIS or not):

- [CR-60 Subrecipient Information](#)
- [CR-65 Persons Assisted ESG](#)
- [CR-70 Assistance Provided](#)
- [CR-75 Expenditures](#)

HUD has provided guidance for portions of the CAPER related to homelessness and the ESG program in CPD Notice 13-06, available online from the www.onecpd.info website at:

<https://www.onecpd.info/resources/documents/Notice-CPD-13-06-Guidance-For-Submitting-Portions-of-CAPER-Related-to-Homelessness-and-ESG-Program.pdf>

In order to use the full CAPER template, the jurisdiction must have an approved Action Plan in IDIS. Once a jurisdiction begins using the Action Plan Template, the use of the CAPER template is required for all plans that have been submitted in IDIS.

The template is designed to satisfy the requirements for both state and local jurisdictions. It contains the following sections:

In addition to the narrative provided in the CAPER template, some jurisdictions must provide IDIS reports as well. Local jurisdictions that receive CDBG funding must include the Financial Summary Report (PR26). A state grantee has the option of using the PR28 report from IDIS or generating its entire report from its own system, as long as the report includes all of the data necessary to meet CDBG program requirements. Additional guidance for state grantees is available in CPD Notice 11-03: <http://portal.hud.gov/hudportal/documents/huddoc?id=11-03cpdn.pdf>

ADDING A CAPER

To add a new CAPER to IDIS Online:

1. Click on Plans/Projects/Activities in the Main Menu bar. By default, the system will display the Search Activities screen. On the left side of the screen, the system will display the sub-menu for the Consolidated Annual Performance and Evaluation Report. If this sub-menu does not appear, check with the local IDIS administrator to make sure the user's IDIS user profile has been assigned access for the CAPER screens.
2. To add a new CAPER, click on Add in the Consolidated Annual Performance and Evaluation Report sub-menu on the left-hand side of the screen. The system will display the CR-00 Administration screen.
3. Complete the Administration screen using the information below. Each required field is marked with an asterisk (*). Grantees can leave non-required fields blank and provide this information later. When finished, click the <Save> button at the bottom of the screen. Once saved, the report's status is set to "Open—in Progress" and the grantee will be taken to the CAPER Menu screen that will list all of the data entry screens.

DATA ENTRY

Fields marked with an asterisk are required by the system. Those marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
*	Program Year	Indicate the program year of the report. This should match the Federal fiscal year of the allocation received during the program year. For example, to create a CAPER for a program year spanning July 1, 2012 to June 30, 2013, insert 2012. In order to use the full CAPER template, the grantee must have an approved Action Plan in IDIS for the year specified. If there is not an approved Action Plan for the specified program year, the grantee will be allowed to create an “ESG Only” CAPER template.
*	Version	The version must be unique to the grantee. This field cannot be edited once the CAPER is created.
*	Title	The title will appear on the cover and in the page heading of the printed report.

OVERVIEW

The report must describe the jurisdiction's progress in achieving its goals during the reporting period. The report should summarize this information in a way that both HUD and the jurisdiction's citizens can easily assess progress made toward meeting longer term goals.

This screen includes the following sections:

1. Summary of Progress Narrative
2. Table 1: Accomplishments for the Program Year
3. Table 2: Accomplishments for the Strategic Plan to Date
4. Assessment on the Use of Funds to Meet Highest Priorities Narrative

The two tables will automatically populate the goals based on information entered in the Strategic Plan and Annual Action Plan. The accomplishment fields will be populated based on the accomplishment information entered at the IDIS activity level. While the fields are populated by the system, a user can edit them if they appear incorrect.

The two narrative sections on this screen should be supported by the information found in the tables. Jurisdictions should use the narrative sections to highlight specific accomplishments and, if applicable, explain why progress was not made toward meeting specific goals.

OVERVIEW

The performance report must include a description of the race and ethnicity of families and persons assisted.

Local jurisdictions that receive CDBG must maintain data on the extent to which each racial and ethnic group and single-headed households (by gender of household head) have applied for, participated in, or benefited from, any program or activity funded in whole or in part by CDBG funds.

STATE GRANTEE INSTRUCTION

State grantees must maintain records for CDBG-funded projects that include data on the racial, ethnic, and gender characteristics of persons who are applicants for, participants in, or beneficiaries of the program.

Per 24 CFR 92.508(a)(7), HOME grantees are required to maintain equal opportunity and fair housing documentation, including data on the extent to which each racial and ethnic group and single-headed households (by gender of household head) have applied for, participated in, or benefited from, any program or activity funded in whole or in part with HOME funds.

The accomplishments reported in this table are read-only and cannot be edited. It is summarized from the IDIS activity accomplishment screens for the given program year for the grantee's programs.

OVERVIEW

The performance report must include a description of the resources made available, the investment of available resources, and the geographic distribution and location of investments. In addition, HOME grantees must provide detailed data on match, program income, and affirmative marketing actions and outreach to minority-owned and women-owned businesses.

This screen includes the following sections:

1. Resources Made Available Table
2. Geographic Distribution and Location of Investments Table
3. Leveraging and Match Narrative
4. Fiscal Year Summary HOME Match Report
5. Match Contribution for the Federal Fiscal Year Table

RESOURCES MADE AVAILABLE

This table provides a comparison between the expected amount of funds available from each resource to the amount actually expended in the program year. The expected amount available is generated by the system based on information entered in the Strategic Plan and Annual Action Plan. The expenditure data is generated by the system based on drawdowns completed during the program year. Users may update the values in both columns. The narrative should be used to explain any adjustments made to the default values.

Identify the resources made available.

NARRATIVE: LEVERAGING AND MATCH

The table below describes the data entry fields for this section. Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
!	Explain how Federal funds leveraged additional resources (private, state, and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction was used to address the needs identified in the plan.	Describe how additional resources were leveraged using federal dollars. For HOME and ESG grantees, use this field to detail how match requirements were satisfied. The HOME information should consistent with the Match tables on this screen. ESG data should be consistent with the information provided on CR-75 ESG Expenditures.

FISCAL YEAR SUMMARY HOME MATCH REPORT (HOME GRANTEES ONLY)

Unless granted a waiver, HOME grantees must match 25 cents for each dollar of HOME funds spent on affordable housing. The match is tracked by Federal fiscal year. This table collects information regarding compliance with the match requirement. It is recommended that HOME grantees use the HOME Match Report ([HUD Form 40107-A](#)) or a similar log to track eligible forms of match received throughout the program year (this screen collects the information recorded in the HOME Match Report).

HOME PROGRAM INCOME TABLE (HOME GRANTEES ONLY)

This table summarizes the receipt and expenditure of HOME program income. Several IDIS reports are useful in capturing this data. However, it is important for jurisdictions to distinguish between program income, recaptured funds, and repayments. This table is designed to collect the same information as Part II of the HOME Program Annual Performance Report (HUD Form 40107).

MINORITY BUSINESS AND WOMEN BUSINESS ENTERPRISES (HOME GRANTEES ONLY)

HOME grantees are required to oversee a minority outreach program within its jurisdiction to ensure the inclusion, to the maximum extent possible, of minorities and women, and entities owned by minorities and women, in all HOME-funded and other federally funded housing contracts. This table collects information on the number and value of contracts for HOME projects completed during the program year.

OVERVIEW

The performance report must include an evaluation of the jurisdiction's progress in meeting its specific goals of providing affordable housing, including the number and types of families served by income level and the number of homeless persons assisted. If the jurisdiction is not meeting its goals, the performance report should explain why sufficient progress was not made.

AFFORDABLE HOUSING – NUMBER OF HOUSEHOLDS ASSISTED TABLE

This table lists the goals and actual number of affordable housing units produced in the program year for each type of population (homeless, non-homeless, special needs). The One-Year Goal field is system-generated based on the information from the Action Plan. The Actual numbers must be provided by the user. The numbers reported for Actual should be consistent with the accomplishments reported at the Activity level in IDIS. Several reports, including the PR23 – Summary of Accomplishments, can help the jurisdiction determine the actual counts for the program year.

	One-Year Goal	Actual
Number of homeless to be provided affordable housing units	2121	
Number of non-homeless to be provided affordable housing units	3232	
Number of special-needs to be provided affordable housing units	5454

AFFORDABLE HOUSING – NUMBER OF HOUSEHOLDS SUPPORTED TABLE

This table lists the goals and actual number of affordable housing units produced in the program year for each type of housing assistance (rental assistance, production of new units, rehabilitation of existing units, and acquisition of existing units). The One-Year Goal field is system-generated based on the information from the Action Plan. The Actual numbers must be provided by the user. The numbers reported in the Actual field should be consistent with the accomplishments reported at the Activity level in IDIS. Several reports, including the PR23 – Summary of Accomplishments, can help the jurisdiction determine the actual counts for the program year.

CR-25 Homeless and Other Special Needs

Regulation Citation(s): 24 CFR 91.220(d, e), 91.320 (d, e), 91.420, 91.520(c)

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The report must include an evaluation of the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

- Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs
- Addressing the emergency shelter and transitional housing needs of homeless persons
- Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness; facilitating access for homeless individuals and families to affordable housing units; and preventing individuals and families who were recently homeless from becoming homeless again
- Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are:
 - Likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health-care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions)
 - Receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

As part of the government developing and implementing a homeless discharge coordination policy, ESG homeless prevention funds may be used to assist very low-income individuals and families at risk of becoming homeless after being released from publicly funded institutions such as health care facilities, foster care or other youth facilities, or corrections institutions or programs. The grantee should explain how the jurisdiction is implementing a homeless discharge coordination policy, and how ESG homeless prevention funds are being used in this effort.

DATA ENTRY: NARRATIVE

The table below describes the data entry fields for this section. Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
	Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:	
!	Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs	Highlight key accomplishments, milestones, and benchmarks. Also, identify any barriers that may have a negative impact on progress. Cite specific examples. Based on this, explain any adjustments and improvements that will be made to more effectively implement strategies and goals.
!	Addressing the emergency shelter and transitional housing needs of homeless persons	Highlight key accomplishments, milestones, and benchmarks. Also, identify any barriers that may have a negative impact on progress. Cite specific examples. Based on this, explain any adjustments and improvements that will be made to more effectively implement strategies and goals.
!	Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again	Highlight key accomplishments, milestones, and benchmarks. Also, identify any barriers that may have a negative impact on progress. Cite specific examples. Based on this, explain any adjustments and improvements that will be made to more effectively implement strategies and goals.
!	Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.	Highlight key accomplishments, milestones, and benchmarks. Also, identify any barriers that may have a negative impact on progress. Cite specific examples. Based on this, explain any adjustments and improvements that will be made to more effectively implement strategies and goals. Discuss progress made in terms of coordinating discharge policies that result in a decrease of homelessness.

CR-30 Public Housing

Regulation Citation(s): 24 CFR 91.220(h), 91.320(j), 91.420

OVERVIEW

Describe actions taken during the program year to carry out the public housing strategy described in the Strategic Plan on SP-50 Public Housing Accessibility and Involvement and the Action Plan on AP-60 Public Housing, including:

- Actions taken to address the needs of public housing
- Actions taken to encourage public housing residents to become more involved in management and participate in homeownership
- If applicable, actions taken to provide assistance to troubled PHAs

DATA ENTRY: NARRATIVE

The table below describes the data entry fields for this section. Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
!	Actions taken to address the needs of public housing	Summarize actions taken during the program year and progress made toward specific public housing goals, if any, set forth in the Strategic Plan and Action Plan.
!	Actions taken to encourage public housing residents to become more involved in management and participate in homeownership	Summarize actions taken during the program year. Provide explanation for actions proposed in the plan but not taken during the program year. Explain how future actions will change based on the results of the current year.
!	Actions taken to provide assistance to troubled PHAs	Summarize actions taken during the program year. Provide explanation for actions proposed in the plan but not taken during the program year. Indicate if the housing agency has removed the 'troubled' designation.

CR-35 Other Actions

Regulation Citation(s): 24 CFR 91.220(j, k), 91.320 (i, j), 91.420, 91.520(a)

Applicable?	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

OVERVIEW

The annual report must include a summary of progress made on the “Other Actions” described in the Strategic Plan and Action Plan, including:

- Barriers to Affordable Housing (SP-55 and AP-75)
- Obstacles to meeting underserved needs (AP-85)
- Lead-based Paint Hazards (SP-65 and AP-85)
- Anti-Poverty Strategy (SP-70 and AP-85)
- Institutional structure (SP-40 and AP-85)
- Enhance coordination (PR-15 and AP-85)

In addition, this section collects information on the jurisdiction’s actions to address impediments to fair housing choice, per 24 CFR 91.520(a).

DATA ENTRY: NARRATIVE

The table below describes the data entry fields for this section. Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
!	Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)	Summarize specific actions taken during the program year to address regulatory barriers to affordable housing. Grantees should refer back to the information provided in the Consolidated Plan and Annual Action related to barriers to affordable housing. Provide explanation for actions proposed in the plan but not taken during the program year. Explain how future actions will change based on the results of the current year.

*!	Field	Description
!	Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)	Summarize specific actions taken during the program year to address obstacles to meeting underserved needs. Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	<input checked="" type="checkbox"/>	CDBG	CDBG	<input checked="" type="checkbox"/>	CDBG	CDBG

OVERVIEW

For CDBG grantees, the performance report must describe any changes in its program objectives and the rationale for making the changes. The report should also indicate how the jurisdiction will change its programs as a result of its experiences. When conducting this self-assessment, consider the following questions:

- Are the activities and strategies making an impact on identified needs?
- What indicators would best describe the results?
- What barriers may have a negative impact on fulfilling the strategies and the overall vision?
- What is the status of grant programs?
- Are any activities or types of activities falling behind schedule?
- Are grant disbursements timely?
- Are major goals on target?

DATA ENTRY: NARRATIVE

The table below describes the data entry fields for this section. Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
!	Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.	Explain any adjustments and improvements that will be made to more effectively implement the jurisdiction's strategies. Identify any barriers and specific issues that may have a negative impact on progress as rationale for making changes. Changes to program objectives may also be based on the changing economic condition and market in which the grantee operates.

*!	Field	Description
	Does this jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?	Yes or No.
	Describe accomplishments and program outcomes during the last year.	If the answer to the BEDI question (above) is yes, describe the progress made in the given program year.

CR-65 ESG Persons Assisted (ESG recipients only)

Regulation Citation(s): 24 CFR 91.520(g)

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	ESG	ESG	ESG	<input checked="" type="checkbox"/>	ESG	ESG

OVERVIEW

ESG recipients will use this page to report information about persons assisted with ESG funds. The screen contains the following sections:

1. Homelessness Prevention Activities
2. Rapid Re-Housing Activities
3. Shelter Activities (Emergency and Transitional)
4. Total for all persons served with ESG
5. Gender
6. Age
7. Special Populations Served

DATA ENTRY: HOUSEHOLD INFORMATION

Complete the following table for 'homelessness prevention,' 'rapid re-housing,' 'shelter,' and 'Total for all persons served with ESG (Unduplicated, if possible).' A table for 'street outreach' is currently unavailable, but this information is still required. Please complete the Household Information table for 'street outreach' by adding a table. Jurisdictions should use HMIS data to the extent it is available, along with other data sources as needed, to populate these tables.

Number of Persons in Households	Total
Adults	<input type="text"/>
Children	<input type="text"/>
Don't Know/Refused	<input type="text"/>
Missing Information	<input type="text"/>
Total	<input type="text" value="0"/>

NOTE: The Household Information table for 'shelter' should be an unduplicated count within each shelter. For example, if the same person was provided with outpatient health services and legal services,

that person should only be counted once for one of the services (even if the provision of assistance occurred multiple times over the course of the reporting period). At this time, recipients are not expected to provide an unduplicated count of persons served among all shelters within the recipient’s jurisdiction. Therefore, if a participant was served by two different shelters within the same jurisdiction and the HMIS does not unduplicate between shelters, it is possible that that participant could be counted and reported twice in this table.

DATA ENTRY: GENDER INFORMATION

Complete the following table for all persons served with ESG during the program year. Jurisdictions should use HMIS data to the extent it is available, along with other data sources as needed, to populate these tables. Those ESG recipients that have collected gender information under the category “Other,” “Don’t know/Refused,” or “Missing Information” in HMIS are instructed to report this data under the “Unknown” category in the Gender Information table.

	Total
Male	<input type="text"/>
Female	<input type="text"/>
Transgendered	<input type="text"/>
Unknown	<input type="text"/>
Total	<input type="text" value="0"/>

DATA ENTRY: AGE INFORMATION

Complete the following table for all persons served with ESG during the program year. Jurisdictions should use HMIS data to the extent it is available, along with other data sources as needed, to populate these tables.

Number of Persons in Households	Total
Under 18	<input type="text"/>
18-24	<input type="text"/>
Over 24	<input type="text"/>
Don't Know/Refused	<input type="text"/>
Missing Information	<input type="text"/>
Total	<input type="text" value="0"/>

DATA ENTRY: SPECIAL POPULATIONS SERVED

Complete the following table for all persons served with ESG during the program year. Jurisdictions should use HMIS data; to the extent it is available, along with other data sources as needed, to populate these tables. For purposes of this table, “elderly” includes persons aged 62 and older.

Subpopulation	Total	Total Persons Served - Prevention	Total Persons Served - RRH	Total Persons Served in Emergency Shelters

Total (Unduplicated if possible)	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Note: Required Racial and Ethnic Data - To the extent that this information is available, recipients are required to report on the racial and ethnic status of families assisted by ESG. Although not included in the ESG-only CAPER template screens in IDIS, this information must be reported as part of the paper copy of the CAPER submitted to the applicable HUD field office. Recipients can use CAPER template screen CR-10 as an example of how to present this data.

CR-70 ESG Assistance Provided (ESG recipients only)

Regulation Citation(s): 24 CFR 91.520(g)

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	ESG	ESG	ESG	<input checked="" type="checkbox"/>	ESG	ESG

OVERVIEW

ESG recipients will use this page to report on the emergency shelter utilization rates. Recipients should use local data sources to populate these tables.

For “Total number of bed-nights available”: The recipient should enter the total number of slots (beds) that are available in a year. For example, if they are all year-round beds, it would be 365 multiplied by the number of emergency shelter beds; if some are seasonal as well (e.g., only winter) then they would add in the number of nights each bed is available.

For “Total number of bed-nights provided”: The recipient should enter the number of beds that were filled each night.

Note: Recipients should count all emergency shelter beds, whether or not they are ESG-funded.

DATA ENTRY: SHELTER UTILIZATION

The table below describes the data entry fields for this section. Fields marked with an asterisk are required by the system. Fields marked with an exclamation point (!) are required by HUD regulation.

*!	Field	Description
!	Number of Beds – Rehabbed	Enter the number of additional beds created as a result of a rehab activity.

*!	Field	Description
!	Number of Beds – Conversion	Enter the number of beds created as a result of conversion of a building to a shelter.
!	Total Number of bed-nights available	Enter the total number of beds available in a year – include all beds, whether or not they were ESG-funded.
!	Total Number of bed-nights provided	Enter the number of beds that were filled each night – include all beds, whether or not they were ESG-funded.
!	Capacity Utilization	Read-only. Calculated by system.

NOTE: ESG recipients are required to develop performance standards in consultation with the CoC(s). There is no place in this template to include this project outcomes data, but it is still required information for submission of the CAPER. Please provide this information by adding a table or text box. See 24 CFR 91.520(g) for the requirement.

CR-75 ESG Expenditures (ESG recipients only)

Type of Plan	Entitlement	Consortia Lead	Consortia Participant	State	Regional Lead	Regional Participant
Applicable?	ESG	ESG	ESG	<input checked="" type="checkbox"/>	ESG	ESG

OVERVIEW

ESG recipients will use this page to report ESG expenditures on each ESG component, as well as match sources. Each table will display the most recent three fiscal years. Jurisdictions do need to provide data for all three years, when there is a space to do so. Jurisdictions should report on the funds from each fiscal year's allocation that were expended during the reporting period (the recipient's program year) only. For purposes of this table, "expended" means that the cost was incurred by the recipient or subrecipient during the reporting period (not necessarily drawn down from IDIS).

The tables in this section capture expenditure data for both ESG and the legacy Emergency Shelter Grants programs. Particularly for Tables 11A, 11B, and 11D, not all categories and all fiscal year expenditure fields apply to both programs. For FY2009 and FY2010, it is not possible to enter data for some activities – this is because some activities that are now eligible ESG activities were not allowable under the Emergency Shelter Grants program. Jurisdictions should use data from local financial and accounting systems to complete these tables. Tables 11E and 11G are calculated by the system

SUBMITTING A CAPER

According to 24 CFR Part 91.520(a), “This performance report shall be submitted to HUD within 90 days after the close of the jurisdiction's program year.” Before submitting performance reports to the HUD Field Office for review, the jurisdiction must make the report available to the public for examination and comment for a period of at least 15 days.¹⁴ To create a copy of the report for public review, use the <Download as Word Document> or <Download as PDF Document> buttons at the top of the menu screen.

Before submitting the report to HUD, jurisdictions are encouraged to reconcile the information in the narratives with the accomplishment and expenditure information within the other sections of IDIS and IDIS reports.

To submit the report, return to the Administration screen and change the status of the plan from “Open in Progress” to “Submitted for Review.” Once it has been submitted, the jurisdiction will no longer be able to edit the information in the template.

The HUD Field Office staff person designated as the HUD Field Office Acceptor will receive an e-mail that the jurisdiction has updated the performance report’s status. If the Field Office reviews the performance report and feels changes are needed, they will update the status to “Reviewed and Waiting for Modifications.” This will allow the grantee to make necessary changes and revisions to report and submit it once again. If the Field Office finds that no changes are needed, they will update the status to “Review Completed” and the information in the template will remain read-only.

APPENDIX A: QUALITY CHECK ERRORS AND WARNINGS

CONSOLIDATED PLAN ERRORS AND WARNINGS

The following is a list of warnings and errors to help grantees assess the consistency and completeness of their Consolidated Plans submission. Quality checks for the Annual Action Plan are listed in the next section.

These errors and warnings may indicate that a requirement has not been met, which could potentially cause the HUD Field Office to not accept the plan submission as complete. However, plans can be submitted even if the Quality Check warnings are not cleared. If a user believes the plan meets all Consolidated Plan requirements, the grantee can ignore the Quality Check warning and submit the plan to HUD.

ANNUAL ACTION PLAN QUALITY CHECK ERRORS AND WARNINGS

The following is a list of errors and warnings that may appear on the Quality Check screen that can help grantees assess the consistency and completeness of their Annual Action Plans.

These errors and warnings may indicate that a requirement has not been met, which could potentially cause the HUD Field Office to not accept the plan submission as complete. However, plans can be submitted even if the Quality Check warnings are not cleared. If a user believes the plan meets all Consolidated Plan requirements, the grantee can ignore the Quality Check warning and submit the plan to HUD. Please note that the checks for AP-15 and AP-16 are not applicable for the Annual Action Plan component of a Consolidated Plan.

APPENDIX B: GOAL OUTCOME INDICATORS

GOAL OUTCOME INDICATOR DESCRIPTIONS

1. Public facility or infrastructure activities other than low/moderate-income housing benefit

Use this GOI for any CDBG-funded public facility or infrastructure project or activity that will not use Low-Mod Housing (LMH) as its national objective. Examples include street improvements or park improvements that use Low-Mod Area (LMA) or homeless shelters or senior centers that use Limited Clientele (LMC).

2. Public facility or infrastructure activities for low/moderate-income housing benefit

Use this GOI for any CDBG-funded public facility or infrastructure project or activity that will use Low-Mod Housing (LMH) as its national objective. Use this GOI when the grantee supports large housing developments with infrastructure improvements tied directly to the development.

3. Public service activities other than low/moderate-income housing benefit

Use this GOI for any CDBG-funded public service project or activity that will not use Low-Mod Housing (LMH) as its national objective. Most public services will use this GOI. Examples include youth services or senior services that use Limited Clientele (LMC) or anti-crime programs that use Low-Mod Area (LMA). Use this code for HOPWA-funded activities including Housing Information Services, Permanent Housing Placement, and Supportive Services.

4. Public service activities for low/moderate-income housing benefit

Use this GOI for any CDBG-funded public service project or activity that will use Low-Mod Housing (LMH) as its national objective. Examples include 05R Homeownership Assistance (Not Direct), 05S Rental Subsidies, and 05T Security Deposits.

5. Facade treatment/business-building rehabilitation

Use this GOI for any activity using the matrix code 14E Rehabilitation of Publicly or Privately-Owned Commercial/Industrial Properties. This GOI should also be used for 01 Acquisition, 15 Code Enforcement, 16B Non-Residential Historic Preservation, and similar activity types that target commercial properties.

6. Brownfield acres remediated

Brownfields are abandoned, idled or under-used real property where expansion or redevelopment is complicated by the presence or potential presence of environmental contamination. Use this GOI for any activity that will redevelop property that is considered a brownfield.

7. Rental units constructed

Use this GOI for any HOME- or CDBG-funded activity that constructs new rental units.

8. Rental units rehabilitated

Use this GOI for any HOME- or CDBG-funded activity that rehabilitates existing rental units. Use this GOI for any project involving the reconstruction of rental units.

9. Homeowner housing added

Use this GOI for any HOME- or CDBG-funded activity that constructs new owner-occupied units.

10. Homeowner housing rehabilitated

Use this GOI for any HOME- or CDBG-funded activity that rehabilitates existing owner-occupied units.

Use this GOI for any project involving the reconstruction of owner-occupied units.

11. Direct financial assistance to homebuyers

Use this GOI for any HOME-funded activity where the homebuyer receives down payment or closing cost assistance or purchases the home for a price below market value. For CDBG-funded activities, use this GOI for any project using the matrix code 13 Direct Homeownership Assistance.

12. Tenant-based rental assistance/Rapid rehousing

Use this GOI for any HOPWA or HOME-funded TBRA and CDBG-funded activity using matrix code 05S Rental Housing Subsidies.

13. Homeless person overnight shelter

Use this GOI for any CDBG-funded activity using matrix code 03C – Homeless Facilities (Not Operating) or 03T – Operating Costs of Homeless/AIDS Programs.

14. Overnight/Emergency shelter/Transitional housing beds added

Use this GOI for any CDBG-funded activity using matrix code 03C – Homeless Facilities (Not Operating) or 03T – Operating Costs of Homeless/AIDS Programs that adds beds to the available inventory.

15. Homelessness prevention

Use this GOI for any CDBG-funded activity using matrix code 05C – Legal Services, 05Q – Subsistence Payments, or 05T – Security Deposits that prevents homelessness. For HOPWA-funded projects, use this code for short-term rent, mortgage, and utility assistance (STRMU).

16. Jobs created/retained

Use this GOI for any CDBG-funded activity with Jobs as the accomplishment type, including those with national objectives such as LMJ, LMAFI, LMASA, and LMCMC. Also use this GOI for any HOPWA-funded activity where income-producing jobs are created.

17. Businesses assisted

Use this GOI for any CDBG-funded activity using a matrix code starting with 17, 18, and 14E – Rehab: Commercial/Industrial.

18. Housing for homeless added

Use this GOI for any CDBG-funded activity using matrix codes 01-Acquisition, 12-Construction of Housing, or a matrix code in the 14 series where units are designated for homeless. Also use this GOI for any HOME-funded activities that include units designated for homeless.

19. Housing for people with HIV/AIDS added

Use this GOI for any CDBG-funded activity using matrix codes 01-Acquisition, 12-Construction of Housing, or a matrix code in the 14 series where units are designated for people with HIV/AIDS. Also use this GOI for any HOME-funded activities that include units designated for people with HIV/AIDS. Finally, use this GOI for HOPWA-funded facility-based housing development, including acquisition, rehabilitation, conversion, lease, or repair.

20. HIV/AIDS housing operations

Use this GOI for any CDBG-funded activity using a matrix code 03T- Homeless/AIDS Programs when services are specifically for persons with HIV/AIDS. For HOPWA-funded projects, use this code for facility-based operations.

21. Buildings demolished

Use this GOI for any CDBG-funded activity using a matrix code 04-Clearance. This code can also be used as a secondary goal for HOME and HOPWA-funded projects that involve the clearance of blighted buildings.

22. Housing code enforcement/Foreclosed property care

Use this GOI for any CDBG-funded activity using a matrix code 15-Code Enforcement or 19E CDBG Operation and Repair of Foreclosed Property.

23. Other (Specify)

Use this GOI when none of the others describe the goal that the grantee wants to track.
