

CHANGES TO SECURE SYSTEM WEB ADDRESS (URL).

As a result of security upgrades, the Secure Systems URL has changed to the following:

https://www11.hud.gov/HUD_Systems

If you access Secure Systems using a bookmark, please change the bookmark to the new URL. The system, for a short time, will automatically switch over to the new URL if the "old" URL is used to access Secure Systems. However, continued use of the "old" URL will eventually result in an error message.

The Secure Systems Link contained on the REAC Homepage reflects the new URL. Accordingly, no action is necessary if you access Secure Systems through the On-Line Systems Page.
