Special Attention of:	**Transmittal for Handbook No: 2400.25 REV-2**

Issued: October 1, 2008

1. This Transmits: HUD Handbook 2400.25 REV-2, Information Technology Security Policy

2. Summary:

   This document establishes the information security policy for HUD. The policy prescribes responsibilities, practices, and conditions that directly or indirectly promote security in the development, operation, maintenance, and support of all HUD information technology (IT) resources.

   The HUD information security policies are based on recent federal laws, regulations, and guidance on information security (e.g., the rapidly growing series of National Institute of Standards and Technology [NIST] Special Publications [SP] on information security). In areas where federal guidelines are lacking or still evolving, the policy reflects established best security practices within the security community.
